

The City of Wildwood is in the process of improving the storm water management in the area East of City Hall. These improvements will help alleviate the flooding problems that occur throughout the year following heavy rains. While these improvements are being constructed the City will be closing portions of Gamble Street and Oxford Street, including the north entrance to the rear City Hall parking lot. Access will be maintained to all property owners in the affected area. Please follow the posted detour and see the attached map for recommended routes.

The anticipated time of closure will be from:  
**Monday April 26 at 7am until Friday April 30 at 5 pm**

1 inch = 200 feet

**City of Wildwood, Florida**  
**Gamble Street Detour**
