Raising Money to Fight Prostate Cancer – The Second Annual Dash for Dad 5K Set for November 19

(Oxford, Florida) -- Each year more than 218,000 men will be diagnosed with prostate cancer. That's one new case every 2.5 minutes; and more than 27,000 will die from the disease. Whether it's your grandfather, father, brother, uncle or friend, almost everyone knows someone who has been touched by this disease.

But there is hope – education about prostate cancer risk and early detection can save countless lives.

So lace up your sneakers and join the Advanced Urology Specialists (formerly Central Florida Urology Specialists), Advanced Prostate Cancer Institute and ZERO — The Project to End Prostate Cancer on Saturday, November 19 for the second annual Dash for Dad, a 5K Race/Walk.

All proceeds from the race will go to prostate research and free testing in the central Florida area to those at risk.

Central Florida Dash for Dad 5K Run / Walk
Advanced Prostate Cancer Institute
12109 CR 103
Oxford, FL 34484
