* Quasi Judicial Hearing

ORDINANCE NO. O2012-18

AN ORDINANCE OF THE CITY OF WILDWOOD, FLORIDA; AMENDING THE ADOPTED INTERLOCAL SERVICE BOUNDARY AND JOINT PLANNING AGREEMENT BETWEEN THE CITY OF WILDWOOD AND SUMTER COUNTY; PROVIDING FOR CONFLICT; PROVIDING FOR CODIFICATION, AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City passed Ordinance O2009-10 on or about April 13, 2009, adopting the Interlocal Service Boundary and Joint Planning Agreement between Sumter County (the "County") and the City of Wildwood ("City").

WHEREAS, the City passed Ordinance O2010-14 on or about August 9, 2010 amending the Interlocal Service Boundary (ISBA) and Joint Planning Agreement (JPA) between the County and the City;

WHEREAS, the City's Comprehensive Plan rewrite was approved by the state land planning agency on or about April 12, 2010 in which no petition challenging the amendment was filed;

WHEREAS, the City and the County wish to update the Planning Service Delivery Sub-Agreement to reflect current planning conditions; and

WHEREAS, the City and the County wish to amend the boundary of the Interlocal Service Boundary and the future land uses within the boundary.

NOW THEREFORE, be it ordained by the City Commission of the City of Wildwood, Florida, as follows:

SECTION 1. AGREEMENT: The Planning Service Delivery Sub-Agreement included as part of Interlocal Service Boundary and Joint Planning Area Agreement between the City of Wildwood and Sumter County adopted by Ordinance O2010-14 is hereby stricken in its entirety and replaced by the "Planning Service Delivery Sub-Agreement" attached hereto and included herein as Exhibit "A."

SECTION 2. INTERLOCAL SERVICE BOUNDARY MAP: The Interlocal Service Boundary Map, referred in the Interlocal Service Boundary Agreement as "Map 1," is hereby amended and included herein as Exhibit "B."

SECTION 3. LAND USE MAP: The Current Anticipated Future Land Uses in the MSA map, referred to in the Interlocal Service Boundary Agreement as "Map 2," is hereby deleted and replaced with the Joint Planning Area Future Land Use Map included herein as Exhibit

“C.”

SECTION 4. CONFLICT: All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 5. SEVERABILITY: If any section, subsection, sentence, clause, phrase of this Ordinance, or any particular application thereof shall be held invalid by any court, administrative agency, or other body with appropriate jurisdiction, the remaining section, subsection, sentences, clauses, or phrases under application shall not be affected thereby.

SECTION 6. CODIFICATION: The ISBA and JPA, as amended by this ordinance, shall be codified as a new Chapter 24 of the Sumter County Code, which shall be entitled “Interlocal Service Boundary Agreements”.

SECTION 7. EFFECTIVE DATE This Ordinance shall take effect upon final approval by the City Commission of the City of Wildwood and the final approval by the Sumter County Commission of the aforementioned sub-agreement, and the date upon which the last entity passes an ordinance approving the amendment. If a specific effective date is included in a provision of one of the sub-agreements adopted by this ordinance.

DONE AND ORDAINED this _____ day of _____ 2012, in Regular Session by the City Commission of the City of Wildwood, Florida.

Ordinance O2012-18
Exhibit A
Planning Service Delivery Sub-Agreement

Planning Service Delivery Sub-Agreement

This Planning Service Delivery Sub-Agreement is made and entered into this 25th day of June, 2012, by and between the City of Wildwood (“City”) and Sumter County (“County”).

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and,

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes: and,

WHEREAS, The County and City each provide planning, zoning, and development review services within their respective jurisdictions. This independent approach to planning, zoning, and development review services often leads to inefficient and uncoordinated development. Currently, coordination of planning, zoning, and development review issues occur in an informal manner; and,

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as joint planning; and,

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and,

WHEREAS, Section 171.203(6), Florida Statutes (2011), allows an interlocal service boundary agreement to establish a process for land use decisions consistent with part II of Chapter 163, including those which may allow a municipality to adopt land use changes consistent with part II of Chapter 163 for areas that are scheduled to be annexed within the term of the interlocal agreement; and,

WHEREAS, the City and County have amended the Intergovernmental Coordination Element of their respective comprehensive plans to reference the Interlocal Service Boundary Agreement pursuant to Section 171.203, Florida Statutes (2011).,

WHEREAS, Section 171.203, Florida Statutes (2011), provides that a municipality that is a party to an interlocal service boundary agreement that identifies an unincorporated area for

municipal annexation must adopt a municipal service area as an amendment to its comprehensive plan to address possible future annexations; and,

WHEREAS, the Local Government Comprehensive Planning and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes, requires that counties and City include in their respective planning efforts intergovernmental coordination and particularly, mechanisms for identifying and implementing joint planning areas; and,

WHEREAS, Section 163.3171 Florida Statutes (2011), provides for joint planning agreements for the joint exercise of the planning authority of the County and the City within incorporated and unincorporated areas; and,

WHEREAS, Section 171.204, Florida Statutes (2011), allows a municipality to pursue annexation of land which is not contiguous to the municipality, creates an enclave or is not reasonably compact when a county and municipality enter into a joint planning agreement under Section 163.3171; and,

WHEREAS, the State Comprehensive Plan requires local governments to direct development to those areas which have in place the land and water resources, fiscal abilities, and service capacity to accommodate growth in an environmentally acceptable manner; and,

WHEREAS, the State Comprehensive Plan requires local governments to protect the substantial investment in public facilities that already exist and to plan for and finance new facilities in a timely, orderly, and efficient manner; and,

WHEREAS, the City and the County wish to identify lands that are logical candidates for urbanized development, the appropriate land uses and infrastructure needs and provider for such lands, ensure protection of natural resources, and to establish coordinated countywide planning efforts; and,

WHEREAS, the extension of the City and County facilities and services are most efficiently provided if the process and timing of long range planning and development review processes for the City and County are clearly identified and part of a unified countywide planning organization in advance of City and County capital planning, commitment, and expenditure;

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree to enter into this joint planning agreement pursuant to Sections 163.3171 and 171.204, Florida Statutes, and that a coordinated approach to planning, zoning, and development review will result in development patterns that protect and promote the health and welfare of all of the citizens of Sumter County. Therefore, the County and City agree as follows:

1. Planning Service Delivery.

- a. The City shall serve as the single point of service for planning, zoning, and development review issues including, but not limited to preparation and adoption of comprehensive plan amendments, amending land development regulations and issuing development orders, within the incorporated boundaries of the municipality; and
 - b. The County shall serve as the single point of service for planning, zoning, and development review issues including, but not limited to, preparation and adoption of comprehensive plan amendments, amending land development regulations and issuing development orders, within the unincorporated areas and within other cities that agree to consolidate.
2. Municipal Service Area.
- a. The Municipal Service Area (MSA) is defined as the area outside of the City's boundary that constitutes a logical area for urbanized development and serves as the Joint Planning Area (JPA), as more specifically defined in Sections 171.202(11) and 163.3171, Florida Statutes (2011).
 - b. At the time of execution of this agreement, the current boundary of the MSA is reflected on Map "1" attached hereto and incorporated herein.
 - c. The City has demonstrated that public services are readily available or planned to be provided within a reasonable timeframe within the current boundaries of the MSA.
 - d. Before any amendments to increase the size of the MSA, the City shall demonstrate that public services are readily available or plan to be provided within a reasonable timeframe for the proposed area.
 - e. Consistent with Section 171.203(11) and Section 163.3171, Florida Statutes (2011), the County and City shall, prior to implementation of any of the benefits for annexations provided for within Section 171, Part II, Florida Statutes, and implementation of the Joint Planning Area and its benefits provided for within Chapter 163, Part II, Florida Statutes, within the MSA boundary as identified on Map "1" attached hereto and incorporated herein, seek amendment of their respective comprehensive plans as follows, subject to the statutory review authority of the Florida Department of Economic Opportunity:
 - i. The City and the County shall amend their respective comprehensive plans:
 - A. To incorporate the boundaries of the MSA and Joint Planning Area (JPA) as reflected in the attached Map "1" and the anticipated future land uses of the MSA/JPA as reflected in the attached Map "2" into the Future Land Use Maps of their respective Comprehensive Plans. These

amendments will be transmitted to the Department of Economic Opportunity within 2 months of the date of execution of this agreement; and,

B. Amend the intergovernmental coordination element of the City and County Comprehensive Plans as described in Section 163.3177(6)(h)1., Florida Statutes (2011) as follows:

I. To allow for annexations of any areas within the MSA that would not otherwise be possible under Chapter 171, Florida Statutes, because they would create pockets, create enclaves, or would be noncontiguous and to require procedures for such annexations be implemented in the City and County Land Development Regulations, subject to the approval of the required amendments to the City and County's Future Land Use Maps, which will be transmitted to the Department of Economic Opportunity within 2 months of the execution of this agreement.;

II. To require that the City and County implement a process for land use decisions within the MSA consistent with this agreement and Part II of Section 163; and,

III. To require that the City and County implement the procedures consistent with this agreement for preparing and adopting comprehensive plan amendments, administering land development regulations and issuing development orders within the MSA.

ii. The County and City shall also adopt this agreement into their comprehensive plans..

f. The City and County further agree that if approval of the Comprehensive Plan amendments exceeds any applicable time frames required by this Agreement or Statute for such approval, that this Agreement will remain in full force and effect and the Parties will continue to work together to seek approval of the required amendments and neither party shall have the right to terminate it as indicated in paragraph 6.a., of the Master Agreement at least until the objectives provided for in this sub-agreement have been met and the City and County have amended the intergovernmental coordination elements of their respective comprehensive plans so that the requirements of this sub-agreement have been adopted into their respective comprehensive plans and their future land use maps have been amended to include boundaries of the MSA as it appears on Map "1" and the anticipated future land uses as reflected on Map "2"; their respective comprehensive plan amendments have been approved; and the comprehensive plan amendments have been finalized. Nothing herein shall be deemed to indicate that the parties should terminate this agreement after these objectives have been met, but neither party may terminate this agreement as provided for in the Master Agreement in paragraph 6.a., until these objectives have been met.

3. Termination of this Agreement. This Agreement may not be terminated pursuant paragraph 6 of the Master Interlocal Service Boundary and Joint Planning Agreement until the following has occurred:

- a. The City and County comprehensive plans adopting the MSA as depicted in Maps “1” and “2” have been approved and the amendments become effective as described in Section 163.3184(3)(c)4, Florida Statutes (2011);
- b. The other Comprehensive Plan Amendments required by this planning agreement have been approved and the amendments become effective as described in Section 163.3184(3)(c)4, Florida Statutes (2011) ; and,
- c. All of the comprehensive plan amendments required by this Agreement have been finalized.

4. Global Changes to MSA Boundary. A “Global Change” shall be understood herein to mean any change to the MSA boundary as it is defined upon the effective date of this Agreement. Amendments to the MSA boundary shall be by amendment to the Comprehensive Plans of the County and City, and shall, not be effective unless jointly approved by both the County and City or determined through dispute resolution.

5. Future Land Use Pattern. The City and County agree to the generalized future land use pattern for the MSA shown on Map 2. The City and County shall amend their respective Comprehensive Plan’s future land use maps to reflect the agreed future land use pattern. The Parties will cooperate with each other in the Comprehensive Plan amendment process. If the Florida Department of Economic Opportunity challenges the amendments and request a hearing with the Division of Administrative Hearings, this Agreement will remain in full force and effect and the Parties will continue to work together to determine the proper future land uses and obtain a compliance agreement with the Florida Department of Economic Opportunity.

6. Annexation within the MSA.

a. Following the effective date as described in Section 163.3184(3)(c)4, Florida Statutes (2011) of the required comprehensive plan amendments to implement the MSA/JPA within the City’s and County’s Future Land Use Maps, the City may annex any property within the MSA including property that is not contiguous, that creates enclaves, or that creates pockets, if the property proposed for annexation meets the following criteria:

- i. It is consistent with the prerequisites to annexation and consent requirements for annexation in Section 171.204 and Section 171.205, Florida Statutes;
- ii. Utilities are available or scheduled to be provided to the property within five (5) years;
- iii. A road directly impacted by the annexation, meaning such road directly abuts the property or otherwise provides significant service to the property, meets concurrency or concurrency deficiencies are mitigated through a binding agreement;

iv. All other municipal services are available to the site; and,

v. City has adopted the MSA as part of its Comprehensive Plan, as required by Section 171.203(11), Florida Statutes.

b. Property within the MSA that is contiguous to the City, does not create enclaves and does not create pockets may be annexed into the City without meeting the criteria of subsection 6a as long as the requirements of Part I of Chapter 171, Florida Statutes, have been met.

c. If property within the MSA abuts a segment of a roadway, then at the time of its annexation, the road right of way (including the road and adjacent right of way) of the entire road segment shall be deemed to be annexed simultaneously into the City if the annexation of the property (not including the roads) will result in 51% or more of the road segment as defined in the Roads sub-agreement to be annexed into the City.

7. Minor Amendments to MSA Boundary. Following the effective date as described in Section 163.3184(3)(c)4, Florida Statutes (2011) of the comprehensive plan amendments to implement the MSA/JPA within the City's and County's Future Land Use Maps, the MSA may be expanded to include a parcel or parcels of property for annexation following joint approval by the City and County. Approval shall not be unreasonably withheld if the property meets the criteria for annexation within the MSA and there is no increase in density or intensity of development. If there is an impasse, the City and County will resolve through the dispute resolution process. The expanded MSA shall not take effect until the City's and County's Future Land Use Maps are amended.

8. Annexation of Properties Partially in the MSA.

Following the effective date as described in Section 163.3184(3)(c)4, Florida Statutes (2011) of the comprehensive plan amendments to implement the MSA/JPA within the City's and County's Future Land Use Maps :

a. If at least 50% of the area of the property proposed to be annexed is within the MSA, then the property shall be treated as if it were all within the MSA for purposes of this Agreement;

b. If less than 50% of the area of the property proposed to be annexed is within the MSA, then it shall be treated as outside the MSA for purposes of this Agreement;

c. The above provisions shall not be construed so that a property owner could not choose to annex a portion of a property inside the MSA;

9. Review of Applications Received by County. To assure coordination of plans for City and County development:

- a. County staff shall, within five (5) working days of receipt of development or land use related applications, inform City staff of all applications which may affect development within the MSA. The “development or land use related applications” or “applications”, as described above, for purposes of this Agreement shall include amendments to the future land use map and amendments to the text of the comprehensive plan, rezonings, planned unit developments, commercial site plans and subdivisions of land which would create five (5) or more lots;
 - b. City staff will receive copies of the development or land use related applications, staff reports and minutes or records approving any such change or amendment, including notice of final approval of same;
 - c. The County will include the City as part of the County’s Development Review Committee (DRC) for projects within the MSA and will afford an opportunity to the City to participate as an advisory non-voting member at the DRC meetings;
 - d. The City will provide the County its comments on proposed development and land use related applications at least one (1) business day before the DRC meeting or within ten (10) working days of receipt of a copy of applications for rezonings and comprehensive plan amendments; and
 - e. These comments will be presented to the County’s Zoning and Adjustment Board and Board of County Commissioners by County staff.
10. Review of Development and Land Use Related Applications Received by City.
To assure coordination of plans for City and County development:
- a. City staff shall, within five (5) working days of receipt, inform County staff of all applications which may affect development within municipal boundaries (annexed areas) of the MSA;
 - b. County staff will receive copies of the applications, staff reports and minutes or records approving any such change or amendment, including notice of final approval of same;
 - c. The City will include the County as part of the City’s staff review process for projects within the municipal boundaries of the MSA and will afford an opportunity to the County to participate as a member of the City’s Project Review Committee meetings;
 - d. The County will provide the City its comments on proposed development applications at least one (1) business day before the staff review meeting or within ten (10) working days of receipt of a copy of applications for rezonings and comprehensive plan amendments; and

e. These comments will be presented to the City's respective Planning Board and City Commission by City staff.

11. Commercial Design Standards. Within the MSA, the County will adhere to the City's Design District Standards,. The City shall provide design standard review at no charge to the County.

HISTORY/FACTS/ISSUES:

The Interlocal Services Boundary and Joint Planning Area Agreement between the City and Sumter County require the City to adopt the Joint Planning Area Agreement into the Comprehensive Plan.

The amendments to the City's Comprehensive Plan include incorporation of the Joint Planning Area Map (Map 1-11) and the Joint Planning Area Future Land Use Map (Map 1-12) into the Future Land Use Map series. The amendment also includes text amendments to the Future Land Use and Intergovernmental Coordination Elements concerning urban sprawl, land uses within the JPA, annexation, and provisions of services as outlined in the Agreement.

The Special Magistrate acting as the Local Planning Agency recommended approval of Ordinance O2012-22 on June 5th, 2012.

Staff recommending the transmittal of Ordinance O2012-22 to the reviewing agency for comments.

Melanie Peavy
Development Services Director

ORDINANCE NO. O2012-22

AN ORDINANCE OF THE CITY OF WILDWOOD FLORIDA; PROPOSING TEXT AMENDMENTS TO THE FUTURE LAND USE ELEMENT AND INTERGOVERNMENTAL COORDINATION ELEMENT AND INCLUSION OF THE INTERLOCAL SERVICE BOUNDARY AREA MAP AND JOINT PLANNING AREA FUTURE LAND USE MAP TO THE ADOPTED LOCAL COMPREHENSIVE PLAN TO IMPLEMENT THE JOINT PLANNING AREA BETWEEN THE CITY OF WILDWOOD AND SUMTER COUNTY IN ACCORDANCE WITH THE ADOPTED INTERLOCAL SERVICE BOUNDARY AGREEMENT AND CHAPTERS 171 AND 163, FLORIDA STATUTES; PROVIDING FOR CODIFICATION; PROVIDING FOR CONFLICT; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City passed Ordinance O2009-10 on or about April 13, 2009, adopting the Interlocal Service Boundary (ISB) and Joint Planning Agreement (JPA) between Sumter County (the "County") and the City of Wildwood ("City").

WHEREAS, the City passed Ordinance O2010-14 on or about August 9, 2010 amending the ISB and JPA between the County and the City;

WHEREAS, the City and the County are required to amend their local comprehensive plans to implement the provisions within the ISB and JPA; and

NOW THEREFORE, be it ordained by the City Commission of the City of Wildwood, Florida, as follows:

SECTION 1. The text amendments to the Future Land Use and Intergovernmental Coordination Elements of the City of Wildwood Comprehensive Plan are shown in attached "Exhibit A." The amendments are attached hereto and are shown with ~~strikethrough~~ for deletions and underline for additions.

SECTION 2. The City of Wildwood and Sumter County Joint Planning Area Map (Map 1-11) and the City of Wildwood and Sumter County Joint Planning Area Future Land Use Map (Map 1-12) are hereby included into the Future Land Use Map series of the City of Wildwood Comprehensive Plan. The Maps are attached hereto and are shown in the attached "Exhibit B."

SECTION 3. With the recommendations of the Local Planning Agency and the City Commission, the proposed amendments are hereby transmitted by the City Commission to the state land planning agency.

SECTION 4. All ordinances or parts of ordinances in conflict herewith, be, and the same are hereby repealed.

SECTION 5. If any section, sentence, clause or phrase of this Ordinance is held to be invalid or unconstitutional by a Court or competent jurisdiction, then said holding shall in no way effect the validity of the remaining portions of said Ordinance.

SECTION 6. This Ordinance, if the amendment is not timely challenged, shall be effective 31 days after the state land planning agency notifies the local government that the plan amendment package is complete. If timely challenged, this Ordinance shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this Ordinance to be in compliance. No development orders, development permits, or land uses dependent upon this Ordinance may be issued or commenced before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this Ordinance may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the state land planning agency.

Elements of the Comprehensive Plan**

Chapter 1

FUTURE LAND USE ELEMENT

Goals, Objectives, Policies

Any and All Florida Statutes, Florida Administrative Code Regulation or Other Regulations Referenced in this Element shall be Enforced as it Existed on the Date of Adoption or Amendment of this Element and are to Include any Amendments to tie Referenced Regulation, Statute or Code Adopted After the Date of Adoption or Amendment of this Element.

GOAL 1 The City of Wildwood shall implement Smart Growth through comprehensive, policies, regulations, capital projects and incentives for effective management of the land use pattern in the City to enhance the quality of life for its citizens, promote economic vitality, and accommodate population and development in an environmentally acceptable manner.

OBJECTIVE 1.1 The City shall maintain regulations for land use categories and the Future Land Use Map Series in order to manage the allocation of Future Land use through the year 2035.

Policy 1.1.1 The City shall designate land use on the Future Land Use Map to accommodate needs identified within the Comprehensive Plan supporting document (i.e., Data, Inventory & Analysis). The City shall allocate sufficient land above identified needs to avoid economic impacts with a controlled supply of land places on land values and market potential.

Policy 1.1.2 The Future Land Use Map Series shall designate areas for the uses listed in Table 1-1 and shall not exceed the maximum density and intensity contained in the Table. Density and intensity shall be calculated on a gross acreage basis unless otherwise noted.

Table 1-1

Land Use Designation	Permitted Residential Density	Special Requirements	Non-Residential Allowable Uses and Intensities
Residential/ Institutional/ Office	Single family: 4/ acre Other: 15/ acre	Mix 50% residential, 25% institutional, 25% office.	Medical offices and laboratories, offices, group living facilities, schools, public facilities and community centers. Max ISR 80%. Max FAR 0.60.
Residential Mixed Use	5/ acre		Max 25,000 sq. ft. neighborhood commercial per development.

Land Use Designation	Permitted Residential Density	Special Requirements	Non-Residential Allowable Uses and Intensities
Mobile Home Parks	10/ acre		
Low Density Residential	4/ acre		
Low Medium Density Residential	6/ acre		
Medium Density Residential	9/ acre		
Medium High Density Residential	12/ acre		
High Density Residential	15/ acre		
Oxford Neighborhood Mixed Use	7/ acre	Minimum 25% Parks and Open Space. PD zoning. Minimum & maximum percentages apply to each use category.	Commercial, government, civic, institutional & recreational. Max ISR 60%. Max FAR 0.30/ acre.
Oxford Residential Mixed Use	Min 5/ acre Max 10/ acre	Permitted density dependent on proximity to employment or neighborhood mixed use center.	Support commercial may be permitted up to a maximum of 10% of acreage.
Oxford Neighborhood Commercial	4/ acre	PD Zoning	Retail sales/service, office, civic & institutional uses. Max ISR 60%. Max FAR 0.30.
Central Mixed Use	14/ acre	Minimum 15% Parks and Open Space. PD zoning. Minimum & maximum percentages apply to each use category.	Commercial, recreation & tourism, government, civic and institutional. Max ISR 80%. Max FAR 0.50/ acre.
High Density Residential Mixed Use	Min 8/ acre Max 15/ acre	PD Zoning	Max ISR 80%.
Downtown Commercial	15/ acre	Building square footage and acreage devoted to residential uses shall not exceed 30% of the building square footage and acreage of the project.	Max ISR 90%. Max FAR 2.0

Land Use Designation	Permitted Residential Density	Special Requirements	Non-Residential Allowable Uses and Intensities
Commercial Center Mixed Use	10/ acre	Minimum 25% Parks and Open Space. PD zoning. Minimum & maximum percentages apply to each use category.	Commercial sales/office, business park, government, civic, institutional & recreational. Max ISR 70%. Max FAR 0.75/ acre.
Business Park Mixed Use	3-6/ acre	Minimum 25% Parks and Open Space. PD zoning. Minimum & maximum percentages apply to each use category.	Commercial sales/office, business park, government, civic, institutional & recreational. Max ISR 70%. Max FAR 0.75/ acre.
Employment Center Neighborhood Mixed Use	7/ acre	Minimum 25% Parks and Open Space. PD zoning. Minimum & maximum percentages apply to each use category.	Commercial sales/office, business park, government, civic, institutional & recreational. Max ISR 60%. Max FAR 0.50/ acre.
South Wildwood Neighborhood Mixed Use	4/ acre	Minimum 40% Parks and Open Space. PD zoning. Minimum & maximum percentages apply to each use category.	Commercial sales/office, government, civic, institutional & recreational. Max ISR 50%. Max FAR 0.3/ acre.
General Commercial			Retail, offices and services. Max ISR 75%, Max FAR 0.25.
Industrial			Manufacturing, mining, processing, concrete or asphalt plants, warehousing, and other industrial activities. Max ISR 70%. Max FAR 0.25.

Land Use Designation	Permitted Residential Density	Special Requirements	Non-Residential Allowable Uses and Intensities
Agriculture -5	1/ per 5 acres		Aquaculture, horticulture, floriculture, viticulture, dairies, land used for animal grazing, and any and all forms of farm products and farm production. Max FAR 0.20.
Agriculture -10	1/ per 10 acres	Developments may achieve 1 per 5 acres provided qualifying criteria are met.	Aquaculture, horticulture, floriculture, viticulture, dairies, land used for animal grazing, and any and all forms of farm products and farm production. Max FAR 0.20.
Conservation			Conservation and passive recreation. Max ISR 5%.
Recreational			Publicly-owned recreation areas and facilities, including tourist attractions, race tracks, golf courses. Max ISR 20%.
Public Facilities			Public or private schools, universities, colleges, churches and other places of worship, hospitals and public health facilities, Adult Congregate Living Facilities (ACLF's), cemeteries, community and civic centers, libraries, City offices, police and fire stations, water pump stations, wastewater treatment plants, systems of facilities for public transportation, and other facilities used to deliver public services. Max FAR 0.60.

<u>Land Use Designation</u>	<u>Permitted Residential Density</u>	<u>Special Requirements</u>	<u>Non-Residential Allowable Uses and Intensities</u>
<u>Rural Residential</u>	<u>1/ acre</u>	<u>Joint Planning Area Designation</u>	
<u>Estate Residential</u>	<u>2/ acre</u>	<u>Joint Planning Area Designation</u>	
<u>466/301 Mixed Use District</u>	<u>15/ acre</u>	<u>Joint Planning Area Designation. Land use percentages apply.</u>	<u>Office, medical, retail, institutional, recreational. 1.0 FAR</u>

Policy 1.1.3 The City shall regulate land use activities within land use categories shown on the Future Land Use Map through the maintenance of zoning districts. The density and intensity of land use activities established for each zoning district shall be consistent with the density and intensity qualitative standards as set forth on the Future Land Use Map for the associated land use district.

Historic Mixed Use Designations

Policy 1.1.4 Residential/Institutional/Office Land Use This category includes land used for a mix of residential dwellings, medical offices and laboratories, business and professional offices, group living facilities, schools, public facilities and community centers. The maximum density for single family residential is 4 units per acre. Duplexes, triplexes, townhomes and multi-family residential developments are permitted up to 15 units per acre. The maximum Floor Area Ratio for office and institutional uses is 0.60, with a Maximum Impervious Surface Ratio of 80%. The residential/institutional/office designation is intended to provide for a mix of uses within a development site or within a multiple parcel area. The required mix shall be 50% Residential, 25% Institutional and 25% Office for the entire district. Parks and recreational uses are also permitted. Property with this FLU designation is most likely found within the downtown area.

Policy 1.1.5 Residential Mixed Use This category includes land used for a mix of residential dwellings and low intensity neighborhood commercial uses up to 5 units per gross acre and up to 25,000 square feet of neighborhood commercial for the entire development. Parks and recreational uses are allowable as set forth by the Land Development Regulations. Also included in this category are Planned Developments (PDs) which support residential, commercial, recreation and open space.

Residential Designations

Policy 1.1.6 Rural Residential This category includes land used for residential purposes up to 1 unit per acre and is intended for land on the periphery of the Joint Planning area.

Policy 1.1.7 Estate Residential This category includes land used for residential purposes up to 2 units per acre and is intended for land on the periphery of the Joint Planning area.

Policy 1.1.6-8 Low Density Residential This category includes land used for residential purposes up to 4 units per acre. Other permitted uses include parks, agricultural and recreational uses.

Policy 1.1.7-9 Low Medium Density Residential This category includes a mix of residential land uses up to 6 units per acre.

Policy 1.1.8-10 Medium Density Residential This category includes a mix of residential land uses up to 9 units per acre.

Policy 1.1.9-11 Medium High Density Residential This category includes a mix of residential land uses up to 12 units per acre.

Policy 1.1.10-12 High Density Residential This category includes a mix of residential land uses up to 15 units per acre.

Policy 1.1.11-13 Mobile Home Parks This category allows mobile home parks up to 10 units per gross acre.

Commercial Designations

Policy 1.1.12-14 General Commercial This category includes land used for a variety of highway retail uses, offices, and the provision of services. Sites will primarily be located on SR 44, CR 466A, and U.S. 301. The maximum intensity standard for this land use category is limited to 75% impervious surface ratio and 0.25 FAR.

Other Land Use Designations

Policy 1.1.13-15 Industrial This category includes land used for a manufacturing, mining, processing, concrete or asphalt plants, warehousing, and other industrial activities. The maximum intensity standard for this land use category is limited of 70% impervious surface ratio and 0.25 FAR.

Policy 1.1.14-16 Agriculture- 5 This category includes land primarily used for production of foods and animals. These uses include aquaculture, horticulture, floriculture, viticulture, dairies, land used for animal grazing, and any and all forms of farm products and farm production. Single family residential uses are allowable in this category up to 1 unit per 5 acres. Non-residential uses allowable include parks and recreational uses, barns, sheds, poultry houses, stables, livestock houses, and other similar uses. Commercial uses that directly support agricultural activities may be allowed as conditional uses set forth in the Land Development Regulations. Maximum FAR for non-residential uses is 0.20.

Policy 1.1.15-17 Agriculture- 10 This category includes land primarily used for production of foods and animals. These uses include aquaculture, horticulture, floriculture, viticulture, dairies, land used for animal grazing, and any and all forms of farm products and farm production. Single family residential uses are allowable in this category up to 1 unit per 10 acres. Non-residential uses allowable include parks and recreational uses, barns, sheds, poultry houses, stables, livestock houses, and other similar uses. Commercial uses that directly support agricultural activities may be allowed as conditional uses set forth in the Land Development Regulations. Maximum FAR for non-residential uses is 0.20. All future properties that seek an agricultural land use designation shall be given this Future Land Use Map designation.

Policy 1.1.16-18 Lands designated as Agriculture-10 on the Future Land Use Map may achieve a density of 1 unit per 5 acres provided the proposed development achieves seventy (70) points out of a possible one hundred ten (110) points. Regardless of the extent of the property ownership boundaries, only that land area located within 2 miles of the Mixed Use Center may be eligible for the density increase.

A. Points shall be awarded for a development's:

1. Proximity to the edge of a Mixed Use Center as designated on Map 1-9:
 - o 0--0.5 mile = 50 points
 - o 0.5--1.0 mile = 40 points
 - o 1.0--1.5 miles = 30 points
 - o 1.5--2.0 miles = 20 points
 - o Greater than 2.0 miles = 0 points
2. Proximity to a fire station:
 - o 0--3 miles = 10 points
 - o 3--6 miles = 5 points
3. Proximity to the nearest emergency medical services (ambulance) station:
 - o 0--3 miles = 10 points
 - o 3 -- 6 miles = 5 points
4. Vehicular access to federal, state or County arterial or collector roads (as designated on Map 2-2 of the Transportation Element Map Series) which meet or exceed the adopted levels of service, provided the development fronts on and provides access directly onto an arterial or collector:
 - o Where development has access to arterial road--10 points
 - o Where development has access to collector road--5 points
5. Provision of City central water and sewer services:
 - o Development served by central water--10 points.
 - o Development served by central sewer--10 points.
6. Proximity to public schools, as follows: Developments within two (2) miles of a public school shall be awarded ten
 - o Within two (2) miles --10 points

B. The awarding of points for subsections a.1. through a.6. shall be subject to the following restrictions:

1. Points shall be awarded for only one item in each category, except water and sewer which may receive points for both services.
2. The awarding of points for proximity to schools and roads shall only occur if the facility meets the level of service standard, or there are capital improvements planned within the five-year schedule of capital improvements.
3. Distance shall be measured along the shortest driving distance on publicly maintained roads from the nearest point on the subject development tract to the applicable criteria.

Policy 1.1.17-19 Conservation Land contained in this category includes land that is deemed undevelopable or to be protected from future development. Areas in this category may include wetlands, lakes, areas within the 100-year flood, or land acquired for the purposes of conserving, preserving, or managing environmentally sensitive lands. Permitted land uses include conservation and passive recreation. Maximum ISR 0.05.

Policy 1.1.18-20 Recreational This category includes privately and publicly-owned recreation areas and recreational facilities including tourist attractions, race tracks, golf courses, and other land used for recreational purposes. Maximum ISR 0.20.

Policy 1.1.19-21 Public Facilities This category is intended for uses which serve a public purpose such as public or private schools, universities, colleges, churches and other places of worship, hospitals and public health facilities, Adult Congregate Living Facilities (ACLF's), cemeteries, community and civic centers, libraries, City offices, police and fire stations, water pump stations, wastewater treatment plants, systems of facilities for public transportation, and other facilities used to deliver public services. The maximum Floor Area Ratio is 0.60.

Oxford Sub-District

OBJECTIVE 1.2 To allow a mixture of uses which complement existing development and create integrated pedestrian friendly communities and neighborhoods within the corridors of U.S. 301 and CR 466 and within the **Oxford Sub-District**.

Policy 1.2.1 The City hereby creates the **Oxford Sub-District** as delineated on Map 1-8. The following mixed use FLUM designations shall be permitted within the Oxford Sub-District:

- a. Oxford Neighborhood Mixed Use
- b. Oxford Residential Mixed Use
- c. Oxford Neighborhood Commercial

Policy 1.2.2 Oxford Sub-District General Development Standards

a. Parcels greater than 10 acres subject to a mixed use designation shall be required to obtain a Planned Development zoning. Parcels less than 10 acres may be developed as a single use. A conceptual development plan and development standards shall be incorporated into the PD.

b. The PD shall incorporate the following principles to guide development to create walkable, pedestrian friendly neighborhoods and communities:

1. Higher densities and intensities shall be situated along transportation corridors designed to accommodate mass transit. Developments containing any portion of a Mixed Use Center, as defined in Policy 1.10.10, shall provide transitioning densities and intensities outside of the boundaries of the Mixed Use Centers. This requirement will ensure higher densities and intensities are situated close to Mixed Use Centers while transitioning to lower densities throughout the remainder of the development site. Residential and mixed use developments should contain average residential densities of 6 units per acre within a ¼ mile of transit routes designated on Map 2-7 of the Transportation Element Map Series.
2. An open space system that compliments the development to include features such as public gathering spaces and plazas, landscaping, statuary, seating, light and water features, recreation amenities and areas, and natural open space.
3. The development shall adhere to all City design standards contained within the Land Development Regulations in which building placement, orientation and setbacks allow spatial definition along pedestrian oriented streets. Parking, landscaping, buffering, lighting and circulation shall be designed in a pedestrian friendly manner and encourage the use of multi-modal transportation.

c. All PDs shall require water and energy conservation measures which shall include material choices for lighting, low flow or dual flush toilets, plumbing fixtures, Florida Friendly Landscaping, and Water and Energy Star appliances. Measures taken to reduce water and energy demands shall be stated in the PD. Development will be encouraged to utilize Green Building standards for residential, commercial, office, and civic structures.

d. All developments shall contain a pedestrian/bicycle friendly street network to promote easy pedestrian and bicycle access to facilities and services. Developments are required to add to or accommodate the City's multi-modal transportation plan as indicated on Maps 2-6 and 2-7 of the Transportation Element Map Series.

e. All developments shall provide for infrastructure and open space interconnectivity with adjacent properties when feasible. It shall be the developer's burden to demonstrate

that interconnectivity is not feasible. In determining feasibility, the following shall be considered:

- 1) Physical constraints present in the area such as wetlands, environmental preservation areas or right-of-way which make interconnection detrimental to the public wellbeing;
- 2) The degree to which traffic or other conditions in the area would be positively affected by interconnectivity;
- 3) The degree to which existing traffic will be increased by the intended use of the property;
- 4) The size of the parcel being developed;
- 5) The shape of the parcel being developed; and
- 6) Any other factors which would affect the public well-being.

For developments located along an arterial or collector road, the number and type of access points shall be limited, as appropriate, so as to minimize disruption of traffic flow on the abutting arterial or collector roadway.

f. All developments containing 500 or more single family detached residential units shall consist of at least one additional housing type such as: single family attached, apartments, townhouses, duplexes, quadruplexes, ALFs, ILF, or housing vertically mixed with nonresidential uses such as commercial and office. Developments consisting of 500 or more single family detached units will not be approved without a mix of housing types. The City will require a mixture of housing types and uses as a means to discourage urban sprawl, reduce greenhouse gases, and achieve energy efficient land use patterns. Residential uses may also include units within facilities such as nursing homes, congregate living facilities, care facilities and other similar establishments where the units within such establishment have their own kitchen.

Policy 1.2.3 Oxford Neighborhood Mixed Use shall be provided on areas designated on the Future Land Use Map. This mixed use designation is intended to provide for a mix of uses within a development site or within a multiple parcel area where medium densities/intensities of development have been identified as being appropriate to meet the growing needs of the local area. Development in this category shall be limited to the following four use categories:

A. Residential

Single Family Detached, Townhomes/Villas, Apartments/Condominiums (all residential uses may be for sale or rental)

B. Commercial Sales

Retail sales and service, Restaurants

C. Commercial Office

Office facilities, Medical facilities

D. Government, Civic, Institutional or Recreational

Performance Standards

Maximum Impervious Surface Ratio (ISR): 60%
Maximum Floor Area Ratio (FAR) for non-residential uses: 0.30
Residential Density: Maximum 7 units per acre.
Minimum 25% Parks and Open Space

The balance of uses within a site will be determined based on the following criteria:

Category A Uses	Minimum 35%	Maximum 80%
Category B Uses	Minimum 5%	Maximum 40%
Category C Uses	Minimum 0%	Maximum 40%
Category D Uses	Minimum 5%	Maximum 30%

Policy 1.2.4 Development Standards within Oxford Neighborhood Mixed Use
Developments subject to an Oxford Neighborhood Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.2.2:

- a. Residential development shall be integrated with other permitted uses, with adequate on-site facilities provided for residents including landscaped and open space areas, recreational amenities, and parking facilities.
- b. The integration of commercial, office and residential uses in the same building is encouraged.
- c. The commercial element is intended to provide for the day-to-day needs of the immediate neighborhood and shall be within walking distance from the neighborhoods.

Policy 1.2.5 Oxford Residential Mixed Use shall be provided on areas designated on the Future Land Use Map. The intent of this district is to provide a mix of residential development in the 5 to 10 units per acre range, depending on location within this sub-district and to allow for the provision of support commercial and office services. Development located furthest from Employment and Neighborhood Mixed Use Centers identified on Maps 1-9 of the Future Land Use Map Series will provide transitional densities between the Mixed Use Centers. Residential development in these areas will be in the range of 5 units per acre. Up to 7 units per acre may be achieved provided the development is within one-half mile of an Employment or Neighborhood Mixed Use Center. Up to 10 units per acre may be achieved provided the development is within walking distance, defined as a ¼ mile radius, of a Mixed Use Center.

Policy 1.2.6 Development Standards within Oxford Residential Mixed Use
Developments subject to an Oxford Residential Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.2.2:

- a. Residential development shall contain a diversity of housing types and lot sizes. The mix of housing types shall support a broad range of family sizes and incomes and encourage the provision of affordable housing.
- b. Minimum residential density shall be 5 units per acre.
- c. Maximum residential density shall be 10 units per acre.

d. Support commercial and office uses are allowed, but shall not exceed 10% of the total acreage.

Policy 1.2.7 Oxford Neighborhood Commercial shall be provided on areas designated on the Future Land Use Map. This category is intended to provide for retail, office and personal service uses to serve the day-to-day needs of the immediate neighborhood and surrounding neighborhoods and shall be within walking distance of the supporting neighborhoods.

Permitted uses include:

- Retail sales and services
- Offices
- Civic and institutional uses
- Residential support uses

Maximum Impervious Surface Ratio: 60%

Maximum FAR: 0.30

Maximum Density: 4 units per acre

Policy 1.2.8 Development Standards within Oxford Neighborhood Commercial Developments subject to an Oxford Neighborhood Commercial designation shall adhere to the following standards in addition to those outlined in Policy 1.2.2:

- a. Where commercial development is located along primary roadways, road frontage and access shall be restricted so as not to promote strip commercial development.
- b. Integration of residential and office or retail uses in the same building is encouraged.
- c. This district is intended to provide for the day-to-day needs of surrounding neighborhoods and shall be within walking distance from those neighborhoods. Commercial development in this land use district is intended to accommodate businesses up to 50,000 sq. ft. in size.

Policy 1.2.9 The 466/301 Mixed Use District shall be provided on areas designated on the Future Land Use Map for parcels within the vicinity of the CR 466 and US 301 intersection that are contained within the Joint Planning Area. The intent of this district is to provide a mix of office, retail, institutional, recreational and support residential uses that enhance the existing community of Oxford. Parcels within the 466/301 Mixed Use District may contain up to a 1.0 FAR and/or 15 units per acre.

Formatted: Font: Bold

Policy 1.2.10 On an aggregate basis, the City shall target 500 dwelling units and 1 million square feet of nonresidential uses within the 466/301 Mixed Use District.

Policy 1.2.11 The City shall maintain data and analysis that inventories existing and approved developments and monitor development approvals within the 466/301 Mixed Use District to ensure a mix of uses within the district.

Policy 1.2.12 The City shall encourage the redevelopment and aggregation of parcels within the 466/301 Mixed Use District to accommodate higher density and intensity mixed use projects.

Central Sub-District

OBJECTIVE 1.3 The City shall target land areas and craft land uses which promote infill and urban renewal to create a vibrant City center of the City of Wildwood within the **Central Sub-District**.

Policy 1.3.1 The City hereby creates the **Central Sub-District** as delineated on Map 1-8. The following mixed use FLUM designations shall be permitted within the **Central Sub-District**:

- a. Central Mixed Use
- b. High Density Residential Mixed Use
- c. Downtown Commercial

Policy 1.3.2 General Development Standards

a. Parcels greater than 10 acres subject to a mixed use designation shall be required to obtain a Planned Development zoning. Parcels less than 10 acres may be developed as a single use. A conceptual development plan and development standards shall be incorporated into the PD.

b. The PD shall incorporate the following principles to guide development in creating walkable, pedestrian friendly neighborhoods and communities:

1. Higher densities and intensities shall be situated along transportation corridors designed to accommodate mass transit. Developments containing any portion of a Mixed Use Center, as defined in Policy 1.10.10, shall provide transitioning densities and intensities outside of the boundaries of the Mixed Use

Centers. This requirement will ensure higher densities and intensities are situated close to Mixed Use Centers while transitioning to lower densities throughout the remainder of the development site. Residential and mixed use developments should contain average residential densities of 6 units per acre within a ¼ mile of transit routes designated on Map 2-7 of the Transportation Element Map Series.

2. An open space system that compliments the development to include features such as public gathering spaces and plazas, landscaping, statuary, seating, light and water features, recreation amenities and areas, and natural open space.
3. The development shall adhere to all City design standards contained within the Land Development Regulations in which building placement, orientation and setbacks allow spatial definition along pedestrian oriented streets. Parking, landscaping, buffering, lighting and circulation shall be designed in a pedestrian friendly manner and encourage the use of multi-modal transportation.

c. All PDs shall require water and energy conservation measures which shall include material choices for lighting, low flow or dual flush toilets, plumbing fixtures, Florida Friendly Landscaping, and Water and Energy Star appliances. Measures taken to reduce water and energy needs shall be stated in the PD. New development and redevelopment will be encouraged to utilize Green Building standards for residential, commercial, office, and civic structures.

d. The Central Sub-District shall allow a combination of residential, commercial, office, research and development, hotels, civic, healthcare, public/institutional, education and parks and open space uses in order to encourage long-term economic development.

e. All developments shall contain a pedestrian/bicycle friendly street network to promote easy pedestrian and bicycle access to facilities and services. Developments are required to add to or accommodate the City's multi-modal transportation plan indicated on Maps 2-6 and 2-7 of the Transportation Element Map Series.

f. All developments shall provide for infrastructure and open space interconnectivity with adjacent properties when feasible. It shall be the developer's burden to demonstrate that interconnectivity is not feasible. In determining feasibility, the following shall be considered:

- 1) Physical constraints present in the area such as wetlands, environmental preservation areas, or right-of-way which make interconnection detrimental to the public well-being;
- 2) The degree to which traffic or other conditions in the area would be positively affected by interconnectivity;
- 3) The degree to which existing traffic will be increased by the intended use of the property;

- 4) The size of the parcel being developed;
- 5) The shape of the parcel being developed; and
- 6) Any other factors which would affect the public well-being.

For development located along an arterial or collector road, the number and type of access points shall be limited, as appropriate, so as to minimize disruption of traffic flow on the abutting arterial or collector roadway.

g. All developments containing 500 or more single family detached residential units shall consist of at least one additional housing type such as: single family attached, apartments, townhouses, duplexes, quadruplexes, ALFs, ILFs, or housing vertically mixed with nonresidential uses such as commercial and office. Developments consisting of 500 or more single family detached units will not be approved without a mix of housing types. The City will require a mixture of housing types and uses as a means to discourage urban sprawl, reduce greenhouse gases, and achieve energy efficient land use patterns. Residential uses may also include units within facilities such as nursing homes, congregate living facilities, care facilities and other similar establishments where the units within such establishment have their own kitchen.

h. Mobile Home Parks and Recreational Vehicle Parks developments shall be limited to existing developments. The creation of new, detached single family subdivisions will be discouraged. However, the City shall ensure new development does not place a hardship on existing neighborhoods.

Policy 1.3.3 Central Mixed Use shall be permitted in areas identified on the Future Land Use Map. This mixed use designation is intended to provide for a mix of uses within a development site or within a multiple parcel area where high densities/intensities of development have been identified as being appropriate to meet the growing needs of the community. Development in this category shall be limited to the following five use categories:

A. Residential

Single Family Attached and Detached, Townhomes/Villas, Apartments/Condominiums

B. Commercial Sales

Retail Sales and Service, Restaurants

C. Commercial Office

Office Facilities, Medical Facilities

D. Recreation & Tourism

Hotels/Motels, Cultural and Entertainment Facilities, Tourist Facilities, Commercial Recreation Facilities

E. Government, Civic, Institutional and Recreational

Performance Standards

Maximum Impervious Surface Ratio (ISR): 80%
Maximum Floor Area Ratio (FAR) for non-residential uses: 0.5
Residential Density: Maximum 14 units per acre.
Minimum 15% Parks and Open Space

The balance of uses within a site will be determined based on the following criteria:

Category A Uses	Minimum 20%	Maximum 75%
Category B Uses	Minimum 15%	Maximum 50%
Category C Uses	Minimum 0%	Maximum 50%.
Category D and E Uses	Minimum 5%	Maximum 10%

Policy 1.3.4 Development Standards within Central Mixed Use Developments subject to a Central Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.3.2:

- a. The integration of commercial, office and residential uses in the same building is encouraged.
- b. Residential development shall contain a diversity of housing types and lot sizes. The mix of housing types shall support a broad range of family sizes and incomes and encourage the provision of affordable housing.

Policy 1.3.5 High Density Residential Mixed Use shall be provided on areas designated on the Future Land Use Map. This category shall be characterized by a mix of residential housing types that are distributed on a connected street system where the majority of housing is within walking distance, defined as a ¼ mile radius, of an Employment or Neighborhood Mixed Use Center or is located within the Community Redevelopment Area.

Policy 1.3.6 Development Standards High Density Residential Mixed Use Developments subject to a High Density Residential Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.3.2:

- a. Residential development shall contain a diversity of housing types and lot sizes. A mix of housing types shall support a broad range of family sizes and incomes and encourage the provision of affordable housing.
- b. Minimum residential density shall be 8 units per acre.
- c. Maximum residential density shall be 15 units per acre.
- d. Maximum ISR 80%.

Policy 1.3.7 Downtown Commercial shall be provided on areas designated on the Future Land Use Map. This category is intended to provide for future development and redevelopment in the Downtown as defined in the Community Redevelopment Area.

Policy 1.3.8 Development Standards within Downtown Commercial Developments subject to a Downtown Commercial designation shall adhere to the following standards in addition to those outlined in Policy 1.3.2:

- a. Permitted uses include retail sales and offices, services, civic uses and residential at 2nd floor or above, or located in an attached building. No stand-alone residential buildings shall be permitted.
- b. Maximum 2.0 FAR.
- c. Maximum residential density shall be 15 units per acre.
- d. Maximum Impervious Surface Ratio is 90%.
- e. The integration of commercial, office and residential uses in the same building is encouraged.

Employment Center Sub-District

OBJECTIVE 1.4 The City shall target land areas and craft land uses geared toward the cultivation of economic development through job creation and economic stability while providing energy efficient and pedestrian friendly land use patterns within the **Employment Center Sub-District**.

Policy 1.4.1 The City hereby creates the **Employment Center Sub-District** as delineated on Map 1-8. The following mixed use FLUM designations will be permitted within the Employment Center Sub-District:

- a. Commercial Center Mixed Use
- b. Business Park Mixed Use
- c. Employment Center Neighborhood Mixed Use
- d. The Villages of Wildwood DRI – See Policy 1.7.3

Policy 1.4.2 General Development Standards

a. Parcels greater than 10 acres subject to a mixed use designation shall be required to obtain a Planned Development zoning. Parcels less than 10 acres may be developed as a single use. A conceptual development plan and development standards shall be incorporated into the PD.

b. The PD shall incorporate the following principles to guide development in creating walkable, pedestrian friendly neighborhoods and communities:

1. Higher densities and intensities shall be situated along transportation corridors designed to accommodate mass transit. Developments containing any portion of a Mixed Use Center, as defined in Policy 1.10.10, shall provide transitioning densities and intensities outside of the boundaries of the Mixed Use Centers. This requirement will ensure higher densities and intensities are situated close to Mixed Use Centers while

transitioning to lower densities throughout the remainder of the development site. Residential and mixed use developments should contain average residential densities of 6 units per acre within a ¼ mile of transit routes designated on Map 2-7 of the Transportation Element Map Series.

2. An open space system that compliments the development to include features such as public gathering spaces and plazas, landscaping, statuary, seating, light and water features, recreation amenities and areas, and natural open space.
3. The development shall adhere to all City design standards contained within the Land Development Regulations in which building placement, orientation and setbacks allow spatial definition along pedestrian oriented streets. Parking, landscaping, buffering, lighting and circulation shall be designed in a pedestrian friendly manner and encourage the use of multi-modal transportation.

c. All PDs shall require water and energy conservation measures which shall include material choices for lighting, low flow or dual flush toilets, plumbing fixtures, Florida Friendly Landscaping, and Water and Energy Star appliances. Measures taken to reduce water and energy needs shall be stated in the PD. Development will be encouraged to utilize Green Building standards for residential, commercial, office, and civic structures.

d. All developments shall contain a pedestrian/bicycle friendly street network to promote easy pedestrian and bicycle access to facilities and services. Developments are required to add to or accommodate the City's multi-modal transportation plan indicated on Maps 2-6 and 2-7 of the Transportation Element Map Series.

e. All developments shall provide for infrastructure and open space interconnectivity both internally and externally with adjacent properties when feasible. It shall be the developer's burden to demonstrate that interconnectivity is not feasible. In determining feasibility, the following shall be considered:

- 1) Physical constraints present in the area such as wetlands, environmental preservation areas or right-of-way which make interconnection detrimental to the public wellbeing;
- 2) The degree to which traffic or other conditions in the area would be positively affected by interconnectivity;
- 3) The degree to which existing traffic will be increased by the intended use of the property;
- 4) The size of the parcel being developed;
- 5) The shape of the parcel being developed; and
- 6) Any other factors which would affect the public well-being.

For development located along an arterial or collector road, the number and type of access points shall be limited, as appropriate, so as to minimize disruption of traffic flow on the abutting arterial or collector roadway.

f. All developments containing 500 or more single family detached residential units shall consist of at least one additional housing type such as: single family attached, apartments, townhouses, duplexes, quadruplexes, ALFs, ILFs, and housing vertically mixed with nonresidential uses such as commercial and office. Developments consisting of 500 or more single family detached units will not be approved without a mix of housing types. The City will require a mixture of housing types and uses as a means to discourage urban sprawl, reduce greenhouse gases, and achieve energy efficient land use patterns. Residential uses may also include units within facilities such as nursing homes, congregate living facilities, care facilities and other similar establishments where the units within such establishment have their own kitchen.

g. Nonresidential development in this land use district is intended to accommodate businesses up to 200,000 sq. ft. in size.

Policy 1.4.3 Commercial Center Mixed Use shall be provided on areas designated on the Future Land Use Map. The intent of this category is offer an attractive mix of commercial, office, business park, civic and residential support uses to generate employment generation. Development in this category shall be limited to the following four use categories:

A. Commercial Sales

Retail sales and service, Restaurants

B. Commercial Office and Business Park

Office facilities, Medical facilities, Business Park, Light Industrial

C. Residential

Townhomes/Villas, Apartments/Condominiums, Multifamily residential

D. Government, Civic, Institutional or Recreational

Performance Standards

Maximum Impervious Surface Ratio (ISR): 70%

Maximum Floor Area Ratio (FAR) for non-residential uses: 0.75

Residential Density: Maximum 10 units per acre.

Minimum 25% Parks and Open Space

The balance of uses within a site will be determined based on the following criteria:

Category A Uses	Minimum 10%	Maximum 70%
Category B Uses	Minimum 25%	Maximum 60%
Category C Uses	Minimum 20%	Maximum 30%

Category D Uses	Minimum 5%	Maximum 30%
------------------------	------------	-------------

Policy 1.4.4 Development Standards within Commercial Center Mixed Use Developments subject to a Commercial Center Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.4.2:

- a. Residential dwellings are encouraged above commercial, office or civic uses or attached to a commercial, office or civic building.
- b. Adequate on-site facilities shall provide for residents including landscaped and open space areas, recreational amenities, and access to parking facilities.

Policy 1.4.5 Business Park Mixed Use shall be provided on areas designated on the Future Land Use Map. The intent of this category is offer an attractive mix of commercial, office, business park, civic and residential support uses to generate employment generation. Development in this category shall be limited to the following four use categories:

A. Residential

Single Family Detached, Townhomes/Villas, Apartments/Condominiums (all residential uses may be for sale or rental)

B. Commercial Sales

Retail sales and service, Restaurants

C. Commercial Office and Business Park

Office facilities, Medical facilities, Light Industrial

D. Government, Civic, Institutional or Recreational

Performance Standards

Maximum Impervious Surface Ratio (ISR): 70%

Maximum Floor Area Ratio (FAR) for non-residential uses: 0.75

Residential Density: Minimum 3 units per acre. Maximum 6 units per acre.

Minimum 25% Parks and Open Space

The balance of uses within a site will be determined based on the following criteria:

Category A Uses	Minimum 10%	Maximum 60%
Category B Uses	Minimum 5%	Maximum 55%
Category C Uses	Minimum 20%	Maximum 60% Commercial uses may also be permitted above the first floor.
Category D Uses	Minimum 5%	Maximum 30%

Policy 1.4.6 Development Standards within Business Park Mixed Use Developments

subject to a Business Park Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.4.2:

- a. Residential development shall be integrated with other permitted uses, with adequate on-site facilities provided for residents including landscaped and open space areas, recreational amenities, and parking facilities.
- b. Residential development shall contain a diversity of housing types and lot sizes. A mix of housing types should support a broad range of family sizes and incomes and encourage the provision of affordable housing.

Policy 1.4.7 Employment Center Neighborhood Mixed Use shall be provided on areas designated on the Future Land Use Map and shall be permitted for developments located no further than one mile from an Employment or Neighborhood Mixed Use Center. The mixed use designation is intended to provide for a mix of uses within a development site or within a multiple parcel area where medium densities/intensities of development have been identified as being appropriate to meet the growing needs of the local area. Development in this category shall be limited to the following four use categories:

A. Residential

Single Family Detached, Townhomes/Villas, and Apartments/Condominiums (all residential uses may be for sale or rental)

B. Commercial Sales

Retail sales and service, Restaurants

C. Commercial Office

Office facilities, Medical facilities

D. Government, Civic, Institutional or Recreational

Performance Standards

- Maximum Impervious Surface Ratio (ISR): 60%
- Maximum Floor Area Ratio (FAR) for non-residential uses: 0.50
- Residential Density: Maximum 7 units per acre.
- Minimum 25% Parks and Open Space

The balance of uses within a site will be determined based on the following criteria:

Category A Uses	Minimum 35%	Maximum 80%
Category B Uses	Minimum 5%	Maximum 40%
Category C Uses	Minimum 0%	Maximum 40%
Category D Uses	Minimum 5%	Maximum 30%

Policy 1.4.8 Development Standards within Employment Center Neighborhood Mixed Use Developments subject to an Employment Center Neighborhood Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy

1.4.2:

- a. Residential development shall be integrated with other permitted uses, with adequate on-site facilities provided for residents including landscaped and open space areas, recreational amenities, and parking facilities.
- b. The integration of commercial, office and residential uses in the same building is encouraged.
- c. Residential development shall contain a diversity of housing types and lot sizes. A mix of housing types should support a broad range of family sizes and incomes and encourage the provision of affordable housing.

Wildwood South Sub-District

OBJECTIVE 1.5 The City shall guide development in creating integrated, energy efficient and pedestrian friendly communities within the **Wildwood South Sub-District**.

Policy 1.5.1 The City hereby creates the **Wildwood South Sub-District** as delineated on Map 1-8. The following mixed use FLUM categories will be permitted within the Wildwood South Sub-District:

- a. South Wildwood Neighborhood Mixed Use
- b. Wildwood Springs DRI – See Policy 1.7.1
- c. Landstone DRI – See Policy 1.7.2

Policy 1.5.2 General Development Standards

- a. Parcels greater than 10 acres subject to a mixed use designation shall be required to obtain a Planned Development zoning. Parcels less than 10 acres may be developed as a single use. A conceptual development plan and development standards shall be incorporated into the PD.
- b. The PD shall incorporate the following principles to guide development to create walkable, pedestrian friendly neighborhoods and communities:
 - 1. Higher densities and intensities shall be situated along transportation corridors designed to accommodate mass transit. Development sites containing any portion of a Mixed Use Center, as defined in Policy 1.10.10, shall provide transitioning densities and intensities outside of the boundaries of the Mixed Use Centers. This requirement will ensure higher densities and intensities are situated close to Mixed Use Centers while transitioning to lower densities throughout the remainder of the development site. Residential and mixed use developments should contain average residential densities of 6 units per acre

within a ¼ mile of transit routes designated on Map 2-7 of the Transportation Element Map Series.

2. An open space system that compliments the development to include features such as public gathering spaces and plazas, landscaping, statuary, seating, light and water features, recreation amenities and areas, and natural open space.
3. The development shall adhere to all City design standards contained within the Land Development Regulations in which building placement, orientation and setbacks allow spatial definition along pedestrian oriented streets. Parking, landscaping, buffering, lighting and circulation shall be designed in a pedestrian friendly manner and encourage the use of multi-modal transportation.

c. The PD shall require a mix of land uses creating areas of compact urban form which are based on the urban to rural transect planning philosophy. The integrated mixed of uses shall create a pedestrian and bicycle friendly environment that reduces the need for automobile travel and protects or enhances the natural environment. These uses shall include a mix of residential, commercial, office or light industrial, civic, and recreational uses. Sustainable development principles as set forth by the United States Green Building Council (USGBC) the Florida Green Building Coalition (FGBC), or the Green Building Initiatives Green Globes program, or any other recognized Green Building system shall be incorporated into the PD.

d. All PDs shall require water and energy conservation measures which shall include material choices for lighting, low flow or dual flush toilets, plumbing fixtures, Florida Friendly Landscaping, and Water and Energy Star appliances. Measures taken to reduce water and energy needs shall be stated in the PD.

e. All developments shall contain a pedestrian/bicycle friendly street network to promote easy pedestrian and bicycle access to facilities and services. Developments are required to add to or accommodate the City's multi-modal transportation plan indicated on Maps 2-6 and 2-7 of the Transportation Element Map Series.

f. All developments shall provide for infrastructure and open space interconnectivity with adjacent properties when feasible. It shall be the developer's burden to demonstrate that interconnectivity is not feasible. In determining feasibility, the following shall be considered:

- 1) Physical constraints present in the area such as wetlands, environmental preservation areas, or right-of-way which make interconnection detrimental to the public well-being. For developments located along an arterial or collector road, the number and type of access points shall be limited, as appropriate, so as to minimize disruption of traffic flow on the abutting arterial or collector roadway.

- 2) The degree to which traffic or other conditions in the area would be positively affected by interconnectivity;
- 3) The degree to which existing traffic will be increased by the use of the property;
- 4) The size of the parcel being developed;
- 5) The shape of the parcel being developed; and
- 6) Any other factors which would affect the public well-being.

g. All developments containing 500 or more single family detached residential units shall consist of at least one additional housing type such as: single family attached, apartments, townhouses, duplexes, quadruplexes, ALFs, ILFs, and housing vertically mixed with nonresidential uses such as commercial and office. Developments consisting of 500 or more single family detached units will not be approved without a mix of housing types. The City will require a mixture of housing types and uses as a means to discourage urban sprawl, reduce greenhouse gases, and achieve energy efficient land use patterns. Residential uses may also include units within facilities such as nursing homes, congregate living facilities, care facilities and other similar establishments where the units within such establishment have their own kitchen.

Policy 1.5.3 South Wildwood Neighborhood Mixed Use shall be provided on areas designated on the Future Land Use Map. The mixed use designation is intended to provide for a mix of uses within a development site or within a multiple parcel area where medium densities/intensities are appropriate to provide a transition between the higher densities to the north and the lower densities to south. The intent of this district is to allow the appropriate mix of uses that lead to the development of sustainable neighborhoods at the suburban scale. Development in this category shall be limited to the following four use categories:

A. Residential

Single Family Detached, Townhomes/Villas, Apartments/Condominiums (all residential uses may be for sale or rental)

B. Commercial Sales

Retail sales and service, Restaurants

C. Commercial Office

Office facilities, Medical facilities

D. Government, Civic, Institutional or Recreational

Performance Standards

Maximum Impervious Surface Ratio (ISR): 50%

Maximum Floor Area Ratio (FAR) for non-residential uses: 0.3

Residential Density: Maximum 4 units per acre.

Minimum 40% Parks, Recreation and Open Space

The balance of uses within a site will be based on the following criteria:

Category A Uses	Minimum 35%	Maximum 80%
Category B Uses	Minimum 5%	Maximum 40%
Category C Uses	Minimum 0%	Maximum 40%.
Category D Uses	Minimum 5%	Maximum 30%

Policy 1.5.4 Development Standards within South Wildwood Neighborhood Mixed Use Developments subject to a South Wildwood Neighborhood Mixed Use designation shall adhere to the following standards in addition to those outlined in Policy 1.5.2:

- a. The South Wildwood Neighborhood Mixed Use designation shall contain neighborhood centers within each neighborhood. The centers shall provide for commercial, office, civic and recreational uses.
- b. Individual and unique neighborhoods shall be developed. The neighborhoods shall be interconnected both pedestrian and vehicular to promote overall community connectivity.
- c. Neighborhoods shall be organized and designed based on the urban to rural transect in which the higher housing densities and nonresidential intensities are located within the neighborhood centers or along CR 468 transitioning from less density and intensity in the perimeter of each neighborhood.
- d. A mix of housing types shall support a broad range of family sizes and incomes and encourage the provision of affordable housing.

OBJECTIVE 1.6 The City shall plan for future demand of public services and infrastructure by assessing the development potential of the Future Land Use Map by taking into account factors identified within the Comprehensive Plan that limit the true development potential.

Policy 1.6.1 The City shall conduct studies and analyses that forecast the future demand for potable water, sanitary sewer, public schools, parks and recreation, stormwater, transportation, and other public facilities over the short and long term. The analyses should be utilized in the preparation of the annual update to the 5-Year Schedule of Capital Improvements.

Policy 1.6.2 Net density shall be calculated by excluding right-of-way, wetlands, stormwater management areas, environmental preservation areas, and common areas. Environmental preservation areas such as wildlife habitat, karst features, conservation areas, springs and other environmentally sensitive lands shall only be excluded if the lands are designated on the Future Land Use Map as Conservation or are dedicated to the City or other public agency through a conservation easement. Common areas such as parks, buffers, and landscaped areas shall only be excluded if publicly owned or committed to a Homeowner's Association formed pursuant to Chapter 720, Florida Statutes.

OBJECTIVE 1.7 The City shall recognize the advantages and benefits in planning over large areas and over longer time periods through planned development projects presumed to be a Development of Regional Impact per Chapter 380, Florida Statutes. To provide measurable and predictable standards as well as flexibility in application of land use densities and intensities, the densities and intensities for each DRI shall be established by individual sub area policies contained within this objective. All residential developments shall consist of a mix of housing types, and will include two or more of the following types: single family, apartments, townhouses, duplexes, quadruplexes, and housing vertically mixed with nonresidential uses such as commercial and office.

Policy 1.7.1. Wildwood Springs DRI. The City of Wildwood, recognizing the uniqueness of the property annexed through the adoption of Ordinance No. 538, adopts the following development standards for the Wildwood Springs DRI Property to ensure the discouragement of urban sprawl, coordination with public facilities, and the protection of the environmental function of this area. The 1,048 acre area identified on the FLUM as “Wildwood Springs DRI” is subject to the following:

a. Wildwood Springs DRI shall consist of a maximum of 3,700 residential dwelling units and 225,000 square feet of nonresidential uses. The Wildwood Springs DRI shall provide for a mix of residential and nonresidential uses; a mix of residential housing types including higher densities of housing; and shall preserve the natural features of the DRI Property. To accomplish this, Wildwood Springs DRI will consist of three distinct areas of development: Mixed Use Commercial Area, Community Residential Area and Neighborhood Residential Areas; and one area of Conservation Areas. To allow for the future potential that more intense development patterns are viable in the market, residential units in excess of the 3,000 units originally authorized in the Wildwood Springs DRI will be permitted provided appropriate modification of the DRI or use of the conversion matrix is completed. All residential units in excess of the 3,000 originally authorized units are required to be located in the MUC or CR Areas and conform to the standards of each respective district.

1. Mixed Use Commercial Area (MUC): The MUC shall be located at the intersection of S.R. 301 and C.R. 468. The MUC shall provide pedestrian connection and vehicular access to U.S. 301 and C.R. 468. The MUC shall provide an area to accommodate a future transit stop along U.S. 301 or C.R. 468.

The MUC shall have a minimum of 40 acres and a maximum of 100 acres, and shall consist of a mix of residential dwelling units and a minimum of 75,000 square feet of nonresidential.

The minimum average residential density within the MUC shall be 10 units per net residential acre. Residential units within the MUC shall be located within a 10-minute walk of a nonresidential use.

Commercial, retail, office, institutional and civic uses that provide local neighborhood level services to the Wildwood Springs DRI and to the nearby Wildwood Area will be located in the nonresidential area.

2. Community Residential Area (CR): The CR will provide a location for higher residential density located on the northern side of the property adjacent to the C.R. 468 corridor with the exception of areas where key natural features targeted for preservation exist. The CR area will consist of residential neighborhoods and a Neighborhood Center and will include a minimum of 165 acres.

The minimum average residential density within the CR shall be 6 units per net residential acre.

The residential neighborhoods shall comply with the Neighborhood Standards. CR will provide for higher residential densities within walking distance of the C.R. 468 corridor that will help support transit. The CR Area shall provide a minimum of 3 pedestrian and vehicular connections to C.R. 468 and shall provide areas to accommodate future transit stops at each connection to C.R. 468, as requested by the transit provider.

The Neighborhood Center shall have a minimum area of two (2) acres and will be located at the eastern frontage entrance on C.R. 468. The Neighborhood Center area will provide for nonresidential uses consisting of small scale commercial, civic, institutional, or recreation uses for a minimum of 15,000 square feet. The Neighborhood Center shall have direct pedestrian access to the adjacent neighborhoods and shall include an area for a transit stop along C.R. 468.

3. Neighborhood Residential Area (NR): The NR shall promote walkable, unique and interesting neighborhoods. To promote overall community connectivity a coordinated pedestrian network will be provided between each adjoining neighborhood within the community. The NR area shall consist of integrated and connected neighborhoods that comply with the Neighborhood Standards set forth below. Adjacent neighborhoods may be combined where larger centralized parks, open space, or civic areas are provided.

The NR area will include a minimum of 300 acres and a maximum of 500 acres. The NR will have a maximum of 1,675 units. The minimum average residential density within the NR shall be 4 units per net residential acre.

4. Conservation Area: The Conservation Area shall consist of approximately 169 acres of wetlands, 100-year floodplain, and environmentally sensitive land. No development other than permitted

impacts for access, passive recreation areas, permitted mitigation areas or other such permitted passive use areas shall occur in the Conservation Area.

b. **Neighborhood Standards.** Within the CR Area and the NR Area, neighborhoods shall have a neighborhood park, open space such as a central area made up of preservation land, stormwater ponds, or other such areas that can be used for passive recreation and enjoyment or civic area such as a central recreation facility, school, library or other such civic-focused built use that will provide each residential area with a unique identity. Neighborhood areas with CR and NR shall have a diversity of housing types, densities and sizes. Parks, open areas or civic areas will be designed based on neighborhood needs, and may include formal or informal landscaped and preserved areas, and structured hardscape and programmed amenity elements. Neighborhood parks will be placed near the functional center of each neighborhood to ensure that they are “walkable” for the residents in each neighborhood. Each neighborhood within the NR shall be sized and designed based on the principles of a 10 minute walk from the edge to the functional center of the neighborhood, and will be interconnected with pedestrian access between adjacent neighborhoods. Neighborhoods will be organized with a transect of greater density of housing in the functional center of neighborhoods transitioning to less density on the perimeter of each neighborhood. Adjustments will be made where necessary to preserve unique natural features and respond to special site constraints. Neighborhoods will be planned in a form appropriate to create a pedestrian scaled community with a defined sense of place. This will include performance standards to ensure coordinated pedestrian connectivity between land uses such that neighborhoods are interconnected, walkable and bikable.

c. Buildings will have a primary orientation towards streets, parks and open space. Buildings shall be oriented to foster interconnections for both pedestrian and vehicular traffic, and building organization and placement will be designed to create focal points and views of both natural and built features from internal and external roadways. Buildings will be aligned and designed to front public and private streets and open space.

d. There shall be a 150 foot buffer from the Fenny Springhead and a 50 foot buffer from the spring run to protect the spring. All other wetland buffers shall be consistent with requirements set forth by the Southwest Florida Water Management District.

e. The total site will maintain a minimum of 25% open space. Open space shall be defined consistent with the definition in the City of Wildwood comprehensive plan.

f. There shall be a minimum of six (6) vehicular and pedestrian connections: four (4) to C.R. 468; one (1) connection to the Eastern boundary; and one (1)

connection to the south along C.R. 505. Additional connections will be provided as appropriate based on site constraints and compatibility of adjacent land uses.

g. Local and residential streets, pedestrian paths, and bike paths shall be included within a system of interconnected routes within the community. Design standards shall encourage pedestrian and bicycle linkages by being spatially defined by uses, existing vegetation, and by discouraging high speed vehicular traffic.

h. The Wildwood Springs DRI shall be reviewed as a Planned Unit Development. The PUD zoning category shall incorporate design standards to guide development and ensure consistency with the DRI Development Order and with the Comprehensive Plan. Changes to a DRI Development Order adopted by the City of Wildwood shall be reflected in the PUD Master Plan.

i. The Application for Development Approval, sufficiency responses and DRI Development Order for Wildwood Springs DRI provide the supporting data and analysis for the "Wildwood Springs DRI" land use designation on the FLUM.

j. The Wildwood Springs DRI Development Order shall be consistent with the Comprehensive Plan.

Policy 1.7.2 Landstone Communities DRI. The City of Wildwood recognizes the uniqueness of the property known as The Landstone Communities DRI, which is designated as such on the City of Wildwood's Future Land Use Map. To ensure the discouragement of urban sprawl, coordination with public facilities and the protection of the environmental function of this area, the following development standards have been adopted and will be enforced on the property encompassed in The Landstone Communities DRI.

The Landstone Communities DRI is located adjacent to CR 470 along its northern boundary which has been designated by Sumter County as the "Jobs Corridor." The Landstone Communities DRI will be a master planned, mixed use community incorporating a variety of residential products and densities, and a variety of non-residential uses, public facilities, and public uses, all as more particularly described below in this Policy. The Landstone Communities DRI will consist of compact development tracts interlaced with an extensive network of open space and interconnected with a comprehensively planned system of pedestrian greenways and multi-modal trails with the specific intent of reducing automobile dependence and greenhouse gas emissions while promoting energy efficiency and sustainable lifestyle habits.

Residential uses will be located in the Neighborhood Mixed Use Center, the Neighborhood Commercial Center, and the Community and Residential Villages. Residential areas will contain a variety of housing types and lot sizes which shall include single family, detached and attached units, town homes, and apartments. Non-residential

uses, excluding industrial, will be located in the Neighborhood Mixed Use Center and in the separate Neighborhood Commercial Center located to serve the southern portion of the Project.

Development Program

The Landstone Communities DRI shall consist of a maximum of 8,025 residential units, a maximum of 802,500 square feet of non-residential uses (commercial/retail and/or office), 500,000 square feet of industrial/warehouse, a mining site, up to 250 hotel rooms, and a community serving facility, which may include (i) an 18 hole golf with clubhouse and associated uses and/or (ii) a spa/wellness facility. These uses shall be arranged in a Neighborhood Mixed Use Center, a Neighborhood Commercial Center, a Community/Institutional Center, Community and Residential Villages, and/or an Industrial/Warehousing Center, as set forth below.

Neighborhood Mixed Use Center

The Neighborhood Mixed Use Center shall be located adjacent to CR 470. The Neighborhood Mixed Use Center shall consist of:

Size	250 acres minimum
Commercial/Retail	300,000 sq ft minimum
Office	150,000 sq ft minimum
Hotel	up to 250 rooms
Residential	2,000 units minimum

1. The minimum average residential net density in the Neighborhood Mixed Use Center shall be 10 units per residential acre. Net Density is defined in Policy 1.6.2. At least 50% of the residential uses in the Neighborhood Mixed Use Center shall be located within a 1/2 mile walking distance of non-residential uses to promote an attractive and functional mix of land uses and to achieve an energy efficient land use pattern.
2. Minimum intensity for non-residential development shall be .25 FAR.
3. Streetscape design guidelines shall be established to promote pedestrian activity and safety, and to facilitate multi-modal transportation within the Neighborhood Mixed Use Center.
4. At least one covered transit stop and bus pull-out shall be located in the Neighborhood Mixed Use Center and adjacent to CR 470.

Neighborhood Commercial Center

The Neighborhood Commercial Center to serve the adjacent Residential Villages will be located in the southern portion of The Landstone Communities DRI adjacent to CR 501. The Neighborhood Commercial Center shall consist of:

Size	10 acres minimum
Commercial/Retail	30,000 sq ft minimum

1. Residential units at a minimum average net density of 6 units per residential acre may also be located in the Neighborhood Commercial Center to promote an attractive and functional mix of land uses and to achieve an energy efficient land use pattern.
2. The Neighborhood Commercial Center shall be designed to provide pedestrian and bicycle access to surrounding Villages to reduce automobile dependency. Streetscape design guidelines shall be established to promote pedestrian activity and safety, and to facilitate multi-modal transportation within the Neighborhood Mixed Use Center.
3. At least one covered transit stop and bus pull-out shall be located in the Neighborhood Commercial Center.

Jobs to Housing Balance

To promote an appropriate jobs to housing mix and the timing of residential and non-residential uses during the development of The Landstone Communities DRI, the following schedule will be followed:

1. A minimum of 110,000 square feet of non-residential uses (either commercial/retail and/or office) within the Neighborhood Mixed Use Center shall be constructed before the 2,001st dwelling unit is completed.
2. A minimum of 225,000 square feet of non-residential uses (either commercial/retail and/or office) within the Neighborhood Mixed Use Center shall be constructed before the 3,476th residential unit is completed.
3. A minimum of 500,000 square feet of non-residential uses (either commercial/retail and/or office) shall be constructed before the 5,001st residential unit is completed. 30,000 square feet of the 500,000 square feet of non-residential uses (either

commercial/retail and/or office) shall be constructed in the Neighborhood Commercial Center.

Community/Institutional Center

Community and Institutional uses will be located in a central location within The Landstone Communities DRI adjacent to CR 501 through the dedication to the City of a 75 acre site for a Regional Park and a 14 acre site for an elementary school. The Community/Institutional Center shall be designed to provide pedestrian and bicycle access to surrounding Villages to reduce automobile dependency. At least one covered transit stop and bus pull-out shall be located in the Community/Institutional Center.

Community and Residential Villages

In order to create defined, walkable neighborhoods, residential tracts or pods shall be organized into individual Villages. To ensure a balance of housing options, densities within the Villages shall only be achievable by containing a variety of housing types and lot sizes.

Development outside the Neighborhood Mixed Use Center shall be at a minimum average net density of 6 dwelling units per residential acre, of which 25% shall be attached units.

1. Community Villages
 - a. Community Villages shall be developed at minimum average net densities of 6 to 25 units per residential acre.
 - b. The first Community Village will commence development in the northern section of the Project along CR 470 and in close proximity to the Neighborhood Mixed Use Center.
 - c. Each Community Village will consist of between 500 and 1,500 residential units with a variety of housing types.
 - d. Seventy-five percent (75%) of all residential units in a Community Village shall be located within a one mile walking distance of the edge of the Neighborhood Mixed Use Center.

2. Residential Villages

Residential Villages shall be developed at minimum average net densities of 3 to 20 units per residential acre. A Village is defined

as that portion of the Project which will consist of between 250 and 1,000 residential units with a variety of housing types and lot sizes.

3. Standards for All Villages

- a. Each Village will contain a Village Center consisting of open space and/or active recreational facilities which shall serve as a focal point for that Village.
- b. Commercial/retail and office needs of the residents of the Residential Villages shall be addressed by the Neighborhood Commercial Center or the Neighborhood Mixed Use Center. No commercial, retail or office shall be located in a Village.
- c. Villages will be connected to the Neighborhood Mixed Use Center, the Neighborhood Commercial Center, the Community/Institutional Center, and with other Villages, not only by roadway access, but also through a series of greenways. These greenways will also connect the Villages with recreational and civic uses located throughout The Landstone Communities DRI, thereby ensuring critical connectivity between and among the residential and non-residential uses.
- d. Streetscape design guidelines shall be established to promote pedestrian activity and safety and to facilitate multi-modal transportation within Villages. Public and private streets shall be aligned and designed to frame views and vistas within each Village to promote increased density and urban form and to allow for vehicular and pedestrian connections to uses both internal and external to the Project.

Mining

A maximum of 280 acres located in the northwest portion of The Landstone Communities DRI, with access to CR 470, will be utilized for mining.

Industrial/Warehousing Center

A maximum of 500,000 square feet Industrial/Warehousing development on 90 to 120 acres will be located east of the mining parcel with access to CR 470. The Industrial/Warehousing development shall not be located in the Neighborhood Mixed Use Center.

Open Space

The total site will maintain a minimum of 35% open space. Open space is defined as any portion of the Project which is open to the sky and contains no impervious surfaces, except that pervious surfaces within the residential or commercial lots do not qualify as open space.

Development Phasing and Transition Zone

Development phasing will progress from north to south through The Landstone Communities DRI to take advantage of existing infrastructure and planned improvements. By commencing development along CR 470, The Landstone Communities DRI will take advantage of the CR 470 regional "Jobs Corridor" and will place the highest density and intensity of uses where infrastructure is already in place and near internal locations for the expansion of water and wastewater services. No Residential Village, located greater than one mile from a previously developed Community Village, Residential Village or Neighborhood Mixed Use Center parcel, shall commence construction until 50% of the units in the previously developed village or parcel have received building permits.

A transition zone/buffer area will be established along the southern boundary of The Landstone Communities DRI in order to create a clear transition from urban to rural land uses, and to establish an aesthetically pleasing visual and physical separation between The Landstone Communities DRI and the rural lands to the south. Residential and non-residential uses, including roadways, shall not be allowed in this area. The transition zone will extend along the southern boundary and be defined as a 1000' offset from a single, straight line drawn between the SE corner of SECTION 27-20-23 and the SW corner of SECTION 28-20-23, except for the approximately 40 acre carve out (SE 1/4 of SE 1/4 of SECTION 28-20-23) located in the south central portion of the property which shall have a 150' offset along its northern boundary. Allowable uses within the transition zone are: preservation and conservation uses (including the necessary access and improvements to support management of these uses), golf course and passive recreation.

Connectivity

The Neighborhood Mixed Use Center, the Neighborhood Commercial Center, the Community/Institutional Center, the Residential Villages, and the Community Villages will be connected to each other with a comprehensively planned system of pedestrian greenways and multi-modal trails in order to reduce automobile dependence and greenhouse gas emissions while promoting energy efficiency and sustainable lifestyles.

Transit Corridors

1. CR 470 is a proposed major transit corridor as shown in the City's Comprehensive Plan Map 2-7. In addition to the transit stops required in the Neighborhood Commercial Center and in the Community/Institutional Center, up to three covered transit stops will be located along CR 470, including a Park-n-Ride facility.

2. Although not a City/County designated transit corridor, the CR 501 extension into The Landstone Communities DRI (“The Extended CR 501”) will be planned so as to promote transit ridership. Outside the Neighborhood Mixed Use Center and the Neighborhood Commercial Center, along The Extended CR 501, an average minimum net density of 6 dwelling units per residential acre will be maintained 1/4 mile from the centerline on either side of The Extended CR 501.

Project Zoning

The Landstone Communities DRI shall be reviewed as a Planned Unit Development. The PUD zoning category for the DRI shall incorporate appropriate design standards to guide development and ensure consistency with the Development Order and with this comprehensive plan. Specific policies shall be contained within the PUD zoning category, Project design guidelines, the DRI Development Order, or Project Covenants and Deed Restrictions to promote development of the Project in a sustainable fashion using the applicable principles set forth by the United States Green Building Council (USGBC), the Florida Green Building Coalition (FGBC) or the Green Building Initiatives Green Globes program, or any other recognized green building system.

Environment and Natural Resources

1. A Wastewater Treatment Plant and the necessary acreage to handle the associated wet weather effluent storage will be located on approximately 25 acres located in the northeastern portion of the site.
2. The gopher tortoise habitat in the southwest portion of The Landstone Communities DRI, and the gopher tortoise habitat/eagle nest in the northeast portion of The Landstone Communities DRI shall be placed in a perpetual Conservation Easement as required by the Gopher Tortoise Permit upon issuance by the Florida Fish and Wildlife Conservation Commission (FWCC). The Conservation Easement shall be granted to and accepted by the FWCC or such other environmental agency which has statutory authority for the protection of the species listed herein.

Environmental Monitoring Plan (EMP)

The Landstone Communities DRI shall prepare and maintain an Environmental Monitoring Plan (EMP). As a general description, the EMP is the umbrella document/plan which addresses the various environmental, wildlife and preservation issues as such matters are detailed in the following sub-parts. The EMP shall be updated, as needed, in response to changes in governmental rules or regulations. Updates to the EMP shall not require an amendment to the City's Comprehensive Plan.

1. Surface Water Quality Monitoring Plan (“SWQMP”) –

In addition to meeting all requirements of the regulatory agencies, The Landstone Communities DRI shall utilize Best Management Practices (“BMPs”) generated by SWFWMD and FDEP to control siltation and prevent turbidity during construction activities. These standards can be achieved by utilizing the best available construction techniques for erosion and sedimentation control, as well as meeting the minimum standards for National Pollution Discharge Elimination System (“NPDES”) permitting.

2. Stormwater Pollution Prevention Plan (“SWPPP”) –

- a. As part of the overall EMP, The Landstone Communities DRI, at its expense, shall prepare a SWPPP prior to commencement of construction for The Landstone Communities DRI incorporating requirements including: (1) clearing and grading areas only as they are being prepared for construction; (2) stabilizing areas immediately after construction completion; (3) potential limiting of watering for dust control at the time of construction due to hydrologic conditions and SWFWMD warnings.
- b. Stormwater/drainage retention areas (“DRAs”), including either ‘wet’ or ‘dry’ DRAs shall be designed and constructed according to normal and accepted engineering practices and all applicable regulatory standards.
- c. Stormwater management facilities shall adhere to SWFWMD criteria for design, construction, operation, treatment standards and maintenance of such facilities in hydrologic and karst sensitive areas as determined by SWFWMD. All the development shall utilize Low Impact Development (LID) methods to reduce the impact of nutrients on natural wetland systems where approved by the SWFWMD and supported by the Florida Department of Environmental Protection and local agency jurisdiction. These LID methods may include, but not be limited to, low impact stormwater design consisting of vegetated swales and buffers where prior to discharge of treated stormwater, tree cluster rain gardens, pervious pavement, conserving natural areas and wetlands, minimizing development impacts, attempting to maintain site runoff rates, the use of integrated management practices, the implementation of pollution prevention and proper maintenance, minimization of land clearing, protecting existing vegetation and

minimizing clearing of vegetation (on both the overall site as well as individual lots), disconnecting directly connected impervious areas, minimizing impervious areas, minimizing soil compaction and fill, protection of sensitive areas by use of clustering of development and common open space, requiring Florida Friendly landscaping and compliance with the Green Industry BMP for all landscape workers at the site, greenroof/cistern systems, pervious pavements, stormwater harvesting (reuse), use of floating wetland mats and all wet detention ponds, and public education. The use of these and other LID methods shall be subject to review and approval by the SWFWMD.

3. Wildlife Habitat Management Plan (“HMP”)
 - a. A minimum of 10% of the site’s upland area shall be maintained as voluntary upland conservation areas. These conservation areas shall be preserved with the specific intent of maintaining site biodiversity and wildlife corridors, preserving habitat for native and listed wildlife species, and providing educational and recreational opportunities for the Project’s residents, guests, and visitors to the Project’s regional amenities.
 - b. Gopher tortoises shall be relocated on the Property to the maximum extent feasible. If gopher tortoises must be relocated off-site, the mitigation shall provide for suitable habitat pursuant to current rules and regulations. The Landstone Communities DRI shall set aside an approximately three hundred forty two (342) acre Gopher Tortoise Habitat Preserve for relocation of gopher tortoises on site.
 - c. The Project shall promote the viability of listed species on the Property through the preservation / enhancement / restoration of wetlands and wetland buffers, upland habitat preservation and compliance with applicable State and federal laws.
 - d. The Project shall require the use of native plant species in the landscaping palette for the parks, common areas, and habitat restoration areas of the Project, consistent with the principles of the Florida Friendly Landscaping program with the specific intent of attracting and providing/restoring habitat for native wildlife species.

- e. The Project shall develop design guidelines that encourage the use of native plant species in the landscaping palette for third party development within the Project, consistent with the principles of the Florida Friendly Landscaping program with the specific intent of attracting and providing/restoring habitat for native wildlife species.
 - f. The Project shall incorporate or relocate listed plant species into habitat preservation / restoration areas where reasonably feasible under the supervision of a qualified professional.
 - g. The Project shall only allow pervious trails, e.g. equestrian, walking, nature, boardwalks, habitat protection tracts (impervious trails, e.g., concrete, asphalt, or similar material will not be located within habitat protection tracts) except for golf cart and service crossings and crossings over the canal.
4. Integrated Pest Management Plan (“IPMP”)

The Landstone Communities DRI may elect not to build a golf course; however, in this event it shall set aside an appropriate portion of said land for open space and shall provide additional recreational or lifestyle amenities suitable to, and approved by, the City.

No development permits shall be issued for the construction of any golf course, or portion thereof, unless and until The Landstone Communities DRI demonstrates that such golf course, or portion thereof, proposed for development approval will comply with the following design, construction, maintenance and monitoring requirements:

- a. The golf course, including non-play areas of the golf course, will be designed, constructed and maintained to meet the minimum standards of the Audubon International's Signature Gold Program's Natural Resource Management Plan's Environmental and Design Standards, or other similar program's environmental and design standards (the "AISP Gold Standards"), which utilize low impact development principles where reasonably feasible to minimize development impacts, but shall not be required to actually obtain such certification.

- b. Florida Friendly Design landscape principles, including xeriscape, shall be incorporated, as applicable, into the golf course design and construction.
- c. Non-play areas of the golf course shall be landscaped in accordance with the AISP requirements or its equivalent. Play areas are to be considered the tee, fairway(s) and greens/putting area.
- d. The Landstone Communities DRI shall maintain an up-to-date IPMP covering the golf course. Prior to the golf course construction, the IPMP shall be submitted to the FFWCC for review and approval and to the FDEP and SWFWMD if required by their respective agency rules. Any revision(s) to the IPMP shall not be considered an action requiring the filing of a Notice of Proposed Change for an Amendment to the Development Order or an Amendment of the City's Comprehensive Plan.
- e. The IPMP shall include a Chemicals Management Plan (CMP).
- f. Prior to golf course construction, soil testing shall be used to verify that suitable soil cover is maintained between greens surface and any subsurface limestone rock strata, limestone pinnacles or potential karst connections and to determine subsurface features.
- g. The golf course shall be maintained under the direction of a superintendent(s) who is licensed by the State to use restricted pesticides and who is familiar with and experienced in the principals of integrated pest management. The Landstone Communities DRI, with the assistance of the superintendent(s) shall be responsible for ensuring the implementation of the IPMP; and
- h. The Landstone Communities DRI shall report on the status of the golf course for compliance with the AISP or other similar program's environmental and design standards in each Biennial Report as required in the Development Order.

Energy Efficiency

Energy efficiency practices will be implemented with the specific intent of promoting energy efficiency, reducing green house gas emissions, and reducing the Project's overall carbon footprint.

1. Project Design

The Project shall be designed with compact development tracts interlaced with an extensive network of open space and interconnected with a comprehensively planned system of pedestrian greenways and multi-modal trails with the specific intent of reducing automobile dependence and greenhouse gas emissions while promoting energy efficiency and sustainable lifestyle habits.

2. Transit Access

Transit ridership shall be facilitated by the location of up to three covered transit stops along CR 470, which is a City/County designated Transit Corridor, including a Park-n-Ride facility. Further transit stops shall be located in the Neighborhood Mixed Use Center, the Community/ Institutional Center and the Neighborhood Commercial Center. Residential units along CR 501, which extends through a portion of the site on a north to south alignment, shall be developed at an average minimum net density of 6 dwelling units per residential acre 1/4 mile from the centerline on either side of the road which will support transit ridership.

3. Energy Efficiency Methods

The following energy efficiency methods shall be required with the specific intent of promoting energy efficiency, reducing green house gas emissions, and reducing the Project's overall carbon footprint.

- a. Eligible equipment and appliances delivered with residential properties within the Project shall, at a minimum, meet Energy Star standards. Eligible equipment includes, but is not limited to refrigerators, dishwashers, clothes washers, and ceiling fans.
- b. Residential heating and cooling equipment shall be Energy Star qualified as further defined in the City of Wildwood Residential Design Guidelines. The use of computerized programmable thermostats shall be promoted.
- c. All residential electric lighting fixtures, both interior and exterior, must be fitted with energy efficient light bulbs,

including but not limited to Compact Fluorescent Lights (CFL) or Light Emitting Diode (LED) bulbs. Incandescent bulbs shall not be allowed.

- d. Residential windows, including those in garage areas, must be Energy Star qualified as further defined in the City of Wildwood Residential Design Guidelines.
- e. The Project shall establish design guidelines that identify acceptable street light fixtures for use throughout the Project that meet a minimum efficiency rating of 95 lumens per watt.
- f. The Landstone Communities DRI shall include in the Biennial Report to the City of Wildwood the actions being taken to promote sustainable practices, including submission of current materials being provided and an accounting of development meeting green building standards.

Education

The Project shall implement educational initiatives with the specific intent of promoting behavior change of Project residents, guests, and visitors to the Project's regional amenities through education about sustainable development practices, lifestyle habits and technologies.

Water Conservation

The following water conservation methods shall be required with the specific intent of promoting water conservation and reducing demand on municipal potable water supply systems, thereby lowering demand on natural aquifers. The resultant reduction in the Project's potable water demand subsequently decreases the energy used by the City to treat and move municipal water for the Project, thereby reducing green house gas emissions and the Project's overall carbon footprint.

1. Residential and Non-residential Construction
 - a. New homes shall, at a minimum, be designed to meet the water conservation measures contained in City of Wildwood Ordinance No. 612, as may be amended from time to time.
 - b. Low flow or dual flush toilet fixtures that are more water efficient than standards set forth in the Energy Policy Act of 1992, will be standard in residential and non-residential construction.

- c. Water-saver shower heads will be offered for residential construction, and used where applicable in non-residential construction.
 - d. Automatic shutoff faucets will be used where applicable in non-residential construction.
2. Landscaping/Irrigation Systems
- a. Low volume irrigation spray heads as well as drip systems will be used where appropriate for both residential and non-residential landscaping. Residents will be encouraged to use water-conserving devices for additions they might make to their irrigation systems.
 - b. The Landstone Communities DRI shall ensure that irrigation systems operated for the Project's common or controlled areas utilize and maintain computerized irrigation based on weather station information, moisture sensing systems to determine existing soil moisture, evapotranspiration rates, or zone control, to ensure water conservation.
 - c. The Project shall require the use of native plant species in the landscaping palette for the parks, common areas, and habitat restoration areas of the Project, consistent with the principles of the Florida Friendly Landscaping program as implemented by the University of Florida Cooperative Extension Service.
 - d. The Landstone Communities DRI shall include water conservation monitoring in its biennial report to the City of Wildwood. If such data is available from the utility provider, The Landstone Communities DRI shall include in its water conservation monitoring a monthly water balance (dry year and wet year) calculated for the site, to adequately quantify the temporal and volumetric nature of potential water shortages and surpluses. This monitoring should also consider water availability via precipitation, surface water inflow, and groundwater inflow; and water losses via evapotranspiration, surface water outflow, infiltration and consequent groundwater outflow, and pumpage.

Amenities

Recreational facilities and amenities shall be provided in order to promote social interaction and opportunities for healthy, sustainable lifestyle habits.

Pursuit of FGBC Certification

The Landstone Communities DRI has applied for and will actively pursue certification under the Florida Green Building Coalition's ("FGBC") Green Development program. However, the determination of the Project's certification as a FGBC Green development is subject solely to the interpretation and approval by the FGBC of the applicant's submittal documentation.

Policy 1.7.3 The Villages of Wildwood DRI The City of Wildwood recognizes the uniqueness of the property known as The Villages of Wildwood DRI which is designated as such on the City of Wildwood's Future Land Use Map. The Villages of Sumter Development of Regional Impact (DRI) 3rd Substantial Deviation, Application for Development Approval (ADA) serves as supporting data and analysis for the project. The DRI is composed of a town center, office, commercial, institutional and other uses which are only a portion of the entire The Villages of Sumter DRI. Thus, the land uses lying within Wildwood are only a small part of the entire development plan and a portion of the allocation of mixed uses within the DRI. The ADA provides a comprehensive analysis of the suitability of the area and impacts from the DRI. This DRI analysis can be used by the City of Wildwood to guide the timing, location, type and amount of future development. Thus, the ADA, sufficiency responses and the DRI Development Order provide supporting data and analysis for the Future Land Use Map (FLUM) and text amendments. The boundaries of The Villages of Wildwood DRI are identified on the City's Future Land Use Map and subject to the following:

- a. The Villages of Wildwood DRI is a mixed use development that may include a functional integration of residential, retail, office, medical, attraction, hotel, institutional, recreation uses and supporting infrastructure (e.g. roads, water, sewer, etc.). All uses within the Villages of Wildwood may be located within the Town Center except for the Medical Campus. The planning timeframe for the project is 2008 through build-out in 2014. The maximum non-residential land use intensity shall not exceed 0.5 Floor Area Ratio (FAR), except for Town Centers and Medical Campus which shall not exceed 3.0 FAR. The maximum residential density shall not exceed 7 dwelling units per net residential acre and is limited to a maximum of 66 units. All residential units are age-restricted and must be established through the use of the land use-trade off mechanism within the adopted DRI development order. Consistent with these intensity/density

standards, the Village of Wildwood is limited to the following development entitlements:

Retail	1,288,258 SF
Office	14,400 SF
Hotel	200 rooms
Medical	300 hospital beds or equivalent medical uses
Theatre	8 screens
Institutional	49,714 SF

These entitlements may be converted through mechanisms described in the DRI development order. Conversions must not create an increase in public facility impacts and are limited to a maximum of 25% of the approved entitlements to maintain the character of development. Phasing for the project is based on development units (e.g. non-residential square footage and hospital beds) and is approximately divided into three year increments, but may proceed more quickly than projected. Interim land use activities for undeveloped land may include farming, and cattle and buffalo husbandry, provided such activities are not in conflict with the Wildlife Habitat Management Plan approved by the FFWCC for the DRI. The mix of uses and distribution of uses (not including support infrastructure) as a percent of the project's acreage are as follows:

Commercial: Including Retail, Office, Hotel Convention/Performing Arts Center and Theater	55% to 68%
Residential	0% to 15%
Institutional/Educational	1% to 3%
Medical Campus: Including Hospital, Clinic, Professional Offices, Pharmacy, Assisted Living Facility/Skilled Nursing Facility	5% to 15%

This policy does not guarantee the approval of development orders which are in accordance with the percent distribution of acreage mix. The approval of development orders shall be consistent with this policy and other policies under Policy 1.7.3 and future conditions maps.

No vertical construction may occur within the Villages of Wildwood until the effective date of a Villages of Sumter DRI development order amendment to remove the entitlements identified above.

- b. The Villages of Wildwood DRI must be consistent with the supporting criteria in this policy. Policy 1.7.3 restates the relevant provisions within the City's plan as it relates to the DRI, but exempts the project from all other comprehensive plan standards which do not relate to the project or have been superseded by Policy 1.7.3. This exemption is necessary in order to ensure that the DRI is developed consistently with the remainder of the Villages of Sumter DRI and considers those land uses that are outside of, but support, the portion within the City. The DRI

must also be consistent with the City of Wildwood FLUM and future conditions maps.

- c. The Villages of Wildwood DRI will meet all required local, state and federal regulations as specified in the DRI development order and zoning requirements.
- d. The Villages of Wildwood DRI as analyzed in the ADA is determined to be suitable for the land uses proposed for the site and will remain compatible with the surrounding area through design requirements including standards for buffering and landscaping. The project will also be developed as an intense urban center providing the benefits of a mixed use project that will encourage pedestrian activity and other modes of transportation including sidewalks bike lanes and golf cart paths.
- e. The Villages of Wildwood DRI as analyzed in the ADA has determined there are approximately 25 acres of wetlands on-site. The wetlands will be protected or mitigated in accordance with the Southwest Florida Water Management District's Environmental Resource Permit (ERP) requirements. Wetlands impacted will be limited to isolated wetlands and may be mitigated off-site as provided by the conditions of the ERP. No development will be permitted within protected wetlands in accordance with the development order. Impacted wetlands can be developed in accordance with the DRI development order as long as the wetlands are mitigated as required under the ERP.
- f. The Villages of Wildwood DRI as analyzed in the ADA has identified the nesting of the Sherman Fox Squirrel on-site. No other listed plant or animal species or other environmental features have been identified. A habitat management plan must be developed and incorporated into the DRI development order which will direct the protection and/or mitigation of impacts to any listed species. The Habitat Management Plan also requires coordination with the Florida Game and Freshwater Fish Commission.
- g. Development of the Villages of Wildwood DRI will require coordination between the developer, the City of Wildwood and Sumter County. This may include the development of any necessary agreements between the developer of the DRI, one or more Community Development Districts, Sumter County and the City of Wildwood, either through joint or separate agreements, in the provision of services. The developer will also coordinate with the City in regards to capital improvement planning as required in this policy.
- h. New development within the Villages of Wildwood DRI must not degrade the adopted level of service for the public facilities required to serve this development. Water and sewer facilities will be provided by the Central Sumter Utility Company and not by the City of Wildwood. For transportation facilities, the DRI development order includes requirements for mitigating transportation impacts. If improvements are necessary, then the developer will coordinate with

the City regarding any necessary capital planning which may include agreements to ensure the roads are mitigated.

- i. The Villages of Wildwood DRI will be developed in accordance with the following level of service standards and shall be used as the basis for determining the availability of facility capacity and the demand generated for the DRI. Decisions regarding the issuance of development orders and permits for the DRI will be based upon coordination of the development requirements adopted as part Policy 1.7.3.

Level of Service Standards for the Villages of Wildwood DRI

(These level of service standards only apply within the boundaries of The Villages of Wildwood DRI as identified on the FLUM)

TRANSPORTATION FACILITIES			LEVEL OF SERVICE
Principal Arterial			D
Minor Arterial and others			D
POTABLE WATER AND SANITARY SEWER			LEVEL OF SERVICE
Land Use	Unit	Sanitary Sewer (GPD)	Potable Water (GPD)
Residential	Dwelling unit/day	115.9	118.6
Office	Gross SF	0.010	0.10
Hotel	Rooms	100	100
Retail/Service	Gross SF	0.15	0.15
Hospital	Beds	250	250
Theater	Seat	5	5
Educational/Institutional	Gross SF	0.15	0.15
DRAINAGE FACILITIES			
Stormwater facilities shall be designed to accommodate the 15-year, 24-hour design storm to meet the water quality and quantity standards below.			
WATER QUALITY and QUANTITY			
Treatment and attenuation of stormwater runoff shall be required for all development, redevelopment and, when expansion occurs, existing developed areas. Infill residential development within improved residential areas or subdivisions, which existed prior to the adoption of the comprehensive plan, must ensure that its post-development stormwater runoff will not contribute pollutants which will cause the runoff from the entire improved area to degrade receiving waters. Water quality and attenuation shall be deemed acceptable when the applicant has demonstrated compliance with Southwest Florida Water Management District Chapter 40D-4 and Chapter 40D-40, F.A.C.			
RECREATION FACILITIES			
The recreation facilities necessary for this site are provided in the Sumter County portion of the Villages of Sumter DRI. The developer may include parks and other recreation uses within the City but these facilities are in excess of required recreation level of service to serve the project. Thus, the developer will not rely on nor degrade the City's level of service standard for recreation.			

- j. The Villages of Wildwood DRI will include as part of this project sidewalks, bike lanes and golf cart paths to ensure the project is interconnected with the remainder of The Villages.
- k. The Villages of Wildwood DRI will mitigate for any required affordable housing impacts in accordance with the adopted development order.
- l. The developer will coordinate with the City of Wildwood in the provision of transportation facilities that may be necessary to mitigate for the DRI's impacts. No other public facilities (such as potable water and sewer) will be provided by the City of Wildwood. As part of any required mitigation, the developer will coordinate with the City to ensure the mitigation can be considered as part of the City's required capital improvement planning. The developer will also coordinate with any water suppliers in accordance with the Consumptive Use Permit to ensure that adequate water supplies are available to serve the DRI.
- m. Amendments to the DRI through the Notice of Proposed Change process pursuant to s. 3 80.06(19), FS, shall not require a plan amendment provided the change does not include the addition of land or a new use and is otherwise consistent with the comprehensive plan. Changes to a DRI Development Order adopted by the City of Wildwood shall be reflected in the Conceptual Master Plan and other zoning support documents as a ministerial function.
- n. The Application for Development Approval, sufficiency responses and DRI Development Order for The Villages of Wildwood DRI provide the supporting data and analysis for the DRI land use designation on the FLUM.
- o. The Villages of Wildwood DRI Development Order ensures consistency of the DRI land use designation on the FLUM with Policy 1.7.3 and future conditions maps of the Wildwood Comprehensive Plan.

OBJECTIVE 1.8 As property is annexed into the City, and is subsequently included on the Future Land Use Map, the City shall designate appropriate land use categories (as needed), in order to manage the anticipated growth in a manner which creates a more energy efficient land use pattern, reduces greenhouse gas emissions, and promotes sustainable development based on residential neighborhoods and mixed communities which ensure compatibility between the environment, new development and existing developed areas.

Policy 1.8.1 As parcels which annex into the City are developed, a diversity of land uses shall be provided by a mixture of residential, retail, offices and manufacturing. At a minimum, the City will seek to maintain the existing ratio of 0.13 acres commercial/industrial development per dwelling unit. The development ratio will be monitored by the City through development approvals.

Policy 1.8.2 New development areas shall be developed with neighborhoods that create a sense of place and incorporate the following features:

1. Supported by mixed use developments which incorporate schools, parks and open spaces and civic spaces.
2. Developed with an orderly transportation network that includes new collector roads and a recreational trail system.
3. Provision for facilities to support the development of a public transit system.
4. The enhanced conservation of lakes and wetlands through conservation designations, recreation areas and trails.
5. The identification and reservation of land, or provision of appropriate mitigation for the following public facilities and services, if it is determined that the proposed new development has an impact on the public facilities and services:
 - a) Right-of-way for limited access, collector and local roads, bikeways and recreational trails.
 - b) Water and wastewater treatment facility sites.
 - c) Community and neighborhood parks.
 - d) School sites.
 - e) Police, EMS and fire station sites.
 - f) Other facilities used to deliver public service.

OBJECTIVE 1.9 Discourage urban sprawl through a future land use pattern which promotes orderly, compact development.

Policy 1.9.1 Land use patterns delineated on the Future Land Use Map shall promote orderly, compact growth. The City shall encourage growth and development in existing developed areas where public facilities and services are presently in place and in those areas where public facilities can provide the most efficient service.

Policy 1.9.2 The City of Wildwood shall coordinate with Sumter County through a Joint Planning Agreement in an effort to develop an area wide planning approach by 2010, taking into account environmental suitability, functional relationships and areas where public facilities and services are available or proposed to be available by year 2035.

OBJECTIVE 1.10 Promote innovative land development applications principles through the use of Planned Developments, Mixed use Developments and Cluster Design.

Policy 1.10.1 Planned development techniques shall be used as a management strategy for promoting smart growth principles, negotiating innovative development concepts, design amenities, and measures intended to encourage unique planning concepts not attainable with certainty under conventional zoning or to protect environmentally, historically, or archaeologically significant sites.

Policy 1.10.2 The City shall incorporate provisions within the Land Development Regulations that allow mixed use PD's in all mixed use land use categories of the Future Land Use Map. Residential PD's will be located within residentially designated areas; Commercial PD's will be located in commercially designated areas and Industrial PD's will be located within industrially designated areas of the Future Land Use Map. A PD

with a mix of housing types (i.e., single family and multi-family) shall be allowed in residentially designated areas of the Future Land Use Map and the percentage of distribution of each housing type shall be flexible, subject to the requirements set out in the Land Development Regulations.

Policy 1.10.3 Within mixed use developments, the City shall promote a high quality of development that will create a sense of place and community through the area. Mixed use developments shall incorporate the following principles:

1. The inclusion of a mixture of complimentary land uses that include housing, retail, offices, commercial services, manufacturing, education, civic, community and recreation uses.
2. The creation an attractive and high quality environment which is compatible with the scale and character of the surrounding community.
3. The development of commercial, residential and mixed use areas that is safe, comfortable and attractive to pedestrians.
4. The location of the commercial center so that it is easily accessible by pedestrians from as many of the residential areas as possible.
5. The maximization of shared parking.
6. The provision of roadway and pedestrian connections to residential areas.
7. The provision of social and community facilities to serve the new development and to enhance existing service levels in the area.
8. The provision of a network of open space provision in the form of squares, plazas, parks, greens and similar open space design.
9. The provision of a mixture of housing types and price ranges to provide housing opportunities for all residents of the City and benefit the area's economy.
10. The development of a diversity of housing styles, colors, materials and roof heights to create variety in the streetscape.
11. The incorporation of landscaping into the overall design as a means of linking the development areas with the open spaces, and mitigating incompatibilities between existing and new development.

Policy 1.10.4 As a means to promote conservation design, ecological integrity and maintain the City's character, cluster developments are encouraged by the City. Cluster developments shall be designed along the following principles:

1. The provision of open space within developed areas.
2. The creation of a variety of active and passive recreational uses.
3. The creation of a friendlier pedestrian environment, including walking and cycling opportunities.
4. Enhancement of the environmental setting and significant features.
5. The conservation of on-site wetlands and water bodies.
6. The maintenance of large areas of natural vegetation.
7. The maintenance of vegetation corridors along major water courses.
8. Connectivity for species, either as continuous corridors or clusters of stepping stones.

9. The use of Florida-Friendly Landscaping.

Policy 1.10.5 Crime prevention shall be considered in site design through application of all of the following guidelines:

1. All proposed building entrances, parking areas, pathways and other elements should be defined with appropriate features that express ownership. Such features should not conflict with the need for natural surveillance.
2. The proposed site layout, building and landscape design should promote natural surveillance. Physical features and activities should be oriented and designed in ways that maximize the ability to see throughout the site. For example, window placement, the use of front porches or stoops, use of low or see-through walls, and appropriate use of landscaping and lighting can promote natural surveillance. Sight-obscuring shrubs and walls should be avoided, except as necessary for buffering.
3. The proposed site layout and building design should encourage legitimate activity in public spaces. For example, locating outdoor seating in areas that are visible from inside a restaurant helps to discourage crime and supports the activity of dining.

Policy 1.10.6 Priority should be given to the creation of a hierarchy of public spaces that relate to buildings and create a sense of community. Public spaces are “public” when they are within view of a street or other public space, accessible by pedestrians, and can be occupied by people. The public space may include sidewalks, a plaza or park.

Policy 1.10.7 Through the development approval process, the City shall strive to:

1. Address the unique needs and challenges of residents and households at all stages of life.
2. Ensure access to individuals of varying abilities and stages of life in housing, public spaces, community facilities, places of employment and commercial establishments.
3. Provide for granny-flats, in-law suites, and accessory apartments in residential areas, and ensure the availability of housing types appropriate to various age and needs groups, including families with children, multi-generational households, young and/or single adults, empty nesters, and senior citizens. Granny flats or other accessory dwelling units in residential or mixed use districts shall not count against the allowable designated density established by future land use or zoning.
4. Provide opportunities for education, recreation, arts and culture, and leisure activities for residents and households of various age and interest groups.

Policy 1.10.8 The City shall implement development techniques that reduce the negative environmental impacts of development and redevelopment by:

1. Reducing building footprints to the maximum extent feasible and locating building sites away from environmentally sensitive areas.
2. Requiring the preservation of natural resources.
3. Providing for on-site mitigation of impacts (i.e. retention and treatment of

stormwater runoff, water reuse, Master Stormwater Management Systems).

4. Requiring energy and water conservation measures such as material choices for lighting, water closets, low flow or dual flush toilets, Florida Friendly Landscaping, and Water and Energy Star appliances during the development review process within properties identified on Map 1-10 as Energy and Water Conservation Focus Areas. Such measures shall be identified within the development order.

5. Promoting City-wide water and energy conservation through education, site design, landscaping, and building techniques (i.e. mixed uses, mass transit, solar power, increased tree canopy).

6. Ensuring environmentally friendly building practices (i.e. use of environmentally friendly building materials, recycled materials).

7. Considering the development of a Green Building Ordinance and a related LEED Certification Program for development and redevelopment, including the development of a Neighborhood Development Rating System that integrates the principles of smart growth, urbanism and green building into a national system for neighborhood design, by 2012.

Policy 1.10.9 The City shall implement a land use and transportation plan that reduces the emission of greenhouse gases. The City shall identify Mixed Use Centers, as defined in Policies 1.10.10 through 1.10.14 and identified on Map 1-10, as Greenhouse Gas Emission Target Areas. Mixed Use Centers shall require a pedestrian and bicycle friendly environment in which a compact mix of uses with densities and intensities that support transit can demonstrate energy efficiency by discouraging the use of the automobile and reducing vehicle miles traveled.

Policy 1.10.10 Mixed Use Centers are identified on Map 1-9 as either “Employment Mixed Use Center” or “Neighborhood Mixed Use Center” and on Map 1-10 as “Reduced Green House Gas Emission Target Areas”. The purpose of these Mixed Use Centers is to:

- Promote future mixed use developments.
- Promote multi-modal transportation.
- Reduce the need for automobile travel and reduce greenhouse gas emissions by encouraging a compact mix of uses which are pedestrian friendly and are accessible without the use of the automobile.
- Give definition to the urban form through clustering of uses rather than strip-type development.

Policy 1.10.11 The characteristics of Mixed Use Centers

- Compact in design and encourage clustering of higher densities and intensities within the geographic area to provide efficient land use planning which will reduce greenhouse gas emissions.
- Projects within a Mixed Use Center may exceed the density and intensity set by the underlying Future Land Use Map designation as described below.
- Employment Mixed Use Centers should target minimum densities of 12 units per acre and minimum intensities of .5 FAR.
- Neighborhood Mixed Use Centers should target minimum densities of 10 units per acre and minimum intensities of .25 FAR.

- Contain the mix of uses required within the underlying land use designation.
- Accessible to existing or planned major transportation thoroughfares.
- Adequate public facilities and services.
- Hubs to the multi-modal transportation network. All trails and transit stops located on Maps 2-6 and 2-7 of the Transportation Element Map Series shall access these centers.
- Soil and environmental characteristics must be suitable for development.
- Transit and multi-modal service must be planned on transportation thoroughfares accessing the site

Policy 1.10.12 The boundary, size, and location of Mixed Use Centers

- Each Mixed Use Center may be located at the intersection of existing and future major transportation thoroughfares and shall be identified on Map 1-9 of the Future Land Use Map Series.
- Each Employment Mixed Use Center shall be located within known existing or future major employment generation areas. Employment Mixed Use Centers shall encompass an area covering approximately 200 acres and shall radiate approximately 1700 feet from the center of an intersection of the transportation thoroughfare. The City shall encourage the expansion of these mixed use centers.
- Each Neighborhood Mixed Use Center shall be located within known existing or future mixed use focal areas. Neighborhood Mixed Use Centers are generally smaller in scale than Employment Mixed Use Centers, and shall encompass an area covering approximately 100 acres and shall radiate approximately 1200 feet from the center of an intersection of the transportation thoroughfare. The City shall encourage the expansion of these mixed use centers.
- Employment Mixed Use Centers, both future and existing, shall be located in the following geographic areas:
 - 1) CR 466 and US 301 Intersection
 - 2) Powell Road and SR 44 Intersection (The Villages of Brownwood DRI)
 - 3) CR 468 and SR 44 Intersection
 - 4) SR 44 and US 301 Intersection
- Neighborhood Mixed Use Centers are located in the following geographic areas:
 - 1) CR 209 and CR 462 Intersection
 - 2) CR 466A and CR 139/CR 462 Intersection
 - 3) CR 209 and CR 44A Intersection
 - 4) CR 468 and US 301 Intersection
 - 5) CR 472 and US 301 Intersection
 - 6) Landstone Communities DRI along CR 470 (west of CR 501 and CR 470 intersection)
 - 7) CR 501 and CR 468 intersection

Policy 1.10.13 Creation of New Mixed Use Centers

- As development occurs, the City shall encourage the expansion of and creation of new mixed use centers to promote a compact urban form.
- Creating additional mixed use centers shall require a text amendment to the Future Land Use Element and/ or Map 1-9.

Policy 1.10.14 The creation of new Mixed Use Centers within the Wildwood South Sub-District

- As the natural succession of development progresses south of the Florida Turnpike and east of CR 501, the City shall establish new Mixed Use Centers.
- Mixed Use Centers shall be established at intersections of major transportation thoroughfares to expand the Bus Rapid Transit System.
- Mixed Use Centers shall be adequately served by public facilities.
- New Employment Mixed Use Centers shall be designated for every 2000 acres of land that has been changed from Agriculture to an urban land use.
- New Neighborhood Mixed Use Centers shall be designated for every 1000 acres of land that has been changed from Agriculture to an urban land use.

Policy 1.10.15 General Development Standards within Mixed Use Centers

- In addition to the requirements of the underlying land use category, Mixed Use Centers must present a unified architectural theme. It is not the intent for all Mixed Use Centers to contain the same architectural theme, but for each center to have a unique theme.
- Out parcels must provide for shared access both pedestrian and vehicular.
- Utilization of shared parking and loading facilities.
- Provide a network of unified open spaces and common areas which promote linkage to adjacent developments.
- Share facilities such as stormwater, frontage roads, utility easements and other similar features.
- Direct pathways from buildings to transit stops, pedestrian pathways, plazas and public spaces.
- Bicycle parking facilities shall be conveniently located for both customers and employees.
- Streetscape design compatible with pedestrian, bicycle, and transit facilities.

Policy 1.10.16 Affordable Housing Density Bonus Developments may achieve a 25% increase in the maximum allowable density in the respective future land use classification in exchange for the construction of affordable housing units. Affordable housing is defined as housing meeting the needs of households with very low, low or moderate income where the monthly mortgage or rent expenses do not exceed thirty percent (30%) of the household's monthly income. The 25% density bonus may be awarded provided the following criteria are met:

1. That the development seeking the density bonus will be providing affordable housing units. The development must reserve 20% of the total housing units, not including the bonus units, for affordable housing.
2. That the development seeking the density bonus is located along a future Bus Rapid Transit corridor and located where the future land use map allows a density of greater than 4 dwelling units per acre.
3. That the design and orientation of the development seeking the density bonus is compatible with the surrounding land use character. Building size and massing, site

layout and design, architectural characteristics, and landscaping will be components of this criterion.

Policy 1.10.17 Green Building Density Bonus Developments may achieve a 25% increase in the maximum allowable density in the respective future land use classification in exchange for the development of Green Buildings. Green Buildings shall achieve LEED Silver rating or higher as defined by the United States Green Building Council (USGBC). The 25% density bonus may be awarded provided the following criteria are met:

1. The developer must submit a letter of intent that communicates their commitment to achieve a LEED Silver rating or higher prior to issuance of a Development Order.
2. The development must provide documentation demonstrating the achievement of the rating prior to issuance of a Certificate of Occupancy.

OBJECTIVE 1.11 Designate and promote sufficient areas for quality residential development and neighborhood cohesiveness, and require the availability of adequate facilities to support demands necessitated by existing and future housing development and associated populations.

Policy 1.11.1 The Future Land Use Map shall designate sufficient land area for residential land uses according to a pattern which promotes neighborhood cohesiveness and identity, sustainable development principles and which enables efficient provision of public facilities and services.

Policy 1.11.2 Residential subdivisions, plats, and PD's shall be required to dedicate recreation space and public open space in accordance with Recreation & Open Space Element Policy 1.1.1.

Policy 1.11.3 Residential areas delineated on the Future Land Use Map shall be protected from the encroachment of incompatible non-residential development. The City shall maintain a landscape ordinance that requires buffering between incompatible land uses. The vegetated buffer may be applied as credit towards meeting the site's open space requirements.

Policy 1.11.4 The City shall maintain site design requirements and subdivision regulations in the Land Development Regulations which adequately address the impacts of new development on adjacent properties in all land use categories and zoning districts.

Policy 1.11.5 Supportive community facilities may be located within residential areas but shall be required to comply with performance standards and development requirements set forth within the Land Development Regulations. A "community facility or service" shall mean a building or structure owned and operated or authorized by the City of Wildwood to provide a public service and is limited to fire stations, police substations, emergency medical response stations, and postal drop box stations and other similar community-oriented facilities.

Policy 1.11.6 Transportation systems within designated residential areas delineated on the Future Land Use Map shall be designed to accommodate traffic conditions that further public safety and limit nuisances. Access to residential areas shall comply with policies established within the Transportation Element that address access management. The design of new residential subdivisions must include the dedication of right-of-way to enable pedestrian access to adjacent residential subdivisions.

OBJECTIVE 1.12 Allocate sufficient land area to accommodate commercial activities which provide goods and services demanded by local and area-wide markets, with consideration to fiscal and environmental impacts to the City of Wildwood.

Policy 1.12.1 The location and distribution of commercial land use categories delineated on the Future Land Use Map shall be determined according to the following criteria:

1. Access and vicinity to arterial and collector roads, ease of access and egress from major thoroughfares to commercial sites, ability to achieve a functional internal circulation and off-street parking system.
2. The promotion of sustainable development within mixed use sites by establishing a pattern of development which reduces the need to travel by car, encourages opportunities for cycling and walking.
3. Ability to comply with adopted performance standards for preventing or minimizing nuisance impacts, such as emission of air pollutants, noise, odor and generation of hazardous waste or products.
4. Impact on the conservation and preservation of natural resources.
5. Demand on existing and planned public services, utilities, water resources and energy resources.

Policy 1.12.2 Access to commercial sites shall utilize adjacent streets adjoining U.S. 301, and S.R. 44 where such streets serve to provide safe ingress\egress to the site. Such use of existing streets shall not be designed to direct traffic into residential areas. Commercial development pursuing access to State and County facilities shall be required to obtain all access management (curb cut) permits from those entities in accordance with their established rules and regulations prior to a site plan being approved by the City.

Policy 1.12.3 The density and intensity of commercial uses shall be compatible with the ability of public facilities to provide adequate services according to adopted level of service standards. The Future Land Use Map shall not designate more commercial areas than that which existing and planned public facilities and roadways can support at adopted minimum level of service standards.

Policy 1.12.4 New commercial development shall comply with the following principles:

1. Compliance with adopted standards for preventing or minimizing nuisance impacts, such as the emission of air pollutants, noise, odor and generation of hazardous waste or products.

2. Minimizing the demand on existing and planned public services, utilities, water resources and energy resources.
3. Connecting to central sanitary sewer and water systems.
4. The use of design to soften the massing of larger commercial buildings, ensure compatibility with the design character of the area and support a safe and attractive pedestrian environment.
5. The creation of public spaces that relate to the buildings and create a sense of community. The public space may include sidewalks, a plaza or a park.
6. The use of public art and landmark buildings to add interest and variety to the development.
7. Landscaping design to emphasize native species tree shrubs and flowers and to provide visual interest at different times of the year.

Policy 1.12.5 New development shall be required to maintain a portion of commercial sites as open space. The Land Development Regulations shall specify the proportion of land which shall be retained for open space.

OBJECTIVE 1.13 The City of Wildwood shall promote transportation choice through construction of well-designed pedestrian, bicycle and transit facilities.

Policy 1.13.1 In road construction and reconstruction projects, roadway designs shall protect and promote pedestrian comfort, safety and attractiveness. Such measures should include, where feasible, on-street parking, wide sidewalks, and abundant landscaping at the street edge.

Policy 1.13.2 The City of Wildwood shall prioritize street segments with sidewalk gaps. The following criteria shall be used in prioritizing sidewalk gap improvements:

1. Proximity to public schools.
2. Proximity to major public parks or cultural facilities.
3. Proximity to high density residential and commercial areas, or any area exhibiting (or potentially exhibiting) a high volume of walking.
4. Arterial and collector streets.
5. Proximity to transit routes.
6. Proximity to identified redevelopment areas.

Policy 1.13.3 Future arterial and collector road constructions, widening, or reconstruction projects shall require accommodation of bicycle travel and pedestrian needs.

OBJECTIVE 1.14 The City shall manage and control existing and future land uses located within or adjacent to environmentally sensitive lands and other significant natural resources.

Policy 1.14.1 Wetlands shall be protected through the implementation of the following standards and guidelines:

- a. Precise delineation (pursuant to Chapter 62-340, FAC) and functional assessment (pursuant to Chapter 62-345, FAC) of wetland areas shall be determined based on ACOE and SWFWMD criteria through site-specific studies and field determination during development review;
- b. Impacts to wetlands shall be avoided where possible. Mitigation of lost wetland resources shall be required. The amount of mitigation required shall be dependent upon the function value of the wetlands proposed for impact and the type of mitigation proposed based on ACOE and SWFWMD criteria;
- c. Commercial and industrial uses and uses which store or generate hazardous materials/wastes shall not be permitted in or adjacent to wetlands without proper measures to ensure protection of the wetlands;
- d. Septic tanks shall not be permitted in wetlands;
- e. Wetland protective measures shall include the use of SWFWMD vegetative buffers. Buffer widths shall depend on the nature and functional value of the wetlands to be protected per SWFWMD regulations;
- f. No new parcels of land shall be created which consist entirely of wetlands, unless such parcels are dedicated to the public or remain in private ownership with long term conservation easements; and
- g. All required permits from jurisdictional agencies shall be approved prior to, or concurrent with, the City issuing a final development order authorizing site development activity.

Policy 1.14.2 The City shall maintain stormwater management requirements in the Land Development Regulations which provide specific standards for the design of on-site stormwater systems, as well as strategies and measures to minimize runoff into natural water bodies.

Policy 1.14.3 Vegetative communities and wildlife habitats (particularly those identified as primary habitat for endangered or threatened species) shall be protected and conserved directly or indirectly by rules and principles established in Conservation policies.

Policy 1.14.4 Land use activities, including their densities and intensities, shall be compatible with soil types whose properties are capable of supporting the structures, parking areas, ancillary uses, and facilities proposed to be placed on them. The City shall maintain provisions in the Land Development Regulations which stipulate and define performance standards for land use activities proposed to occur on soil types whose development potential is limited in some form or manner.

Policy 1.14.5 Septic tanks will not be allowed on new residential, commercial and industrial sites within the City. When financially feasible, the City shall extend central sewer service to all developed properties within the current City limits. The City will also coordinate with the County to limit septic tank permits in unincorporated areas adjacent to the City's urban boundary.

Policy 1.14.6 The City shall coordinate with the State, the Southwest Florida Water Management District, the Withlacoochee Regional Planning Council, Sumter County and

other agencies concerned with managing natural resources for the purpose of protecting the function and existence of natural systems.

Policy 1.14.7 Wetlands designated as Conservation on the Future Land Use Map shall be subject to a formal determination from the Southwest Florida Water Management District.

Policy 1.14.8 Wetland determinations may find that lands designated as Conservation are free of wetlands or that lands designated as other future land uses contain wetlands. In such cases, development shall be allowed in areas not deemed as preservation by the Southwest Florida Water Management District. However, in no case shall any development decrease the amount of Conservation lands on the Future Land Use Map for any project site, and mitigation for any wetland impacts shall occur within said project site.

OBJECTIVE 1.15 The City shall ensure that land development and conservation activities further the protection of archaeological and/or historic sites that may be discovered in the future, in accordance with both Florida Department of State and local standards for the protection and preservation of such features.

Policy 1.15.1 The City shall prevent detrimental impacts of development to historic sites including provisions within the Land Development Regulations which preclude:

1. Destruction or alteration of all or part of such site.
2. Transfer or sale of a site of historical significance without adequate conditions or restrictions regarding continued preservation, maintenance, or use of such property;
3. Encroachment or introduction of visible, audible, or atmospheric elements which are inconsistent with the character of the property.
4. Alteration or destruction of the site's surrounding environment.

Policy 1.15.2 Development shall cease construction activities on a development site when unidentifiable artifacts are uncovered during either land preparation or construction. The developer shall notify the City of such potential discovery, and the City and/or the developer shall contact the Florida Department of State of such discovery. Construction shall not begin until the state has determined the archaeological significance of the discovery and the restrictions which shall be imposed on development. Development may continue in areas which will not impact the site of the discovery.

Policy 1.15.3 The City shall identify all locally significant historical properties.

Policy 1.15.4 The City shall encourage the rehabilitation of identified historical properties through incentives such as the waiving of stringent development requirements.

Policy 1.15.5 The City shall promote the restoration, rehabilitation, and reuse of designated historic properties by assisting property owners in obtaining grants and technical assistance.

OBJECTIVE 1.16 The City shall assure that needed public services and facilities are developed concurrent with the impact of new development.

Policy 1.16.1 The City shall extend public facilities only to existing and proposed land use activities, as shown on the Future Land Use Map, which shall require and demand such services. Undeveloped land shall not be designated for development without assurance through the Comprehensive Plan that public facilities shall be available concurrently with the impacts of development. The impacts of land uses, including their densities and intensities, shall be coordinated with the City's ability to finance or require provision of necessary public facilities at conditions meeting or exceeding the adopted minimum level of service standards.

Policy 1.16.2 The timing and location of public facilities shall be coordinated through the Concurrency Management System and Capital Improvement Program to ensure that development occurs in an orderly and timely manner consistent with the availability of public facilities and services.

Policy 1.16.3 The City shall coordinate the Comprehensive Plan with the development and service plans of utility companies to assure that sufficient right-of-way and other land is available for utility placements and distribution lines. A Public Facilities land use category shall be used to allocate areas on the Future Land Use Map to accommodate utilities. Distribution lines, such as telephone lines and water mains, shall be permitted in public right-of-way or as otherwise stated in the Land Development Regulations.

Policy 1.16.4 Development orders and permits shall not be issued unless the necessary facilities and services are available concurrent with the impacts of development. Future land use allocations, including their related densities and intensities, shall not exceed the financial and legal ability of the City to provide public facilities to serve those land uses delineated on the Future Land Use Map. The City's concurrency management system shall determine whether adequate public facility capacities are available to meet the demands generated by new development and redevelopment.

OBJECTIVE 1.17 The City shall protect existing and future potable public water wells by restricting and/or prohibiting land uses and development activities that may adversely impact these water resources.

Policy 1.17.1 In the area defined by a circle around the wellhead with a radius of 200 feet, all proposed development around existing wells shall be connected to a central water and sanitary sewer system, no development shall be allowed around future wells.

Policy 1.17.2 Sewer mains will not be located within 100 feet of any public water well.

Policy 1.17.3 In the additional area defined by a secondary circle around the wellhead with a radius of 500', or a radius based upon the 10 year travel period if known, the following development activities are prohibited:

1. Landfills.
2. Facilities for bulk storage, handling or processing of materials on the Florida Substance List.
3. Activities that require the storage, use or transportation of restricted substances, agricultural chemicals, petroleum products, hazardous toxic waste, medical waste, etc.
4. Feedlots or other commercial animal facilities.
5. Wastewater treatment plants, percolation ponds and similar facilities.
6. Mines.
7. Excavation of waterways or drainage facilities which intersect the water table.

OBJECTIVE 1.18 The City of Wildwood shall cooperatively plan for the location, and to the greatest extent practicable, the collocation of School Facilities. Consistent with adopted legislation, schools shall be located proximate to existing and planned urban residential areas, and collocation shall occur proximate with other public facilities, park, libraries and community centers to the greatest extent possible. In order to effectively locate and co-locate school facilities the City and school board shall share and coordinate pertinent information relative to existing and planned public school facilities and overall community development.

Policy 1.18.1 Public schools shall be allowed in all commercial, residential and public land use categories.

Policy 1.18.2 Public school location shall be based upon siting criteria that includes, but is not limited to school size, land area, land use compatibility, environmental impacts, availability of public utilities, transportation considerations and public safety. Public uses, including schools, are subject to public hearing as part of the approval process that is administered and performed by the City Commission. This process provides an opportunity for public input to discuss project plans for siting, expansion, co-location and other related development issues the public may feel appropriate to the situation.

OBJECTIVE 1.19 Interlocal Service Boundary and Joint Planning Agreement with Sumter County The City shall continue to coordinate with Sumter County regarding planning, building permitting and code enforcement, future annexation areas, water and sewer, roads, parks and recreation, fire services, library services, workforce housing, solid waste, stormwater, geographic information systems, law enforcement, mosquito control, and animal control pursuant to the effective Interlocal Service Boundary and Joint Planning Agreement (ISBA), consistent with Chapter 171 Part II, Florida Statutes. The ISBA assures the following:

1. Land use decisions are consistent with the comprehensive plan of each jurisdiction;
2. Annexations of unincorporated areas are coordinated and consistent with planned future service areas;

3. Expansion of water and sewer service is coordinated, efficient, and supports the growth and development of each community; and
4. Future municipal growth and expansion is supported through a unified effort across jurisdictions and supported with planned public services.

Policy 1.19.1 Interlocal Service Boundary and Joint Planning Area Agreements Adopted by Reference The Interlocal Service Boundary and Joint Planning Area Agreements adopted by the Sumter County Board of County Commissioners by Ordinance 2009-07, as amended, and the City of Wildwood City Commission by Ordinance No. 02009-10, as amended, is hereby adopted within the comprehensive plan by reference.

Policy 1.19.2 Joint Planning Area and Municipal Services Area A Joint Planning Area and Municipal Services Area is hereby established between the City of Wildwood and Sumter County to combat urban sprawl, provide an energy efficient land use pattern, and to manage growth in an environmentally sensitive manner that protects rural areas within the county. The Joint Planning Area, as shown on Map 1-11, shall serve as the Municipal Services Area, more specifically defined in Sections 171.202(11) and 163.3171, Florida Statutes.

Policy 1.19.3 Annexation within the Joint Planning Area The City may annex any property within their respective Joint Planning Area, including property that is not contiguous, that creates enclaves, or that creates pockets, if the property proposed for annexation meets the following criteria:

1. It is consistent with the prerequisites to annexation and consent requirements for annexation in Section 171.204 and Section 171.205, Florida Statutes;
2. Utilities are available or scheduled within the Capital Improvements Element to be provided to the property within five (5) years;
3. A road directly impacted by the annexation, meaning such road directly abuts the property or otherwise provides significant service to the property, is not a substandard road, as defined by the Transportation Element, or deficiencies are mitigated through a binding agreement; and
4. All other municipal services are available to the site.

Policy 1.19.4 Proposed Future Land Use Map Designations within the Joint Planning Area The proposed future land use designations for properties within the Joint Planning Area shall be depicted on Map 1-12. Upon annexation into the City, the City shall amend the Future Land Use Map to include the annexed property. If the future land use of the annexed property is consistent with the proposed future land uses depicted on the Joint Planning Area Map 1-12 then the amendment shall be considered a small scale future land use map amendment pursuant to Section 171.204(2), Florida Statutes. The proposed future land uses shown on Map 1-12 are not effective until such time as the property is annexed into the City and the City's Future Land Use Map is amended to include the annexed property. The underlying County future land use shall remain in full force and effect until such time as the annexation and related amendment are effective.

Policy 1.19.5 Amendments to the Joint Planning Area Boundary The Joint Planning Area boundary may be expanded to include a parcel or parcels of property for annexation following joint approval by the City of Wildwood and the County. Approval shall not be unreasonably withheld if the property meets the criteria for annexation and there is no increase in density or intensity of development. If there is an impasse, the City and the County will resolve through the dispute resolution process provided in the ISBA. The expanded Joint Planning Area shall not take effect until the City's and County's Future Land Use Maps are amended and approved by the Florida Department of Economic Opportunity as required by Section 163.3184(3), Florida Statutes.

Policy 1.19.6 Amendments to Proposed Future Land Use on the Joint Planning Area Maps Amendments to the proposed future land use on the Joint Planning Area Map shall require joint approval by the City and the County. The amendment to the Joint Planning Area Map shall not take effect until the City's and County's Future Land Use Maps are amended and approved by the Florida Department of Economic Opportunity as required by Section 163.3184(3), Florida Statutes.

Policy 1.19.7 Issuance of Development Orders The City shall have the sole authority to issue development orders within its municipal limits. The County shall have the sole authority to issue development orders within unincorporated areas. However, the County, pursuant to the ISBA, shall provide the City the professional staff support for the processing, review, and approval of building permits and other building inspection services.

Policy 1.19.8 Land Development Regulations The City's land development regulations shall apply for development within its municipal limits. The County's land development regulations shall apply for development within unincorporated areas. However, the City's Design District Standards, as amended, shall apply to properties within the Joint Planning Area, as further described in the ISBA.

CHAPTER 7

INTERGOVERNMENTAL COORDINATION ELEMENT

Goals, Objectives and Policies

Any and All Florida Statutes, Florida Administrative Code Regulation or Other Regulations Referenced in this Element Shall be Enforced as it Existed on the Date of Adoption or Amendment of this Element and are to Include any Amendments to the Referenced Regulation, Statute or Code Adopted After the Date of Adoption or Amendment of this Element.

GOAL 1 The City shall coordinate the activities of the City of Wildwood with affected federal, state, regional and local jurisdictions and agencies.

OBJECTIVE 1.1 The City shall annually identify all existing and potential relationships with other governmental jurisdictions and agencies, and enforce policies to further efforts concerning coordination between all potential jurisdictions and agencies.

Policy 1.1.1 The City shall use the Intergovernmental Coordination Element of the Comprehensive Plan as the basis for the development of an on-going intergovernmental coordination program.

Policy 1.1.2 The City shall establish and maintain lines of communication with public agencies and local governments regarding local planning and development activities.

Policy 1.1.3 The City shall ensure the widest possible dissemination of information and encourage public discussion of all proposed City plans and programs.

Policy 1.1.4 The City shall require developers to assess their needs regarding essential services (electric, gas, etc.) and the developer shall seek confirmation of future availability from appropriate utility suppliers. Confirmation shall be provided by the utility to the City Development Services Department during the planning stages of development but no later than the issuance of a development permit.

Policy 1.1.5 The City of Wildwood Development Services Department shall maintain close contact with public utilities that provide essential services to assure continuity and availability of service.

Policy 1.1.6 The City of Wildwood and Sumter County will coordinate on Planning, Water and Sewer, Roads, Parks and Recreation, Fire Services, Library Services, Workforce Housing, Solid Waste, Stormwater, Geographic Information Systems, Law Enforcement, Mosquito Control, and Animal Control pursuant to an Interlocal Service Boundary and Joint Planning Agreement adopted by the City on April 13, 2009, Ordinance No. 2009-10, and by the County on April 14, 2009, Ordinance 2009-07.

OBJECTIVE 1.2 The City of Wildwood shall coordinate the Comprehensive Plan with Sumter County School Board, Southwest Florida Water Management District, the Florida Department of Transportation, adjacent local government comprehensive plans and other units of local government providing services but not having regulatory authority over land.

Policy 1.2.1 The City shall, as part of the Comprehensive Plan Review and Amendment Process, coordinate proposed plan amendments with adjacent local governments, the Sumter County School Board, the Southwest Florida Water Management District, the Withlacoochee Regional Planning Council and other local governments not having regulatory authority over the use of land.

Policy 1.2.2 The City Manager, or designee, shall be responsible for the implementation of the intergovernmental programs.

Policy 1.2.3 The City shall establish procedures to ensure intergovernmental coordination with the Sumter County School Board for the location of educational facilities within the City limits, including:

a. Upon written notice from the Sumter County School Board informing the City of the acquisition or leasing of property to be used for new public education facilities, the City shall notify the School Board within 45 days as to the consistency with the Wildwood Comprehensive Plan.

b. The City Manager, or designee, shall meet semi-annually with the Sumter County School Board superintendent or designee in order to discuss upcoming planning issues which may impact the Sumter County School District, a particular school or planning efforts.

Policy 1.2.4 The City shall identify and participate in joint processes for collaborative planning on population projections, school siting, facilities with City-wide significance and problematic land uses.

Policy 1.2.5 The City shall review for potential impact all projects proposed in the City of Wildwood by other agencies.

Policy 1.2.6 The City shall annually review the relationship of the proposed development of the City of Wildwood to the Sumter County Comprehensive Plan.

Policy 1.2.7 The City shall enforce regulations to ensure that other jurisdictions and agencies are not adversely impacted by activities within the City.

Policy 1.2.8 The City shall request copies and review all plans and programs being proposed by other area government entities with known or potential impacts on the City.

Policy 1.2.9 The City shall resolve any and all conflicts with other local governments through the Regional Planning Council's dispute resolution process only if such conflicts cannot be resolved by negotiation with the other government entity.

Policy 1.2.10 The City shall notify the County of all proposed annexations upon receipt of requests for such annexations.

OBJECTIVE 1.3 Ensure through adopted Interlocal Agreements, the City of Wildwood addresses through coordination mechanisms, the impacts of developments proposed in the Wildwood Comprehensive Plan on development in adjacent municipalities, the County, Region and State.

Policy 1.3.1 The City shall ensure all proposed development is not contrary to the development plans of the County, region and state prior to issuance of development orders.

Policy 1.3.2 The City shall establish policies to address a joint process with the Sumter County School Board for collaborative planning and decision making concerning population projections and school siting.

OBJECTIVE 1.4 The City shall acquire the approval of any State, Local or Regional entity having operational and maintenance responsibilities of public facilities within the City jurisdiction prior to establishing level of services for such public facilities.

Policy 1.4.1 The City shall coordinate proposed level of service standards for public facilities with state, regional and local entities having operational and maintenance responsibilities for such facilities.

OBJECTIVE 1.5 The City shall strive to maintain and enhance joint planning processes and procedures for coordination of public education facilities for planning and decision-making.

On an ongoing basis, the City shall establish new and review existing coordination mechanisms that will evaluate and address its comprehensive plan and programs and their effects on the comprehensive plans developed for the adjacent local governments, school board, and other units of local government providing services but not having regulatory authority over use of land and the State, by an annual county-wide forum, joint meetings or other types of forums with other agencies. Assistance for this effort shall be requested from regional and state agencies, as needed.

Policy 1.5.1 On an annual basis, the City shall ask the School Board to provide information from their five-year Capital Facilities Plan to determine the need for additional school facilities. The School Board shall provide to the County, each year, a general education facilities report. The educational facilities report shall contain

information detailing existing facilities and their locations and projected needs. The report shall also contain the School Board’s capital improvement plan, including planned facilities with funding representing the district’s unmet needs.

CALENDAR OF KEY ANNUAL DEADLINES

February 1	Cities’ and County’s Growth Reports Provided to School Board
April 15	Staff working group meeting re enrollment projections and any proposed amendments to the school-related elements of the comprehensive plan provisions
June 30	School Board provides Tentative Educational Facilities Plan to County and Cities for review
July 30	Cities and County provide School Board with comments, if any, on Tentative Educational Facilities Plan
September 1	School Board’s adoption of Educational Facilities Plan
September 1	Update of Five-Year Capital Facilities Plan adopted into City’s and County’s comprehensive plans

Policy 1.5.2 In order to coordinate the effective and efficient provision and siting of public educational facilities with associated infrastructure and services within the City of Wildwood, the Sumter County Board of County Commissioners, the Sumter County School Board, and the City of Bushnell Council, Center Hill Council, City of Coleman Council, and City of Webster Commission shall meet jointly to develop mechanisms for coordination. Such efforts may include:

1. Coordinated submittal and review of the annual capital improvement program of the City, the annual educational facilities report and Five-year School Plant Survey of the Sumter County School Board.
2. Coordinated review and assessment of the associated costs and expenditures of siting and developing schools with needed public infrastructure.
3. Coordinated review of residential planned developments or mixed use planned developments involving residential development.
4. Use of a unified data base including population (forecasts of student population), land use and facilities.
5. Use of the Parks/Schools Planning Group (with representatives from each of the entities) to review coordinated siting of schools with parks for multi-functional use.

Directives resulting from the joint meeting shall be incorporated into the Comprehensive Plan, Land Development Regulations, and other appropriate mechanisms as deemed necessary.

OBJECTIVE 1.6 Interlocal Service Boundary and Joint Planning Agreement with Sumter County The City shall continue to coordinate with Sumter County regarding planning, building permitting and code enforcement, future annexation areas, water and sewer, roads, parks and recreation, fire services, library services, workforce housing, solid waste, stormwater, geographic information systems, law enforcement, mosquito control, and animal control pursuant to the effective Interlocal Service Boundary and Joint Planning Agreement (ISBA), consistent with Chapter 171 Part II, Florida Statutes. The ISBA assures the following:

1. Land use decisions are consistent with the comprehensive plan of each jurisdiction;
2. Annexations of unincorporated areas are coordinated and consistent with planned future service areas;
3. Expansion of water and sewer service is coordinated, efficient, and supports the growth and development of each community; and
4. Future municipal growth and expansion is supported through a unified effort across jurisdictions and supported with planned public services.

Policy 1.6.1 Interlocal Service Boundary and Joint Planning Area Agreements Adopted by Reference The Interlocal Service Boundary and Joint Planning Area Agreements adopted by the Sumter County Board of County Commissioners by Ordinance 2009-07, as amended, and the City of Wildwood City Commission by Ordinance No. 02009-10, as amended, is hereby adopted within the comprehensive plan by reference.

Policy 1.6.2 Joint Planning Area and Municipal Services Area A Joint Planning Area and Municipal Services Area is hereby established between the City of Wildwood and Sumter County to combat urban sprawl, provide an energy efficient land use pattern, and to manage growth in an environmentally sensitive manner that protects rural areas within the county. The Joint Planning Area, as shown on Map 1-11, shall serve as the Municipal Services Area, more specifically defined in Sections 171.202(11) and 163.3171, Florida Statutes.

Policy 1.6.3 Annexation within the Joint Planning Area The City may annex any property within their respective Joint Planning Area, including property that is not contiguous, that creates enclaves, or that creates pockets, if the property proposed for annexation meets the following criteria:

1. It is consistent with the prerequisites to annexation and consent requirements for annexation in Section 171.204 and Section 171.205, Florida Statutes;

2. Utilities are available or scheduled within the Capital Improvements Element to be provided to the property within five (5) years;
3. A road directly impacted by the annexation, meaning such road directly abuts the property or otherwise provides significant service to the property, is not a substandard road, as defined by the Transportation Element, or deficiencies are mitigated through a binding agreement; and
4. All other municipal services are available to the site.

Policy 1.6.4 Proposed Future Land Use Map Designations within the Joint Planning Area The proposed future land use designations for properties within the Joint Planning Area shall be depicted on Map 1-12. Upon annexation into the City, the City shall amend the Future Land Use Map to include the annexed property. If the future land use of the annexed property is consistent with the proposed future land uses depicted on the Joint Planning Area Map 1-12 then the amendment shall be considered a small scale future land use map amendment pursuant to Section 171.204(2), Florida Statutes. The proposed future land uses shown on Map 1-12 are not effective until such time as the property is annexed into the City and the City's Future Land Use Map is amended to include the annexed property. The underlying County future land use shall remain in full force and effect until such time as the annexation and related amendment are effective.

Policy 1.6.5 Amendments to the Joint Planning Area Boundary The Joint Planning Area boundary may be expanded to include a parcel or parcels of property for annexation following joint approval by the City of Wildwood and the County. Approval shall not be unreasonably withheld if the property meets the criteria for annexation and there is no increase in density or intensity of development. If there is an impasse, the City and the County will resolve through the dispute resolution process provided in the ISBA. The expanded Joint Planning Area shall not take effect until the City's and County's Future Land Use Maps are amended and approved by the Florida Department of Economic Opportunity as required by Section 163.3184(3), Florida Statutes.

Policy 1.6.6 Amendments to Proposed Future Land Use on the Joint Planning Area Maps Amendments to the proposed future land use on the Joint Planning Area Map shall require joint approval by the City and the County. The amendment to the Joint Planning Area Map shall not take effect until the City's and County's Future Land Use Maps are amended and approved by the Florida Department of Economic Opportunity as required by Section 163.3184(3), Florida Statutes.

Policy 1.6.7 Issuance of Development Orders The City shall have the sole authority to issue development orders within its municipal limits. The County shall have the sole authority to issue development orders within unincorporated areas. However, the County, pursuant to the ISBA, shall provide the City the professional staff support for the processing, review, and approval of building permits and other building inspection services.

Policy 1.6.8 Land Development Regulations The City's land development regulations shall apply for development within its municipal limits. The County's land

development regulations shall apply for development within unincorporated areas. However, the City's Design District Standards, as amended, shall apply to properties within the Joint Planning Area, as further described in the ISBA.

I. Introduction

The City of Wildwood and Sumter County entered into an Interlocal Service Boundary (ISB) and Joint Planning Area (JPA) Agreement pursuant to F.S. § 171, Part II. The City adopted the agreement by ordinance (Ordinance O2009-10) on April 13, 2009. The City and County are now amending their respective comprehensive plans to include the JPA.

F.S. § 171.203(11) requires the City amend the Comprehensive Plan to include a boundary map of the municipal service area, establish population projections, and demonstrate the ability to service the area with public facilities and services. The state land planning agency is required to review the amendment under F.S. § 163, Part II.

The Municipal Service Area Boundary is shown on **Map 1-11**. The amendments to the City's Comprehensive Plan include incorporation of the Municipal Service Area Boundary, the Joint Planning Area Land Use Map (**Map 1-12**), and text amendments to the Future Land Use Element concerning urban sprawl, land uses within the JPA, annexation, and provisions of services.

The Joint Planning Area serves as the Municipal Services Area as described in F.S. § 171.202(11). The Joint Planning Area Land Use Map was prepared through a collaborative effort between the City, Sumter County and the Lake-Sumter MPO over the last couple of years. City and County staff utilized the ISB and JPA Agreement, the City's 2035 Comprehensive Plan, Sumter County's Comprehensive Plan, and the Lake-Sumter MPOs 2035 Long Range Transportation Plan (LRTP) in developing a sound and well-thought land use plan.

II. Population Projections

A fundamental component of the JPA is to project the anticipated population. Within the City limits, the population projections were established with the approval of the 2035 Comprehensive Plan. During the negotiations with the Department of Communities Affairs to bring the 2035 Comprehensive Plan into compliance the City, Sumter County and the Department of Community Affairs entered into a "Population Allocation Agreement". This agreement laid the groundwork for the population projections and fortified the position that the County intends on protecting its rural character by establishing a planning strategy which identifies the JPA of Wildwood as an appropriate area for urban development. The agreement states:

"Sumter County agrees that when considering the need for any future land use plan amendment in the unincorporated area of the County to accommodate projected growth, the County will first allocate 25% of the total projected population of the County (both incorporated and unincorporated) to the City of Wildwood, and then allocate the appropriate

percentage of population to the remaining incorporated municipalities. Sumter County will rely on the remaining population not allocated to the municipalities in determining the need for additional land use capacity in the unincorporated area.”

The JPA provides the City with an opportunity to reexamine the population projections within the 2035 Comprehensive Plan and make adjustments as needed. A central part of the population projections (prepared by Fishkind and Associates) as well as the “Population Allocation Agreement” was the County’s projected population and the City’s capture of the that population. The basis is that Wildwood will continue to increase its percentage capture and ultimately capture 25% of the county’s population in 2035. While this trend is occurring (the City’s capture rate has increased from 5% in 2009 to 7.1% in 2011), the increase is not occurring as rapidly as first projected by Fishkind. Therefore, the City has adjusted its capture rate and its projected population within the City limits as shown on **Table 1** and **Figure 1**.

Table 1: Adjusted City of Wildwood Capture Rate and Population Projections

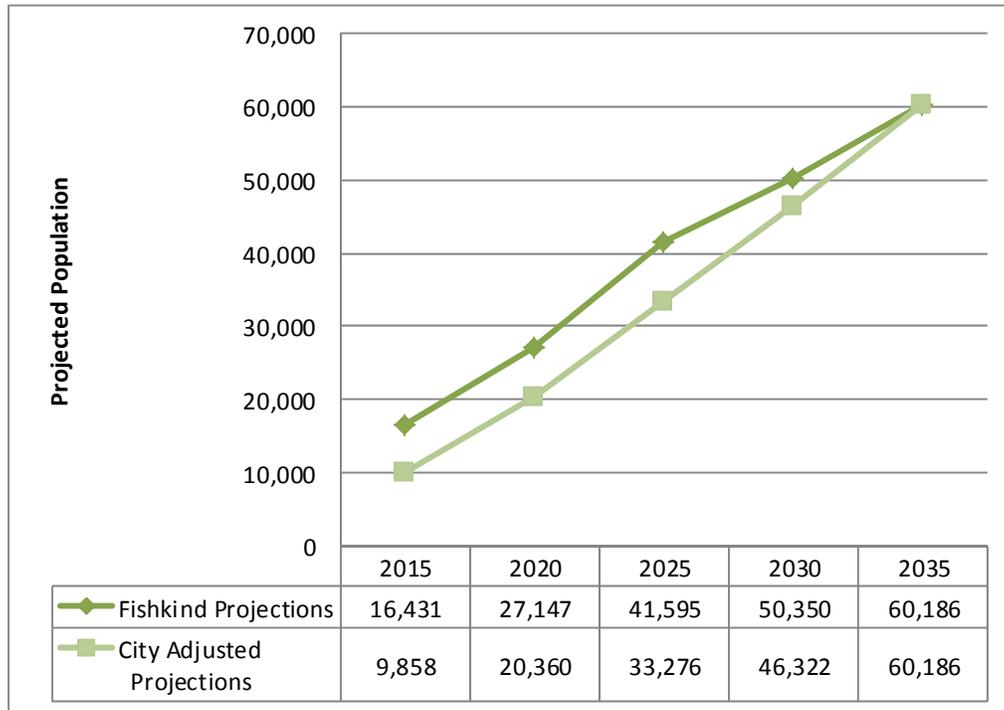

Sumter County	Current	Projections				
		2015	2020	2025	2030	2035
BEBR 2011 Estimate	96,615					
BEBR Medium		110,000	130,800	151,400	171,700	191,600
Fishkind Projections		109,537	135,736	166,381	201,398	240,746
BEBR High		120,100	146,700	178,200	212,100	248,500

City of Wildwood	Current	Projections				
		2015	2020	2025	2030	2035
Current Population	6,926					
Fishkind Projections		16,431	27,147	41,595	50,350	60,186
Fishkind Projected Capture Rate	10%	15%	20%	25%	25%	25%
City of Wildwood Adjusted Projections	6,926	9,858	20,360	33,276	46,322	60,186
City of Wildwood Adjusted Capture Rate	7%	9%	15%	20%	23%	25%

Notes:

- 1) Fishkind projections represent adopted population projections for Wildwood and Sumter County
- 2) Current population per BEBR preliminary population estimate (permanent residents) 4/1/11

Figure 1: City of Wildwood Population Projections

Unincorporated Population within the Joint Planning Area

The population outside the City limits but within the JPA was allocated by extrapolating the model data that was entered into the Lake-Sumter MPO’s 2035 LRTP. The City and the County worked closely with MPO staff in assigning employment and population figures within each traffic analysis zone (TAZ). Through this coordinated approach, the City, County and MPO were able to ensure the model data used in creating the LRTP is consistent with anticipated future buildouts within Sumter County.

Table 2 projects the 2035 population within the Joint Planning Area inclusive of the City limits. Subtracting the projected City population (60,186) from the total population within the JPA (74,738) results in a net population of 14,552 people in 2035. This population figure was the basis for allocating residential land uses within the JPA boundary.

To account for the existing population within the JPA, but outside the City limits, address points were gathered through the Sumter County GIS database. As illustrated on **Table 3**, there are 3,295 dwelling units, or 7,217 people residing currently within the Joint Planning Area.

Notes:

Address points gathered through Sumter County GIS database

Residential Unit Demand

Table 4 calculates the residential unit demand based on the 2035 net population after deducting the existing population. As a result, an additional 3,433 residential units are needed to support the additional population after accounting for the City’s persons per household (pph) of 2.5 and the County’s seasonal vacancy rate of 17%.

Table 4: Residential Unit Demand

2035 Projected Population (Net Population)	14,552
Existing Population	<u>7,217</u>
Remaining Population to be Allocated	7,335
Units (2.5 pph)	2,934
Applied Seasonal Vacancy Rate (17%)	<u>499</u>
Additional Units Needed to Support Population Growth	3,433

III. Land Uses within the Joint Planning Area

Land uses to accommodate the 3,433 residential units needed to support the projected population where strategically placed within the JPA as shown on **Map 1-12**. The land use allocation was based a number of criteria. The first and foremost criterion was that the development placed within each Traffic Analysis Zone (TAZ) was consistent with the model data utilized during the Lake-Sumter MPO 2035 LRTP. Other criteria included:

- Infill areas and transitioning densities;
- Potential commercial nodes; and
- Proximity to Mixed Use Centers established in the City’s Comprehensive Plan

While there are areas within the JPA that have not been designated for urban uses that are suitable for such uses, prioritization had to occur to ensure an over allocation of population did not occur. Population that has been allocated in terms of increased residential densities within the JPA has been concentrated predominately in the following geographic areas:

- CR 462: The area between The Villages and the City Limits
- CR 156: The area between the Turnpike and SR 44
- CR 472: The area north of CR 472 and east of US 301
- US 301/CR 209: Sporadic infill west of US 301 and predominately east of CR 209/CR 213

The lowest residential density currently offered in the City is 4 units per acre (Low Density Residential). To allow for transitioning densities on the fringe of the JPA, new Future Land Use Map designations of Rural Residential (1 unit per acre) and Estate Residential (2 units per acre) will be created. There are also a number of existing residential neighborhoods within Sumter County in which the actual density of the neighborhood is inconsistent with the County’s Future Land Use Map. Many of these neighborhoods are platted in as little as quarter-acre lots, but are designated as Agriculture on the future land use map. The JPA rectifies this situation by assigning the appropriate densities to those neighborhoods.

Lands have been designated for commercial use at the intersection of CR 470 and CR 501, along CR 468, on CR 472 (near Lakeside Landings and Promise Hospital) and at the intersection of CR 44A and CR 209. The intent was to provide commercial nodes in appropriate areas throughout the JPA that were suitable for such development. Parcels owned by the United States of America (Coleman Federal Prison) have been designated as Public Facilities.

For further information on the designation of specific parcels please see **Appendix A**.

Table 5 illustrates the summary of the potential maximum buildout of the parcels subjected to the JPA amendment.

Table 5: Land Use Breakdown Proposed within the Joint Planning Area

FLUM Designation	Acreage	Density/ Intensity	Commercial/Industrial Square Footage	Residential Units
Oxford Neighborhood Mixed Use	190	.3 FAR and 7/du acre	696,206	559
466/301 Mixed Use District	134	.5 FAR and 12/ du acre	1,019,595	562
Recreation	5	N/A	0	0
Low Density Residential	1,099	4 du/ acre	0	3,055
Low-Medium Residential	260	6 du/ acre	0	979
Medium Density Residential	53	9/ per acre	0	336
Rural Residential	50	1/ du acre	0	35
Estate Residential	421	2/ du acre	0	602
Commercial	550	.5 FAR	8,386,977	0
Industrial	282	.5 FAR	4,303,031	0
Public Facilities	247	N/A	0	0
Total	3,292		14,405,809	6,128

When comparing the amount of residential units needed to accommodate the additional population within the JPA (**Table 4**) to the holding capacity of the JPA future land use map, the resulting allocation ratio equates to 1.8. The allocation of additional residential land uses within the JPA coupled with the existing vacant residential land in the City limits will provide adequate residential lands needed to accommodate the anticipated population growth in both the short and long term planning horizons.

Table 6: Allocation Ratio within the Joint Planning Area

Proposed JPA FLUM Residential Unit Capacity	6,128
Existing JPA FLUM Residential Unit Capacity	2,109
Increase in FLUM Capacity	4,019
Allocation Ratio within the JPA FLUM	1.8

IV. Creation of JPA Land Use Categories

Table 5 identifies three new land use designations that have been created within the JPA: Rural Residential, Estate Residential and the 466/301 Mixed Use District.

Rural Residential and Estate Residential

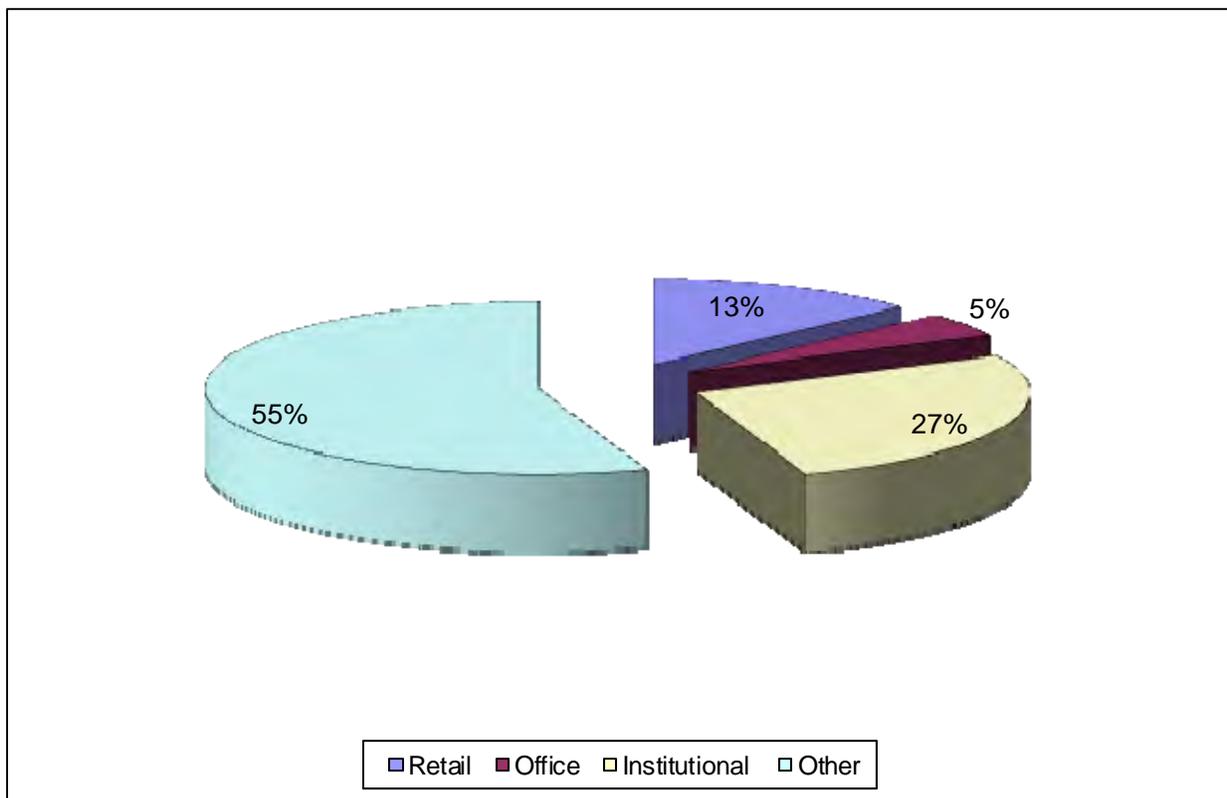

Rural residential (1/du per acre) and Estate Residential (2/du per acre) have been provided in areas that are appropriate for lower density residential developments. The land uses are intended to provide transitional densities.

466/301 Mixed Use District

The CR 466 and US 301 vicinity offered an opportunity to provide for and encourage infill development and redevelopment in and around Oxford and The Villages. Due to the parcelization of many of the properties located within this area, the potential for projects of adequate acreage to support a true mixed use is compromised. Parcelization may also prove problematic for high density residential projects. While the aggregation of parcels will be encouraged, the intent was to analyze the parcels within the area as an aggregated mixed use district. An inventory of the existing built environment for the properties designated as 466/301 Mixed Use on **Map 1-12** was conducted (see **Appendix B**) to determine the current distribution of residential and nonresidential uses.

The current ratio of nonresidential square footage for every dwelling unit equates to approximately 5,300 square feet for every 1 dwelling unit. Warehousing, storage and other similar uses (categorized as “Other” in the chart below) account for over half of the built square footage within the area inventoried. The area also contains a number of churches, accounting for approximately 27% of the square footage. The **Figure 2** was derived from **Appendix B** and is provided to illustrate the current mix of nonresidential uses with the 466/301 mixed use district.

**Figure 2: Current Inventory of the Built Environment
466/301 Mixed Use District**

Commercial retail and office uses within this area are lacking which forces residents to travel to areas such as The Villages to seek goods and services. In conformance with the goals of the comprehensive plan, if additional retail and office uses are located in the immediate area, the need to travel long distances will likely be minimized thereby reducing vehicle miles traveled and energy demands.

The City will monitor and control development approvals through the planned development rezoning process in this area to ensure a targeted mix of 50% nonresidential

and 50% residential is followed. Additionally, a ratio of 1 dwelling unit for every 1,800 square feet of non-residential uses is targeted, with an emphasis on providing retail and office uses. While the aggregation of parcels is encouraged, smaller projects may be permitted to develop. The City’s Land Development Regulations shall list specific controls to ensure the targeted mix within the district is not compromised. For purposes of analyzing the impacts on public facilities in conformance with the City’s Comprehensive Plan and targeted mix, a 50% nonresidential and 50% residential factor was employed with an average of .5 FAR and 12 dwelling units per acre across the district.

V. Land Use Changes within the City Limits

City Boundary Corrections

Through the ISBA/JPA process, the City learned that minor discrepancies existed in the municipal limits. It has come to the City’s attention there were three parcels that had been annexed into the City but were not included within the 2035 Comprehensive Plan. Two of the parcels contain churches (permissible under the County’s regulations), and the other is a 25 acre tract of land along CR 209. In two other instances the City’s GIS database misinterpreted how much of a parcel was actually annexed into the City. These five omissions have been rectified through the JPA amendment process and are summarized on **Table 7**.

Table 7: City Boundary Corrections

Parcel Number	Acreage Difference	FLUM Designation	Issue	Action Taken
D32=047	8.3	Public Facilities	Inadvertently omitted from 2035 Comp Plan	Added to FLUM, Modify City limits accordingly
D32=072	6.5	Public Facilities	Inadvertently omitted from 2035 Comp Plan	Added to FLUM, Modify City limits accordingly
C36=003	25	Low Density Residential	Inadvertently omitted from 2035 Comp Plan	Added to FLUM, Modify City limits accordingly
G33=105	-20	SWNMU	Too much acreage assigned within City limits	Modify FLUM and City limits accordingly
G23=052	-63.8	CMU	Too much acreage assigned within City limits	Modify FLUM and City limits accordingly

Increase in FAR for Commercial and Industrial FLUM Designations

The JPA amendment increases the floor area ratio (FAR) from 0.25 to 0.5 for parcels that are designated as Commercial or Industrial on the Future Land Use Map. The existing 0.25 FAR exhibits an inefficient use of land. Furthermore, the 0.25 FAR is less intense than the

FAR permitted in the County. Establishing a maximum FAR that is less than the County would be contradictory to goals of the ISB and the JPA which is intended to direct growth inside the boundary. **Table 8** shows the potential increase in development as a result of the FAR increase. **Appendix C** provides a parcel by parcel analysis for each parcel subject to the FAR increase.

Table 8: Summary of FAR Increase

FLUM Designation	Acreage	Potential SF @.25 FAR	Potential SF @ .5 FAR	Total Increase in SF
Commercial	885.35	6,749,023	13,498,046	6,749,023
Industrial	1377.7	10,502,207	21,004,414	10,502,207

U-Joint Acquisition Parcels

U-Joint Acquisitions, associated with CSX, owns property located along the CSX railroad that is currently designated as Low Density Residential. Through coordination with CSX, the U-Joint property has been designated as Industrial (**see Table 5**) to take advantage of the railroad for industrial and manufacturing uses in the hopes of spurring economic development. Please see **Appendix A** for a further breakdown of these parcels.

VI. Summary of Total Increased Development Potential

Table 9 summarizes the total maximum development potential as a result of the JPA amendment. **Table 10** has been provided to illustrate the overall change in land uses as result of the JPA amendment. Parcels located within the JPA in unincorporated Sumter County that are not subject to a land use change are intended to maintain their existing County Future Land Use Map designation.

**Table 9: Summary of Total Maximum Development Potential
As a Result of the Joint Planning Area Amendment**

Use	Existing	Total Development Capacity with the JPA	Increase in Development Capacity
Residential (DU)	2,109	6,128	4,017
Commercial (SF)	1,372,659	16,851,801	15,479,142
Industrial (SF)	0	14,805,238	14,805,238

Table 10: Joint Planning Area Land Use Change Matrix

Land Use	Existing (County and City)	Proposed (City) (Table 5)	Change (+/-)
<i>County</i>			
Agriculture	2,245	0	(2,245)
Commercial	64	0	(64)
Low Density Residential	221	0	(221)
Recreation	5	0	(5)
Rural Residential	494	0	(494)
<i>City</i>			
Recreation	7	5	(2)
Public Facilities	0	247	247
Rural Residential	0	50	50
Estate Residential	0	421	421
Low Density Residential	255	1,099	844
Low-Medium Density Residential	0	260	260
Medium Density Residential	0	53	53
466/301 Mixed Use District	0	134	134
Oxford Neighborhood Mixed Use	0	190	190
Industrial	0	282	282
Commercial	0	550	550
Total	3,292	3,292	0

VII. Transportation Facilities

As previously stated, the Joint Planning Area Land Use plan was developed in conjunction with the Lake-Sumter MPO. City and County staff worked together to develop the model data in preparation of the Lake-Sumter MPO's 2035 Long Range Transportation Plan (LRTP). Population and employment figures were assigned to each Traffic Analysis Zone within the County based on the project buildout within Sumter County. The Joint Planning Area mirrors those projections. In essence, the Lake-Sumter MPO's LRTP is the data and analysis for the Joint Planning Area amendment.

The Community Planning Act of 2011 eliminated the mandate for local governments to maintain transportation concurrency. Local governments now have the option of whether or not they choose to implement transportation concurrency. The County has successfully amended their comprehensive plan to eliminate transportation concurrency. Subsequently, the City Commission directed staff to eliminate transportation concurrency as well. On June 11, 2012, the City Commission moved to adopt the comprehensive plan amendments necessary to eliminate concurrency to the Department of Economic Opportunity.

Eliminating the concurrency requirement for transportation facilities (especially within the JPA) is logical. One of the unanticipated consequences of concurrency is urban sprawl. Often times, it was more cost effective for developers to propose projects outside of urban areas of higher roadway capacities, such as rural areas along an arterial roadway. This is contradictory to what the City and County are trying to accomplish with the Joint Planning Area. A primary purpose of the JPA is to encourage development in the appropriate areas of the County. By promoting growth in areas of Sumter County that have the necessary infrastructure to support urban development, such as the City of Wildwood JPA, the County can protect important rural and agricultural areas.

The elimination of concurrency or the existence of the LRPT does not negate the need to continue to monitor traffic conditions within Sumter County. Yearly traffic counts will continue to be collected, and Traffic Impact Studies will still be required within the City. The City, County and Lake-Sumter MPO have agreed to develop a unified methodology for Traffic Impact Studies for development applications within the JPA. The studies will continue to be reviewed and will be utilized in the decision making process for development applications.

VIII. Potable Water and Sanitary Sewer

The City's water and wastewater service area encompasses the incorporated City limits and extends five (5) miles beyond the City limits, as allowed for by Chapter 180, Florida Statutes. The MSA/JPA is located within this geographic area.

In order to project future water and wastewater demands for the JPA (not accounted for by the 2035 comprehensive plan) it is first necessary to project the number of “Equivalent Residential Units” (ERUs) also referred to as “Equivalent Residential Connections” (ERCs). ERUs provide a basis for converting both residential and nonresidential connections to the utility systems to a common factor of system capacity needed to provide service. The comprehensive plan has established a level of service (LOS) standard of 300 gallons per day (GPD) average daily flow (ADF) for water and 250 GPD average daily flows for wastewater for each single family residential (SFR) unit. Nonresidential demands are converted to ERUs using industry standard conversions which determine the capacity required to serve the nonresidential connections in terms of ERUs. **Table 11** converts the anticipated JPA buildout into ERUs.

Table 11 also includes known projects located along the SR 44 West corridor. Representatives from Lee Capital, Sumter LLC, and Monarch Ranch have approached the City regarding potential water and wastewater services. While these projects are outside the JPA and are not going to develop in the foreseeable future, they are located within the City’s water and wastewater service area. As such, the City felt it prudent they be included in the projections. It is worth noting, these projections are based on the total development capacity demonstrated in **Table 10**, not simply the increase in development potential as a result of this amendment.

Table 11: Equivalent Residential Units Projection

Residential - JPA

Total Units	Single Family Units	ERUs	Multi-family Units	ERUs	Total ERUs
6,128	1,838	1,838	4,290	2,145	3,983

Commercial/Industrial - JPA

Square Footage	Employees	SF Unit Conversion	ERUs	Multi-family Unit Conversion	ERUs	Total ERUs
30,284,380	12,114	1,454	1,454	3,392	1,696	3,150

Known Projects - SR 44 West Area

Project	Total ERUs
Monarch Ranch	2,249
Sumter LLC	528
Lee Capital	865
Total	3,642

A summary of the total ERU projections is provided in **Table 12**. As shown, there are 10,775 ERU's projected.

Table 12: Equivalent Residential Units Projection Summary

Residential	3,983
Commercial/Industrial	3,150
Other Commitments	3,642
Total:	10,775

Table 13 provides a linear demand projection of ERUs through the planning timeframe and assumes a total buildout by 2035. While unlikely to develop as rapidly as forecasted under this method, it is important for the City to prepare for the growth in this manner to ensure adequate water and wastewater facilities are planned for and operational when the needed.

Table 13: Equivalent Residential Units Demand Projections

Joint Planning Area

Year	2013	2014	2015	2016	2017	2020	2025	2030	2035	Total Demand

Notes:

Water ERU: 300 gallons per day

Wastewater ERU: 250 gallons per day

The data contained in **Table 13** was utilized in conjunction with existing water and wastewater flow levels, permitted capacity, and the 2035 Comprehensive Plan data to develop **Table 14** which analyzes water and wastewater capacity. The City’s current water demand is approximately 2.34 MGD leaving a current capacity of almost 2 MGD. The City’s current wastewater demand is approximately 1.63 MGD leaving a current capacity of 1.92 MGD. The flow projections generated in **Table 13** were added to the flow projections included in the 2035 Comprehensive Plan to ensure all potential development has been reasonably accounted for.

Table 14: Water and Wastewater Capacity Analysis

Water	Current (MGD)	Projected (MGD)								
	2012	2013	2014	2015	2016	2017	2020	2025	2030	2035

Key:

Champagne Farms WTP (Phase 1) online (3.5 MGD)										
Champagne Farms WTP (Phase 2) online (3.5 MGD)										
DeGroen Plant potential (4.5 MGD need to satisfy demand)										
WWTP Expansion Phase 1 (3 MGD)										
WWTP Expansion Phase 2 (3 MGD)										

Potable Water

The scenario of rapidly increasing water supply demand in the short term of the planning period (as forecasted in the 2035 comprehensive plan) is unlikely due to the slowed recovery from the “Great Recession.” Nonetheless, **Table 14** demonstrates how the City’s plans to meet the potential demand within the JPA in the short and long term planning periods. As shown on **Table 14**, the City’s existing water system is sufficient to

provide service under the proposed scenario through 2014 without the need for capital improvements. However, more accurate projections are prepared by City staff on an annual basis in conjunction with the update to the 5-Year Schedule of Capital Improvements.

Planning is currently underway for the construction of a water treatment plant and transmission system associated with the well located on the Champagne Farms property. The well accesses the lower Floridian aquifer and provides the City with an alternative water supply. The City anticipates meeting long term water supply needs through the expansion of the Champagne Farms well and water treatment plant as demand warrants and may seek another well site on the DeGroen property as a long term solution.

The first phase of the Champagne Farms facility (3.5 MGD) will be sufficient to meet the City's projected water supply well capacity through 2020. The City will need to investigate expansion of their raw water resources and treatment & storage facilities in order to have adequate water for the anticipated development through the current planning horizon of 2035.

Wastewater

As shown in **Table 14**, the City's current wastewater treatment plant's total capacity is sufficient to meet potential demand through 2016. The update to the Master Plan investigated the feasibility if expanding the current facility in a phased approach could accommodate future demands. The results indicate the City can provide wastewater service for 2035 demands through expansion of the existing facility in the center of town rather than the previous plan of constructing a new facility on the Landstone Communities property. One centralized wastewater treatment plant facility has less operation and maintenance costs than two facilities thereby making this scenario economically beneficial to City residents.

The first expansion of 3 MGD will be needed around 2016, yielding a total wastewater treatment capacity of 6.55 MGD that will not be exceeded until after 2024. The facility will need to be designed so that it can accommodate an additional 3.0 MGD expansion. The expansions of this facility will be sufficient to meet demands through the long term planning timeframe.

IX. Public Schools

Over the last several years, the Sumter County School Board has witnessed stagnant growth of student population, due largely in part to the rapid growth of The Villages retirement community. No new school capacity projects have occurred during the timeframe of the approval of the City's comprehensive plan and the preparation of this report. The City expects the student demand to begin to increase over the next few years as The Villages approaches buildout and growth expands into the City with the proposed large developments of the Landstone, Wildwood Springs, and Southern Oaks Developments of Regional Impact. As the student population increases, coordination with the School Board and the City will be critical to ensure adequate school facilities.

All local governments are required to coordinate land planning efforts within their comprehensive plans with the school planning efforts of local school districts. The City's Comprehensive Plan contains a Public Schools Facility Element (originally adopted in 2008) and Intergovernmental Coordination Element that facilitates coordination of public school issues.

In addition, the City has an adopted Interlocal Agreement with the Sumter School Board that further specifies procedures for coordination. Proposed comprehensive plan amendments, rezonings, and development projects are provided to the School Board for their review and comment. The Agreement provides mechanisms for the City and the School Board to monitor and meet the existing and future needs of the County's public school system.

ORDINANCE NO. O2009-10

AN ORDINANCE OF THE CITY OF WILDWOOD; ADOPTING THE JOINT PLANNING AGREEMENT BETWEEN THE CITY OF WILDWOOD AND SUMTER COUNTY; PROVIDING FOR CONFLICT; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and,

WHEREAS, the County possesses Home Rule powers pursuant to Article VIII, Section 1(g), Florida Constitution and Section 125.01, Florida Statutes; and,

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as annexation and joint planning; and,

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources in advance of annexation; and,

WHEREAS, the Local Government Comprehensive Planning and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes, requires that counties and cities include in their respective planning efforts intergovernmental coordination and particularly, mechanisms for identifying and implementing joint planning areas; and,

WHEREAS, the State Comprehensive Plan requires local governments to direct development to those areas which have in place the land and water resources, fiscal abilities and service capacities to accommodate growth in an environmentally acceptable manner; and,

WHEREAS, the State Comprehensive Plan requires local governments to protect the substantial investment in public facilities that already exist and to plan for and finance new facilities in a timely, orderly, and efficient manner; and,

WHEREAS, the City and the County wish to identify lands that are logical candidates for future annexations, the appropriate land uses and infrastructure needs and provider for such lands, and ensure protection of natural resources; and,

WHEREAS, the extension of the City and County facilities and services are most efficiently provided if the process and timing of long range planning, annexation, and development review processes for the City and County are clearly identified and part of a coordinated countywide planning in advance of the City and County capital planning, commitment, and expenditure; and,

WHEREAS, the City Commission and County Commission, after due consideration and deliberation, has determined that the lands included in the Municipal Service Area (MSA) described herein may be necessary to reasonably accommodate urban growth projected in the City, and the City is able to provide the appropriate supporting urban infrastructure during the term of this Agreement; and,

WHEREAS, the City and the County find that the benefits of intergovernmental communications and coordination will accrue to both Parties; and,

WHEREAS, the elected officials of the City and the County have met and negotiated in good faith to resolve issues relating to annexation and joint planning and coordinated provision of public services and infrastructure and wish to memorialize their understanding in this Agreement; and,

WHEREAS, the Agreement adopted pursuant to this ordinance is entered into pursuant to the authority of Article VIII of the Florida Constitution and Chapters, 125, 163, 166 and 171, Florida Statutes (2008); and,

WHEREAS, the City and Sumter County have found a necessity for a Joint Planning Agreement between the City and the County, a copy of the agreement is attached hereto and made a part of this ordinance.

NOW THEREFORE, be it ordained by the City Commission of the City of Wildwood, Florida, as follows:

SECTION 1. The Joint Planning Agreement between the City of Wildwood and Sumter County, attached hereto, is hereby adopted and incorporated herein.

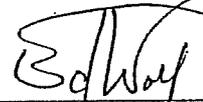

SECTION 2. All ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

SECTION 3. If any section, subsection, sentence, clause, phrase of this ordinance, or any particular application thereof shall be held invalid by any court, administrative agency, or other body with appropriate jurisdiction, the remaining section, subsection, sentences, clauses, or phrases under application shall not be affected thereby.

SECTION 4. This ordinance shall take effect upon final approval by the City Commission of the City of Wildwood and the final approval by the Sumter County Commission of an ordinance adopting the attached Joint Planning Agreement.

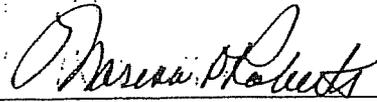

PASSED AND ORDAINED this 13th day of April, 2009, by the City Commission of the City of Wildwood, Florida.

**MASTER INTERLOCAL SERVICE BOUNDARY
AND JOINT PLANNING AGREEMENT
BETWEEN THE CITY OF WILDWOOD AND SUMTER COUNTY**

This Master Interlocal Service Boundary and Joint Planning Agreement (the "Agreement") is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City"), and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses Home Rule powers pursuant to Article VIII, Section 1(g), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as annexation and joint planning; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources in advance of annexation; and

WHEREAS, the Local Government Comprehensive Planning and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes, requires that counties and cities include in their respective planning efforts intergovernmental coordination and particularly, mechanisms for identifying and implementing joint planning areas; and

WHEREAS, the State Comprehensive Plan requires local governments to direct development to those areas which have in place the land and water resources, fiscal abilities and service capacities to accommodate growth in an environmentally acceptable manner; and

WHEREAS, the State Comprehensive Plan requires local governments to protect the substantial investment in public facilities that already exist and to plan for and finance new facilities in a timely, orderly, and efficient manner; and

WHEREAS, the City and the County wish to identify lands that are logical candidates for future annexations, the appropriate land uses and infrastructure needs and provider for such lands, and ensure protection of natural resources; and

WHEREAS, the extension of the City and County facilities and services are most efficiently provided if the process and timing of long range planning, annexation, and development review processes for the City and County are clearly identified and part of a

coordinated countywide planning in advance of the City and County commitment, and expenditure; and

WHEREAS, the agreement of the County to waive its rights to contest future annexations within a defined geographic area, pursuant to the conditions provided herein, and refrain from proposing or promoting any Charter form of governance, pursuant to Chapter 125.60, Florida Statutes, that negates the terms and conditions of this Agreement are a material inducement to the City to enter into this Agreement; and

WHEREAS, the agreement of the City to undertake annexation, joint planning efforts, and coordination of public services and infrastructure in a manner that is part of a countywide planning effort are a material inducement to the County to enter into this Agreement; and

WHEREAS, the City Commission and County Commission, after due consideration and deliberation, has determined that the lands included in the Municipal Service Area (MSA) described herein may be necessary to reasonably accommodate urban growth projected in the City, and the City is able to provide the appropriate supporting urban infrastructure during the term of this Agreement; and

WHEREAS, the City and the County find that the benefits of intergovernmental communications and coordination will accrue to both Parties; and

WHEREAS, the elected officials of the City and the County have met and negotiated in good faith to resolve issues relating to annexation and joint planning and coordinated provision of public services and infrastructure and wish to memorialize their understanding in this Agreement; and

WHEREAS, this Agreement is entered into pursuant to the authority of Article VIII of the Florida Constitution and Chapters, 125, 163, 166 and 171, Florida Statutes (2008).

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree as follows:

1. Incorporation of Preamble. The Preamble above is true and correct and incorporated into this Agreement as if fully set forth herein.
2. Incorporation of Sub-Agreements. The following sub-agreements, attached hereto, are fully incorporated as if fully set forth herein and address the issues within the City's initiating resolution and the County's responding resolution:
 - a. Planning Services
 - b. Water and Sewer Services
 - c. Roads
 - d. Building Services
 - e. Parks and Recreation Services
 - f. Fire Services

- g. Library Services
- h. Workforce Housing Services
- i. Solid Waste Services
- j. Stormwater Services
- k. Geographic Information Systems
- l. Law Enforcement
- m. Mosquito Control
- n. Animal Control

3. Uniformity of Master and Sub-Agreements. The County is negotiating similar Agreements and Sub-Agreements with other cities in the county. The County shall assure, to the greatest extent feasible, that benefits and responsibilities within the Agreements and Sub-Agreements related to consolidated, county managed local government services which were formerly managed by the cities prior to execution of the agreements shall be equal between each city. If the County grants a greater benefit to any other city, the City shall be given an opportunity to obtain an equivalent benefit. The County shall not deny the City such equivalent benefit unless it would be unreasonable to grant said benefit.
4. Term of Agreement. This Agreement and all attached subagreements shall take effect upon final adoption of the ordinances adopting this agreement enacted by the County and the City. The effective date shall be the date of final adoption by the City or County, whichever is later. The initial term of the Agreement and all subagreements shall be twenty(20) years from the effective date of the Agreement.
5. Renewal of Agreement. Pursuant to Chapter 171.203(12), Florida Statutes, the City and County shall initiate negotiations for the renewal and extension of this Agreement beyond the 20 year term no later than 18 months prior to the termination of the 20 year term.
6. Termination of Agreement.
- a. Except as otherwise provided herein, the County or City may terminate this Agreement at anytime upon delivery of a notice of termination to the other Party at least 180 days prior to the proposed date of termination. A Party delivering such a notice of termination as aforesaid may, in such Party's sole discretion, revoke such notice of termination at any time prior to the termination date.
 - b. In spite of the parties' ability to terminate this agreement at any time without cause with 180 days notice, neither the County nor the City may terminate this Master Agreement and the Planning Services subagreement until after the City and County have amended their comprehensive plans as required in the Planning Services subagreement, the Department of Community Affairs has approved the respective amendments of the County and the City and the amendments are final. After these events have occurred, either the County or City may exercise their termination rights as indicated in subsection 6.a., if they wish to do so.

c. Neither the City nor the County may terminate this Master Agreement and the Park Services subagreement until any title issues as defined by the Park Services subagreement related to the Lake Deaton Park, Oxford Community Center, and the Oxford Park are resolved and the title to these parks have been transferred to the City. After these events have occurred, either the County or the City may exercise their termination rights as indicated in subsection 6.a., if they wish to do so.

d. Either the City or the County may terminate the subagreements other than the Park Services and Planning subagreements as provided herein even if the Park Services and/or Planning Services and Master Agreement remain in effect.

7. Dispute Resolution. The County and City agree to resolve any dispute related to the interpretation or performance of this Agreement in the manner described in this section. Either Party may initiate the dispute resolution process by providing written notice to the other Party. Initiation of the dispute resolution process shall operate as a stay of the action which is the subject of the dispute.

- a. Notwithstanding the foregoing, in the event that either Party determines in its sole discretion and good faith that it is necessary to file a lawsuit or other formal challenge in order to meet a jurisdictional time deadline, to obtain a temporary injunction, or otherwise to preserve a legal or equitable right related to this Agreement, such lawsuit or challenge may be filed, but upon the filing and any other act necessary to preserve the legal or equitable right or to obtain the temporary injunction, the Parties shall thereafter promptly file a joint motion with the reviewing court or administrative law judge requesting that the case be abated in order to afford the Parties an opportunity to pursue the dispute resolution procedures set forth herein. If the abatement is granted, the Parties shall revert to and pursue the dispute resolution procedures set forth herein.
- b. Within ten (10) days of the abatement order, the allegedly aggrieved party shall then effect the transmittal of a notice of conflict, in the form of a certified letter, to all governmental bodies involved in the dispute at issue. Upon receipt of the notice, which shall specify the areas of disagreement, the Parties agree to conduct a conflict assessment meeting at a reasonable time and place, as mutually agreed upon, within thirty (30) days of receipt of the notice of conflict.
- c. If discussions between the Parties at the conflict resolution meeting fail to resolve the dispute, within forty (40) days of the receipt of the notice described in subparagraph a, above, the Parties shall conduct mediation in the presence of a neutral third party mediator. If the Parties are unable to agree upon a mediator, the County shall request appointment of a mediator by the Chief Judge of the Circuit Court in and for Sumter County, Florida. The mediation contemplated by this Section is intended to be an informal and non-adversarial process with the objective of helping the Parties reach a mutually acceptable and voluntary agreement. The decision-making shall rest solely with the Parties. The mediator shall assist the Parties in identifying issues, fostering joint problem-solving and exploring settlement alternatives.

- d. If the Parties are unable to reach a mediated settlement, within fifty (50) days of the receipt of the initial notice of conflict, the parties shall hold a joint intergovernmental meeting. If the joint intergovernmental meeting does not successfully resolve the issues identified in the notice of conflict, the entities participating in the dispute resolution procedures described herein may avail themselves of any otherwise available rights, including the suspension of abatement of existing actions.
- e. The Parties agree that this dispute resolution procedure satisfies the requirements of Chapter 164, Florida Statutes.

8. Duplication of Services. The Parties hereto agree that if any Party undertakes any action which will result in overlapping, competition, or duplication in the current service delivery arrangements or in the future service delivery strategy described in this Agreement, that Party shall notify the other Parties to this Agreement, in accordance with Florida law. Further, the transfers of any lands, transportation facilities (including roadways), parks, or any other public facilities under the terms of this Agreement shall not be reversed if this Agreement is terminated, except through a separate writing approved by both parties.

9. Noticing. All notices, consents, approvals, waivers, and elections that any Party requests or gives under this Agreement will be in writing and shall be given only by hand delivery for which a receipt is obtained, or certified mail, prepaid with confirmation of delivery requested. Notices will be delivered or mailed to the addresses set forth below or as either Party may otherwise designate in writing.

If to the County:

Sumter County
 Attn: County Administrator
 910 N. Main Street
 Bushnell, FL 33513

If to the City:

City of Wildwood
 Attn: City Manager
 100 N. Main Street
 Wildwood, FL 34785

Notices, consents, approvals, waivers, and elections will be deemed given when received by they Party for whom intended.

10. Sole Benefit. This Agreement is solely for the benefit of the County and City, and no right or cause of action shall accrue upon or by reason hereof, to or for the benefit of any third party. Nothing in this Agreement, either expressed or implied, is intended or shall be construed to confer upon or give any person, corporation or governmental entity other than the Parties any right, remedy or claim under or by reason of this Agreement or any provisions or conditions hereof, and all of the provisions, representations, covenants, and conditions herein contained shall inure to the sole benefit of and shall be binding upon the Parties and their respective representatives, successors and assigns.

11. Authority. The County and City each represent and warrant to the other its respective authority to enter into this Agreement, acknowledge the validity and enforceability of this Agreement. The County and City hereby represents, warrants and covenants this Agreement constitutes a legal, valid and binding contract enforceable by the Parties in accordance with its terms, and that the enforceability hereof is not subject to any impairment by the applicability of any public policy or police powers.
12. Enforcement. This Agreement shall be enforceable by the Parties hereto by whatever remedies are available in law or equity, including but not limited to injunctive relief and specific performance.
13. Defense. If this Agreement or any portion hereof is challenged by any judicial, administrative, or appellate proceeding (each Party hereby covenanting with the other Party not to initiate or acquiesce to such challenge or not to appeal any decision invalidating any portion of this Agreement), the Parties collectively and individually agree, at their individual sole cost and expense, to defend in good faith its validity through to a final judicial determination, unless both Parties mutually agree in writing not to defend such challenge or not to appeal any decision invalidating any portion of this Agreement.
14. Periodic Review. Each month, during the term of this Agreement, the City Manager or City's designee and County Administrator shall meet to discuss and resolve any issues or concerns related to this Agreement.
15. Amendments. Amendments may be proffered by either Party at any time. Proposed amendments shall be in writing and must be approved by a majority of the governing boards of each Party or shall be considered not adopted.
16. Supremacy. The Parties agree and covenant, having given and received valuable consideration for the promises and commitments made herein, it is their desire, intent and firm agreement to be bound by and observe the terms of this Agreement wherever such terms are more stringent than those subsequently enacted by the Legislature. Should the terms of this Agreement conflict with previous agreements between the Parties, the terms of this Agreement shall control.
17. Entire Understanding. Except as otherwise set forth herein, this Agreement embodies and constitutes the entire understanding of the Parties with respect to the subject matters addressed herein, and all prior agreements, understandings, representations and statements, oral or written, are superseded by this Agreement.
18. Governing Law and Venue. The laws of the State of Florida shall govern this Agreement, and venue for any action to enforce the provisions of this Agreement shall only be in the Circuit Court in and for Sumter County, Florida. Federal Jurisdiction and venue, if applicable shall only be in the Middle District of Florida, Tampa Division. If circumstances arise which cause a conflict between this paragraph and paragraph 7 ("Dispute Resolution") paragraph 7 shall control.

- 19. Severability. Any term or provision of this Agreement that is invalid or unenforceable in any situation in any jurisdiction shall not affect the validity or enforceability of the remaining terms and provision hereof or the validity or enforceability of the offending term or provision in any other situation or in any other jurisdiction.
- 20. Compliance with Chapter 171, Part II, Florida Statutes. The Parties agree that this Agreement meets the requirements of Chapter 171, Part II, Florida Statutes,
- 21. Amendment of Intergovernmental Coordination Element of Comprehensive Plans. Consistent with Section 171.203(9), Florida Statutes, the Parties, within three (3) months of the effective date of this Agreement, shall amend their respective Intergovernmental Coordination Elements of their adopted Comprehensive Plans to establish consistency and compliance with this Agreement and the subagreements.
- 22. Future Charter Governance. The Parties agree that in the event the County pursues implementation of a Charter form of governance, pursuant to Section 125.60, Florida Statutes, that requires a joint planning agreement or similar agreement as a condition for future annexations or to otherwise provide restrictions or conditions on planning, design or regulatory functions and prerogatives currently within the authority of municipalities located in the County, that this Agreement shall constitute full compliance with such a requirement. The County agrees to provide the City with notice and an opportunity to provide Charter language sufficient to accomplish this purpose. During the term of this Agreement, the County shall not propose or adopt any Charter that negates the terms and conditions of this Agreement.
- 23. Adoption by County. As required by Section 171.203(14), Florida Statutes (2008), meetings of the County after final execution of this agreement and all subagreements by all parties, the County shall adopt this agreement by ordinance pursuant to Section 125.66, Florida Statutes at or before the next regular meeting.
- 24. Adoption by City. As required by Section 171.203(14), Florida Statutes, at or before the next regular meeting of the City after final execution of this agreement and all its subagreements by all parties, the City shall adopt this agreement by ordinance pursuant to Section 166.041, Florida Statutes.

IN WITNESS WHEREOF, each of the undersigned has executed this Agreement on behalf of the respective party set forth below, pursuant to the authority granted to each of the undersigned in the ordinance by which each party approved and adopted this Agreement.

Planning Services Service Delivery Sub-Agreement

This Planning Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and,

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and,

WHEREAS, The County and City each provide planning, zoning, and development review services within their respective jurisdictions. This independent approach to planning, zoning, and development review services often leads to inefficient and uncoordinated development. Currently, coordination of planning, zoning, and development review issues occur in an informal manner; and,

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as joint planning; and,

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and,

WHEREAS, Section 171.203(6), Florida Statutes (2008), allows an interlocal service boundary agreement to establish a process for land use decisions consistent with part II of Chapter 163, including those which may allow a municipality to adopt land use changes consistent with part II of Chapter 163 for areas that are scheduled to be annexed within the term of the interlocal agreement; and,

WHEREAS, Section 171.203, Florida Statutes (2008), provides that each local government that is a party to the interlocal service boundary agreement shall amend the intergovernmental coordination element of its comprehensive plan no later than six (6) months following entry of the interlocal service boundary agreement; and,

WHEREAS, Section 171.203, Florida Statutes (2008), provides that a municipality that is a party to an interlocal service boundary agreement that identifies an unincorporated area for

municipal annexation must adopt a municipal service area as an amendment to its Comprehensive Plan to address possible future annexations; and, Page 140 of 212

WHEREAS, the Local Government Comprehensive Planning and Land Development Regulation Act, Chapter 163, Part II, Florida Statutes, requires that counties and City include in their respective planning efforts intergovernmental coordination and particularly, mechanisms for identifying and implementing joint planning areas; and,

WHEREAS, Section 163.3171 Florida Statutes (2008), provides for joint planning agreements for the joint exercise of the planning authority of the County and the City within incorporated and unincorporated areas; and,

WHEREAS, Section 171.204, Florida Statutes (2008), allows a municipality to pursue annexation of land which is not contiguous to the municipality, creates an enclave or is not reasonably compact when a county and municipality enter into a joint planning agreement under Section 163.3171; and,

WHEREAS, the State Comprehensive Plan requires local governments to direct development to those areas which have in place the land and water resources, fiscal abilities and service capacity to accommodate growth in an environmentally acceptable manner; and,

WHEREAS, the State Comprehensive Plan requires local governments to protect the substantial investment in public facilities that already exist and to plan for and finance new facilities in a timely, orderly, and efficient manner; and,

WHEREAS, the City and the County wish to identify lands that are logical candidates for urbanized development, the appropriate land uses and infrastructure needs and provider for such lands, ensure protection of natural resources, and to establish coordinated countywide planning efforts; and,

WHEREAS, the extension of the City and County facilities and services are most efficiently provided if the process and timing of long range planning and development review processes for the City and County are clearly identified and part of a unified countywide planning organization in advance of the City and County capital planning, commitment, and expenditure; and,

WHEREAS, the City of Wildwood is currently in the process of a major amendment to its comprehensive plan which includes major changes to its future land use maps which may affect the future land uses to be included in the joint planning agreement.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree to enter into this joint planning agreement pursuant to Sections 163.3171 and 171.204, Florida Statutes, and that a coordinated approach to planning, zoning, and development review will result in development patterns that protect and promote the health and welfare of all of the citizens of Sumter County. Therefore, the County and City agree as follows:

1. Planning Service Delivery.

- a. The City shall serve as the single point of service for planning, zoning, and development review issues including, but not limited to preparation and adoption of comprehensive plan amendments, amending land development regulations and issuing development orders, within the incorporated boundaries of the municipality; and
- b. The County shall serve as the single point of service for planning, zoning, and development review issues including, but not limited to, preparation and adoption of comprehensive plan amendments, amending land development regulations and issuing development orders, within the unincorporated areas and within other cities that agree to consolidate.

2. Municipal Service Area.

- a. The Municipal Service Area (MSA) is defined as the area outside of the City's boundary that constitutes a logical area for urbanized development and serves as the Joint Planning Area (JPA), as more specifically defined in Sections 171.202(11) and 163.3171, Florida Statutes (2008).
- b. At the time of execution of this agreement, the current boundary of the MSA is reflected on Map "1" attached hereto and incorporated herein.
- c. The City shall demonstrate that public services are readily available or planned to be provided within a reasonable timeframe within the current boundaries of the MSA.
- d. Before any amendments to increase the size of the MSA, the City shall demonstrate that public services are readily available or plan to be provided within a reasonable timeframe for the proposed area.
- e. Consistent with Section 171.203(11) and Section 163.3171, Florida Statutes (2008), the County and City shall, prior to implementation of any of the benefits for annexations provided for within Section 171, Part II, Florida Statutes, and implementation of the Joint Planning Area and its benefits provided for within Chapter 163, Part II, Florida Statutes, within the MSA boundary as identified on Map "1" attached hereto and incorporated herein, seek amendment of their respective comprehensive plans as follows, subject to the statutory review authority of the Florida Department of Community Affairs:
 - i. Within 3 months after finalization (including final approval by the Department of Community Affairs) of the City's 2009 Comprehensive Plan Amendment currently pending before the Department of Community Affairs, Case Number (City of Wildwood 09-1), the City and the County shall amend their respective comprehensive plans:

MSA and Joint
Page 142 of 212

A. To incorporate the boundaries of the MSA and Joint Planning Area (JPA) as reflected in the attached Map "1" and the anticipated future land uses of the MSA/JPA as reflected in the attached Map "2" into the Future Land Use Maps of their respective Comprehensive Plans. These amendments will be transmitted to the Department of Community Affairs within 12 months of the date of execution of this agreement; and,

B. Amend the intergovernmental coordination element of the City and County Comprehensive Plans as described in Section 163.3177(6)(h)1., Florida Statutes (2008) as follows:

I. To allow for annexations of any areas within the MSA that would not otherwise be possible under Chapter 171, Florida Statutes, because they would create pockets, create enclaves, or would be noncontiguous and to require procedures for such annexations be implemented in the City and County Land Development Regulations, subject to the approval of the Department of Community Affairs of the required amendments to the City and County's Future Land Use Maps, which will be transmitted to the Department of Community Affairs within 12 months of the execution of this agreement.;

II. To require that the City and County implement a process for land use decisions within the MSA consistent with this agreement and Part II of Section 163; and,

III. To require that the City and County implement the procedures consistent with this agreement for preparing and adopting comprehensive plan amendments, administering land development regulations and issuing development orders within the MSA.

ii. The County and City shall also adopt this agreement into their comprehensive plans after finalization of the current City comprehensive plan if it is determined by the City and/or the Department of Community Affairs that it is necessary to do so to allow the City to annex within the MSA in situations where the proposed annexation is not contiguous to the City, creates an enclave or creates a pocket.

iii. Within 3 months of the effective date of this agreement, the City and County shall amend their respective intergovernmental coordination agreements to provide that they will work together and abide by an interlocal service boundary and joint planning agreement.

f. The City and County further agree that if approval of the Comprehensive Plan amendments by the Florida Department of Community Affairs exceeds any applicable time frames required by this Agreement or Statute for such approval, that this Agreement will remain in full force and effect and the Parties will continue to work together to seek approval of the required amendments and neither party shall have the right to terminate it as indicated in paragraph 6.a., of

the Master Agreement at least until the objectives provided for in this subagreement have been met and the City and County have amended the intergovernmental coordination elements of their respective comprehensive plans so that the requirements of this subagreement have been adopted into their respective comprehensive plans and their future land use maps have been amended to include boundaries of the MSA as it appears on Map "1" and the anticipated future land uses as reflected on Map "2"; their respective comprehensive plan amendments have been approved by the Department of Community Affairs; and the comprehensive plan amendments have been finalized. Nothing herein shall be deemed to indicate that the parties should terminate this agreement after these objectives have been met, but neither party may terminate this agreement as provided for in the Master Agreement in paragraph 6.a., until these objectives have been met.

3. Termination of this Agreement. This Agreement may not be terminated pursuant paragraph 6 of the Master Interlocal Service Boundary and Joint Planning Agreement until the following has occurred:

- a. The City and County comprehensive plans adopting the MSA as depicted in Maps "1" and "2" have been approved by the Department of Community Affairs;
- b. The other Comprehensive Plan Amendments required by this planning agreement have been approved by the Department of Community Affairs; and,
- c. All of the comprehensive plan amendments required by this Agreement have been finalized.

4. Global Changes to MSA Boundary. A "Global Change" shall be understood herein to mean any change to the MSA boundary as it is defined upon the effective date of this Agreement. Amendments to the MSA boundary shall be by amendment to the Comprehensive Plans of the County and City, and shall, not be effective unless jointly approved by both the County and City or determined through dispute resolution.

5. Future Land Use Pattern. The City and County agree to the generalized future land use pattern for the MSA shown on Map 2. The City and County shall amend their respective Comprehensive Plan's future land use maps to reflect the agreed future land use pattern. The Parties will cooperate with each other in the Comprehensive Plan amendment process. If the Florida Department of Community Affairs fails to approve the amendments, this Agreement will remain in full force and effect and the Parties will continue to work together to determine the proper future land uses and obtain approval by the Florida Department of Community Affairs or the Department of Community Affairs's successor entity.

6. Annexation within the MSA.

a. Following approval from the Department of Community Affairs of the required comprehensive plan amendments to implement the MSA/JPA within the City's and County's Future Land Use Maps, the City may annex any property within the MSA including property that is not contiguous, that creates enclaves, or that creates pockets, if the property proposed for annexation meets the following criteria:

i. It is consistent with the prerequisites to annexation and consent requirements for annexation in Section 171.204 and Section 171.205, Florida Statutes;

ii. Utilities are available or scheduled to be provided to the property within five (5) years;

iii. A road directly impacted by the annexation, meaning such road directly abuts the property or otherwise provides significant service to the property, meets concurrency or concurrency deficiencies are mitigated through a binding agreement;

iv. All other municipal services are available to the site; and,

v. City has adopted the MSA as part of its Comprehensive Plan, as required by Section 171.203(11), Florida Statutes.

b. Property within the MSA that is contiguous to the City, does not create enclaves and does not create pockets may be annexed into the City without meeting the criteria of subsection 6a as long as the requirements of Part I of Chapter 171, Florida Statutes, have been met.

c. If property within the MSA abuts a segment of a roadway, then at the time of its annexation, the road right of way (including the road and adjacent right of way) of the entire road segment shall be deemed to be annexed simultaneously into the City if the annexation of the property (not including the roads) will result in 51% or more of the road segment as defined in the Roads subagreement to be annexed into the City.

7. Minor Amendments to MSA Boundary. Following approval by the Department of Community Affairs of the comprehensive plan amendments to implement the MSA/JPA within the City's and County's Future Land Use Maps, the MSA may be expanded to include a parcel or parcels of property for annexation following joint approval by the City and County. Approval shall not be unreasonably withheld if the property meets the criteria for annexation within the MSA and there is no increase in density or intensity of development. If there is an impasse, the City and County will resolve through the dispute resolution process. The expanded MSA shall not take effect until the City's and County's Future Land Use Maps are amended and approved by the Department of Community Affairs to reflect the expanded boundary

8. Annexation of Properties Partially in the MSA.

Following approval by the Department of Community Affairs of the comprehensive plan amendments to implement the MSA/JPA within the City's and County's Future Land Use Maps :

a. If at least 50% of the area of the property proposed to be annexed is within the MSA, then the property shall be treated as if it were all within the MSA for purposes of this Agreement;

b. If less than 50% of the area of the property proposed to be annexed is within the MSA, then it shall be treated as outside the MSA for purposes of this Agreement;

c. The above provisions shall not be construed so that a property owner could not choose to annex a portion of a property inside the MSA;

9. Review of Applications Received by County. To assure concurrency and coordination of plans for City and County development:

a. County staff shall, within five (5) working days of receipt of development or land use related applications, inform City staff of all applications which may affect development within the MSA. The "development or land use related applications" or "applications", as described above, for purposes of this Agreement shall include amendments to the future land use map and amendments to the text of the comprehensive plan, rezonings, planned unit developments, commercial site plans and subdivisions of land which would create five (5) or more lots;

b. City staff will receive copies of the development or land use related applications, staff reports and minutes or records approving any such change or amendment, including notice of final approval of same;

c. The County will include the City as part of the County's Development Review Committee (DRC) for projects within the MSA and will afford an opportunity to the City to participate as an advisory non-voting member at the DRC meetings;

d. The City will provide the County its comments on proposed development and land use related applications at least one (1) business day before the DRC meeting or within ten (10) working days of receipt of a copy of applications for rezonings and comprehensive plan amendments; and

e. These comments will be presented to the County's Zoning and Adjustment Board and Board of County Commissioners by County staff.

10. Review of Development and Land Use Related Applications Received by City. To assure concurrency and coordination of plans for City and County development:

a. City staff shall, within five (5) working days of receipt, inform County staff of all applications which may affect development within municipal boundaries (annexed areas) of the MSA ;

b. County staff will receive copies of the applications, staff reports and minutes or records approving any such change or amendment, including notice of final approval of same;

c. The City will include the County as part of the City's staff review process for projects within the municipal boundaries of the MSA and will afford an opportunity

to the County to participate as an advisory non-voting member at the staff review meetings; 1-b
Page 146 of 212

d. The County will provide the City its comments on proposed development applications at least one (1) business day before the staff review meeting or within ten (10) working days of receipt of a copy of applications for rezonings and comprehensive plan amendments; and

e. These comments will be presented to the City's respective Planning Board and City Commission by City staff.

11. Commercial Design Standards. Within the MSA, the County will adhere to the City's Commercial Design Standards along the following roadways: US 301, C-466, SR 44 and any other road which is designated as regionally significant or emerging regionally significant as defined in the Roads Service Delivery Subagreement. The City shall provide design standard review at no charge to the County.

End of Planning Service Sub-Agreement

Water and Sewer Services Delivery Sub-Agreement

This Water and Sewer Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County does not provide any water or sewer services and does intend to provide these services except for specific situations described within this Agreement, and the City provides water and sewer services within the city and in surrounding unincorporated areas; and

WHEREAS, the County and City recognize the most efficient approach to provide water and sewer services is a coordinated and unified approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as water and sewer services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as water and sewer services.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to water and sewer services results in a more efficient and effective method of service and promotes the health and welfare for all of the citizens of Sumter County. Therefore, the County and City agree a need exists to implement said service delivery arrangements in the following manner:

1. Municipal Service Area (MSA) and Utility Service Area (USA).
 - a. The Municipal Service Area (MSA) is the area designated and defined within the Planning Services Sub-Agreement.
 - b. The Utility Service Area (USA) is the area within which the City provides water,

wastewater, and reclaimed water services, consistent with Chapter 180, Florida Statutes. 148
Page 148 of 212

- c. The County will facilitate discussion with each city in Sumter County to create a USA for each city. The USA will be established pursuant to and comply with the requirements of Chapter 180, Florida Statutes.
- d. The City's USA shall include all areas in the USA it has currently approved and established through Chapter 180, Florida Statutes, and any area approved by the County and City pursuant to this Agreement.
- e. The City's USA is reflected on the attached Map "3".

2. Right of First Refusal.

- a. The County shall require new development within the USA, which requires central water and/or sewer services, to connect, if available, to the City's water and/or sewer system.
- b. Within its respective USA, each city has first right of refusal to provide water, wastewater, and reclaimed water services to a project.
- c. If the city in whose USA the project is located cannot serve that project, the adjacent USA nearest to the project has the first right of refusal.
- d. If no city can serve the project, the developer may construct a system approved by the city in whose USA they are located; and if agreed upon by the city and developer, turn the system over to that city.

3. Portion of Property in USA.

- a. If at least 50% of the area of a property or combined contiguous properties under the same ownership or control, is within the USA, then the property shall be treated as if it were all within the USA for purposes of this Agreement.
- b. If less than 50% of the area of a property or combined contiguous properties under the same ownership is within the USA, then it shall be treated as outside of the USA for purposes of this Agreement.

4. Abstention from County Public Water/Wastewater System The County shall abstain from the development and operation of public water and sewer services within the USA except in the following circumstances:

- a. Failure of a private or municipal public water and/or sewer provider or the failure of a homeowner's association to provide for the service to its customers;
- b. Failure of or obsolete private wells or septic tanks in an area that would result in a

significant negative impact to public health or environmental resources; and

- c. The City shall have the right of first refusal to provide the services to the failed water and/or sewer system or areas with failed or obsolete private wells or septic tanks.

5. Fire Hydrants.

- a. The City shall install fire hydrants when constructing new water lines of six (6) inches or more in diameter; and
- b. The fire hydrants shall be spaced in a manner that will reasonably achieve the goals of the County and City. The City shall space the fire hydrants no further than 1,200 feet apart.
- c. The City shall obtain, purchase or otherwise construct or require to be purchased or constructed all fire hydrants within the boundaries of the City or the boundaries of the USA, as well as any hydrant that is pressurized by water provided by City utilities. Sumter County Fire Rescue will perform its own fire flow tests and perform minor hydrant maintenance, limited to oiling, greasing, and painting. Sumter County Fire Rescue will provide proper street marking for the hydrants. The City water department will perform major repairs of the hydrants. The City shall be responsible for any maintenance of hydrants not categorized as "minor" herein.

End of Water and Sewer Service Sub-Agreement

Roads Service Delivery Sub-Agreement

This Roads Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County provides for road construction and maintenance on all roads accepted into its system within unincorporated areas. The County also provides for the construction and maintenance of roads designated as "C" and "CR" roads regardless of its location within the unincorporated areas or within the City; and

WHEREAS, the City provides for road construction and maintenance on roads within its jurisdiction except for those within the County or State of Florida road systems; and

WHEREAS, the City's annexations have or have the potential to significantly increase impacts to County and City roads; and

WHEREAS, the County and City acknowledge that the County's and City's road systems improvements and maintenance can not be adequately funded with the existing funding sources (i.e. gas taxes, impact fees, grants, etc.); and

WHEREAS, the County and City acknowledge increased coordination in road system planning, construction, and maintenance will result in more efficient expenditure of funds and provide enhanced maintenance or capacity level of service for roads within the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as roads; and

WHEREAS, the State Comprehensive Plan requires local governments to protect the substantial investment in public facilities that already exist and to plan for and finance new facilities in a timely, orderly, and efficient manner; and

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated approach to road services will result in better and more efficiently maintained

roads for all of the citizens of Sumter County and a need exists to change said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. Sumter County shall retain all roads currently designated as "Regionally Significant" by the Lake-Sumter Metropolitan Planning Organization (LSMPO) within the Municipal Service Area (MSA) as indicated on Map "4" attached hereto;
- b. Roads designated as "emerging Regionally Significant" by the LSMPO as indicated on the attached Map "4" will be maintained by the County for up to three (3) years after the City annexes 51% of the linear footage of the road in order to allow time for full consideration of the road to transition its classification to a "Regionally Significant" road. If the road is not classified as "Regionally Significant" after this three (3) year period, then the road shall be transferred to the jurisdiction and maintenance responsibility of the City. However, if at any time prior to or after the three (3) year period the road becomes classified as "Regionally Significant" by the LSMPO the County shall maintain, if prior to the three (3) year period, or be transferred, if after the (3) year period, jurisdiction and maintenance responsibility for the road;
 - i. If prior to expiration for the three (3) year period the County shall maintain; or,
 - ii. If after the three (3) year period, jurisdiction and maintenance responsibility for the road shall be transferred;
- c. Roads designated in the future as "emerging Regionally Significant" by the LSMPO will be maintained by the County for up to three (3) years after the City annexes 51% of the linear footage of the road in order to allow time for full consideration of the road to transition its classification to a "Regionally Significant" road. If the road is not classified as "Regionally Significant" after this three (3) year period, then the road shall be transferred to the jurisdiction and maintenance responsibility of the City. However, if at any time prior to or after the three (3) year period the road becomes classified as "Regionally Significant" by the LSMPO the County shall maintain, if prior to the three (3) year period, or be transferred, if after the (3) year period, jurisdiction and maintenance responsibility for the road;
- d. Roads designated "Regionally Significant" shall become the permanent responsibility of the County under the procedures described herein.
- e. Road segment for purposes of this agreement shall mean the portion of a non-regionally significant road between two major intersecting roads. Major intersecting roads shall be those roads as identified on Map "4" and any other road which is not now designated
- f. On October 1 2009, all road segments of all non-"Regionally Significant" County roads within the existing City boundary shall become roads under the City's

jurisdiction, ownership and maintenance responsibility. If at least fifty-one percent (51%) of the linear footage of the on both sides of the road segment of a County non-regionally significant road is within the existing City boundary then the entire road segment shall be considered within the City;

- g. All non-“Regionally Significant” County roads within the MSA shall become roads under the City’s jurisdiction, ownership and maintenance responsibility by segment upon annexation of at least fifty-one percent (51%) of the linear footage on both sides of the road segment;
- h. The 51% is calculated based on the frontage of annexed parcels on each side of the road segment between two major intersecting roads;
- i. Once 51% or more of a segment is annexed, the t entire road segment between the two major intersecting roads will be deemed annexed into the City and under the City’s jurisdiction, and ownership and the City will be fully responsible for all maintenance and other responsibilities of the road;
- j. Any County or City agreements for road improvements with other governmental or private entities existing at the time of the approval of this Agreement shall remain in full force and effect except in the case of a conflict with this Agreement, in which case the terms of this Agreement shall prevail; and,
- k. . The parties recognize that jurisdiction for purposes of all law enforcement issues shall be governed by the law enforcement subagreement. The ownership of the road shall mean that the party owning the road is responsible for maintenance, upgrades, ownership of the right of way and all of the other rights and responsibilities related to the roads other than those which fall within the purview of law enforcement.

2. Level of Service. Within the MSA, the City and County will establish the following Level of Service Standards (LOS):

Interstate, Limited Access Parkways	C
Principal Arterials	D
Minor Arterials	D
Major and Minor Collectors	D
Local Streets	D

If an LOS standard is to be established below what is stated, both City and County must approve the change.

For Strategic Intermodal System (SIS) Facilities and Transportation Regional Incentive Program (TRIP) Funded roadways, the LOS shall be established by the Florida Department of Transportation (FDOT).

3. Planning for Roads.

- a. Once adopted by the Lake-Sumter Metropolitan Planning Organization (LSMPO), the City and County agree to adopt the LSMPO 2035 Long Range Transportation Plan. The County shall assure the City has the opportunity to participate in the development of the LSMPO 2035 Long Range Transportation Plan;
- b. Within the MSA, the County and City will work together on the design of roads;
- c. The City and County agree to create a multi-modal transportation master plan with the LSMPO. This plan will include, but not be limited to, mass transit, pedestrian trails/sidewalks, bicycle trails, etc.;
- d. The City and County agree to maintain a Unified Concurrency Management System (CMS) through the LSMPO. The City and County agree to update the system when applicable including de-minimus trips. The City and County agree to share the cost of this system based upon the most recent University of Florida Bureau of Economic and Business Research (BEBR) population percentages; and
- e. The City and County agree to update the CMS with yearly traffic counts.

4. Review of Development within the MSA.

- a. Within the MSA, the City and County agree to contract with the LSMPO to review all traffic impact studies for development meeting a mutually acceptable threshold; and
- b. Within the MSA, the City and County agree to enter into Proportionate Share Agreements or other similar agreements, for development meeting a mutually acceptable threshold, with the City, County, developer, and other impacted jurisdictions to establish required traffic mitigation and responsibility for mitigation.

5. Funding.

- a. The County may establish a Municipal Services Benefit Unit (MSBU) or a Municipal Services Taxing Unit (MSTU) to fund improvements of County or City roads. If the County wishes to extend the MSTU into the City, it must obtain the agreement of the City Commission. The City may request that the County establish a MSTU in areas of the City and County to provide funding for improvements to interjurisdictional roads. If the City requests the establishment of MSTU, then the City shall fund and complete the necessary studies and analysis to establish MSTU. If a MSTU is pursued by the County, then the County shall fund the costs of the necessary studies and analysis to establish the countywide MSTU. If the County and City jointly pursue a MSTU, then the City shall fund their proportionate share of the costs of the necessary studies and analysis to establish the joint MSTU. The proportionate share shall be based on the percentage of the City's population compared to the total countywide population using the most recent population estimated by BEBR;

- b. The City may establish a special assessment within the City limits to fund improvements of City roads as long as the City meets all of the requirements of Chapter 170, Florida Statutes.
- c. The County shall collect 100% of the applicable County road impact fees within all areas of the City, to mitigate for impacts to County and State roadways;
- d. The County and City acknowledge this Agreement terminates the "Intergovernmental Agreement Between Sumter County and Wildwood, Florida to Provide for the Imposition of District 1 Impact Fees Within the City of Wildwood", dated December 13, 2005;
- e. Within the City limits, the City may also enact additional road impact fees that do not duplicate the County's road impact fee; and,
- f. City and County will work together on funding sources for capital improvements relative to transportation within the MSA.

6. Maintenance.

- a. "Regionally Significant" roads within the MSA: The City and County may enter into maintenance agreements for certain segments of "Regionally Significant" roads within the MSA. The County agrees that the City shall be justly compensated for any and all maintenance subjugated to the City through a maintenance agreement. These maintenance agreements shall include, but not be limited to:
 - i. Any mowing, edging, tree trimming, maintenance of shrubs, flowers, trees, special grasses, ornamentals, or irrigation of rights-of-ways outside the pavement or edge of curb and within medians;
 - ii. Jurisdiction for all stormwater drainage and retention systems associated with the "Regionally Significant" road systems; and
 - iii. The cost of maintenance shall be negotiated between the parties on an annual basis as part of the budgetary process.
- b. The County will be responsible for all stormwater drainage retention systems associated with "Regionally Significant" roads. If the City agrees to mow these areas, the City will be justly compensated; and
- c. All non-"Regionally Significant" whose jurisdiction is transferred to the City under the terms of this agreement shall be maintained by the City unless otherwise agreed to in a separate maintenance agreement.

7. LSMPO Representation. If and/or when Sumter County has two (2) or more voting representatives on the LSMPO Governing Board, then the County shall ask that one of

the voting members be an annually rotating Sumter County municipality. Once a municipality joins the LSMPO Board as an independent voting member, then they will not be eligible to participate on the rotation.

End of Roads Sub-Agreement

Building Permitting and Inspection Service Delivery Sub-Agreement

1. b.
Page 156 of 212

This Building Permitting and Inspection Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, The County and City each provide building permitting and inspection services within their respective jurisdictions; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as building permitting and inspection services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as building permitting and inspections.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a unified approach to building services will result in more efficient use of County and City services in a manner that protects and promotes the health and welfare of all of the citizens of Sumter County and a need exists to change said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. The City shall serve as the single point of service for building, permitting, and inspections within the incorporated boundaries of the municipality;
- b. The County shall serve as the single point of service for building, permitting, and inspections within the unincorporated areas and other cities that agree to consolidate; and,

c. Through mutual agreements, the City and County may grant authorization to each other to perform inspections in their respective jurisdictions in certain situations (i.e. County facilities in City or City facilities in un-incorporated County).

2. Fire Inspections and Plan Review. Consistent with existing interlocal agreement(s), the County, through Sumter County Fire Rescue, shall, pursuant to Section 633.0215, Florida Statutes (2008), and Section 901 of Florida Building Code, utilize the Florida Fire Prevention Code in providing all fire prevention/safety inspections and complete all fire building plans reviews within the City and unincorporated areas.

End of Building Services Sub-Agreement

Parks and Recreation Service Delivery Sub-Agreement

This Parks and Recreation Service Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses a Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County and the City strive to achieve a high level of cooperation and coordination in their provision of recreational facilities and/or programs to the residents of Sumter County; and

WHEREAS, the County and the City share the primary objective to efficiently provide the widest variety of recreational opportunities to any resident of Sumter County who wishes to take advantage of those opportunities; and

WHEREAS, the County and City recognize the most efficient approach to provide parks and recreation services is a coordinated approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as roads; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated approach to parks and recreation services will protect and promote the health and welfare of all of the citizens of Sumter County and agree that a need exists to change said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. The County shall provide regional passive park and recreational facilities and/or programs for all citizens of Sumter County. Regional passive park and recreational facilities and/or programs are parks that are 40 acres or larger and include natural areas, trails, boat launches, picnicking, camping, nature study, and other primary uses and activities that are based on the natural features of the park.
- b. The County shall abstain from the development or funding of active park or recreational facilities and/or programs except those funded via a municipal service benefit unit assessment (MSBU) or municipal service benefit taxing unit (MSTU) or other funding source approved by the voters of Sumter County (i.e. general obligation bonds). Active park and recreational facilities include baseball/softball fields, soccer fields, football fields, basketball courts, and other park or recreational facilities that are developed for primary uses other than open space and related activities based on the natural features of the park.

The City shall take ownership, by quit claim deed, of any County park that does not meet the definition of a regional passive park, as defined above, upon the annexation of a parcel adjacent to the County park. Quit claim deeds to all non-passive parks currently eligible for transfer shall be executed by the County on or about October 1, 2009. The eligible parks which will be transferred to the City are Oxford Park, the Oxford Community Center and Lake Deaton Park as described on Exhibit A, attached hereto and incorporated as if fully stated herein.

2. Funding.

- a. The City shall maintain the ability to implement fee rates for park and recreation facilities and programs that differentiate between residents and non-residents of the City.
- b. The City shall maintain sole authority and funding responsibility of all parks and recreational facilities within its City limits or transferred to City's ownership under this agreement.
- c. The County shall not provide funding to the City for parks and recreational facilities and programs in the City unless the funding is provided through a MSBU or MSTU or other dedicated funding source approved by the voters of Sumter County (i.e. general obligation bonds).
- d. The City may request the County to establish a MSBU or MSTU for parks and recreation. If the City requests the establishment of a MSBU or MSTU, then the City shall fund and complete the necessary studies and analysis to establish the MSBU and MSTU.
- e. If a countywide MSBU or MSTU is pursued by the County, then the City shall fund their proportionate share of the costs of the necessary studies and analysis to

1. b.
Page 100 of 212
establish the countywide MSBU and MSTU. The proportionate share shall be based on the percentage of the City's population compared to the total countywide population using the most recent population estimated by BEBR.

3. Staff Support

Qualified staff members of the County currently responsible for County park support services for parks to be transferred to the City may, at the sole discretion of the City, be provided the opportunity by the City to become employees of the City upon the transfer of active or passive parks to the City.

End of Parks Services Sub-Agreement

Fire Service Delivery Sub-Agreement

This Fire Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County provides fire prevention and suppression and non-transport emergency medical services in the unincorporated and incorporated areas of the county through the Sumter County Fire District; and

WHEREAS, the County provides funding for fire services through federal and state grants, County General Fund, Sumter County Fire Impact Fees, Sumter County Fire District Municipal Services Benefit Unit Assessment, and Sumter County Fire District Fees; and

WHEREAS, the County and City recognize the most efficient approach to assuring adequate fire protection is a coordinated and unified approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as fire services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as fire services.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to fire services results in a more efficient and effective method of service and promotes the safety and welfare for all of the citizens of Sumter County and agree a need exists to continue said service delivery arrangements in the following manner:

1. b.
Page 162 of 242
1. Service Delivery Agreement. The County shall continue to serve as the single, unified point of service for fire prevention and suppression and non-transport emergency medical service through the Sumter County Fire District.
 2. Fire Inspections and Plan Review. Consistent with existing interlocal agreement(s), the County, through Sumter County Fire Rescue, shall, pursuant to Section 633.0215, Florida Statutes, and Section 901 of Florida Building Code, utilize the Florida Fire Prevention Code in providing all fire prevention/safety inspections and complete all fire building plans reviews within the City and unincorporated areas.

End of Fire Services Sub-Agreement

Libraries Service Delivery Sub-Agreement

This Libraries Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County provides library services in the unincorporated areas of the county and within other cities in the county; and

WHEREAS, the City also provides library services;

WHEREAS, the County and City recognize the most efficient approach to assuring library services is a coordinated and unified approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as library services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as library services.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to library services results in a more efficient and effective method of service and promotes the welfare for all of the citizens of Sumter County and agree a need exists to change said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. On October 1, 2009, the County shall assume library services for the City, and the County shall serve as the single, unified point of service for libraries in unincorporated areas of the county and within the City;

- b. The County shall construct a new library as part of the new County Service Center planned for construction in 2010 at the southeast corner of the intersection of CR 139 and C-466A;
 - c. From October 1, 2009 until the said new library is constructed, the County shall maintain operation of the existing City library facility on Huey Street;
 - d. No later than 90 days prior to October 1, 2009, the City shall provide the County an inventory of all equipment, fixtures, and furniture to be transferred at no cost to the County. The County shall review the inventory and reserves the right to accept or decline any or all of the items on the inventory or request additional items not included in the inventory for transfer; and
 - e. The City shall transfer at no cost to the County all books, periodicals, other media, equipment, fixtures, and furniture necessary to operate the library to the County.
2. Impact Fees.
- a. The City will collect library impact fees until September 30, 2009, at 11:59 p.m., after which the City will no longer collect library impact fees; and
 - b. The City will transfer all library impact fees collected through September 30, 2009, at 11:59 pm. to the County for use in the development of the said new library or other future library construction or enhancements within the City.
3. Level of Service.
- a. The County will continue to have an established goal to attain state level of service standards for library services; and
 - b. Library services shall also mean computer access and shall include copiers, computers, and other multi-media amenities.
4. Friends of the Library. The County will continue to maintain a defined relationship with the City of Wildwood Friends of the Library.
5. Director. The County agrees to hire the City's Library Director (Director) as of October 1, 2009 at the Director's rate of pay as of September 30, 2009.
6. Staff Support. Qualified staff members of the City currently responsible for City library support services may, at the sole discretion of the County, be provided the opportunity by the County to become employees of the consolidated Sumter County Library Service.

End of Library Services Sub-Agreement

Workforce Housing Service Delivery Sub-Agreement

This Workforce Housing Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County is the current sole provider of workforce housing assistance in the county; and

WHEREAS, the County provides funding for workforce housing through grants from the Federal Housing and Urban Development Agency (Section 8 and Community Development Block Grant), Florida Department of Community Affairs, Florida Housing Finance Corporation (State Housing Initiatives Partnerships), and County's General Fund. This funding is applied in both unincorporated and incorporated areas of the county; and

WHEREAS, the County and City recognize the most effective approach to assuring adequate workforce housing opportunities is a coordinated and unified approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such workforce housing services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as workforce housing.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to workforce housing services will result in a more efficient and effective method of service and promote the adequate housing opportunities for all of the citizens of Sumter County and agree a need exists to continue said service delivery arrangements in the following manner:

1. Service Delivery Agreement.
 - a. The County shall serve as the single, unified point of service for workforce housing services in unincorporated areas of the county and within the City.
 - b. The County shall provide the staffing and resources for promoting and facilitating the provision of workforce housing.
 - c. The workforce housing services shall be provided consistent with the County's and City's local ordinances and State and Federal law.
 - d. Funding for the Consolidated County/City Workforce Housing Services shall be generated from state and federal grants and County general fund. This does not preclude the use of other funding sources that may be implemented by the County, City, and state or federal governments for workforce housing in the future.
2. Workforce Housing Definition. The definition of "workforce housing" shall be based on State Housing Initiatives Program (SHIP) income guidelines.
3. Mitigation. The County or City will not unreasonably withhold development approval based on the provision or mitigation of affordable housing by a developer.
4. Strategy. The County and City agree to prepare a unified strategy to promote workforce housing.

End of Workforce Housing Services Sub-Agreement

Solid Waste Collection and Disposal Delivery Sub-Agreement

This Solid Waste Collection and Disposal Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County is required by Florida Statutes to provide a point of collection and disposal of solid waste for all of Sumter County; and

WHEREAS, the County provides a point of collection and disposal for solid waste for the City at the County's existing solid waste facility; and

WHEREAS, the City does not provide any solid waste collection or disposal services; and

WHEREAS, the County and City recognize the most efficient approach to provide solid waste collection and disposal services is a coordinated and unified approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as solid waste collection and disposal services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as solid waste collection and disposal services.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree a coordinated and unified approach to solid waste collection and disposal services result in a more efficient and effective method of service and promotes the health and welfare for all of the citizens of Sumter County and agree a need exists to continue said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. The County shall continue to provide the City a point of collection and disposal at the County's solid waste facility and at any future facilities developed by the County.
- b. The City shall utilize the County's solid waste facility when economically feasible. However, if there is a more economic feasible solid waste service available to the City, the City may choose to use it.

2. Fees. The County shall continue to fund the solid waste collection and disposal services through fees by private collectors, tipping fees by the County, County recyclable revenues, and state grants. This does not preclude other future funding sources that may be implemented by the County or City.

End of Solid Waste Services Sub-Agreement

Stormwater Management Service Delivery Sub-Agreement

This Stormwater Management Service Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County and the City strive to achieve a high level of cooperation and coordination in their management of stormwater for the residents of Sumter County; and

WHEREAS, the County and the City share the primary objective to efficiently provide stormwater management to all residents of Sumter County; and

WHEREAS, as the City continues to grow through annexation and other infill development, the City will trigger the need for compliance with the National Pollutant Discharge Elimination System (NPDES) regulations; and

WHEREAS, the City lacks the expertise or resources to effectively address the NPDES regulations; while the County has the expertise and resources to effectively address the NPDES regulations; and

WHEREAS, the City desires to implement a master stormwater system for the city; and

WHEREAS, the County is currently working with the Southwest Florida Water Management District (SWFWMD) to study drainage basins throughout the county that may assist in the development of a master stormwater system for the City;

WHEREAS, the County and City recognize the most efficient approach to provide stormwater management is a coordinated approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as stormwater management; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida

Statutes, recognizes the use of interlocal service boundary agreements and ^{1. b.} ~~joint planning~~ agreements as a means to coordinate public services such as stormwater management. Page 17 of 22

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to stormwater management results in a more efficient and effective method of service and promotes the health and welfare for all of the citizens of Sumter County and agree a need exists to implement said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. The City and County shall be responsible for their own NPDES compliance.
- b. The County shall require development within unincorporated areas of the defined Municipal Service Area (MSA) to coordinate their stormwater management design and facilities with the City's stormwater master planning efforts.
- c. The County and City shall include stormwater management coordination within the separate Road Service Delivery Sub-Agreement

2. Funding. The City shall be responsible for the capital and maintenance costs related to the infrastructure for compliance with NPDES regulations. However, for infrastructure that provides benefits for property outside of the City limits, the County and City shall prepare a separate funding agreement to share in the cost and maintenance of the mutually benefiting infrastructure.

3. Drainage Basin Studies. The County shall include the City as a participant in the drainage basin studies with the Southwest Florida Water Management District (SWFWMD) for those drainage basins that directly impact the City.

End of Stormwater Services Sub-Agreement

Geographic Information Systems Service Delivery Sub-Agreement

This Geographic Information Systems (GIS) Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County and City separately operate and maintain geographic information systems; and

WHEREAS, the County and City recognize the most effective approach to assuring efficient and effective geographic information system services is a coordinated approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as geographic information systems; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as geographic information systems.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated approach to geographic information systems services will result in a more efficient and effective method of service and promote the efficient and effective use of geographic information system data for all of the citizens of Sumter County and agree a need exists to continue said service delivery arrangements in the following manner:

1. Service Delivery Agreement.

- a. The County shall provide and maintain a GIS base platform, which shall include database and mapping information. The City shall be responsible for any and all manipulation of the Sumter County GIS base platform information for the City's use;

- b. The City shall retain its own GIS personnel/funding; and
 - c. If desired, the City shall be responsible for any/all physical connectivity to the County GIS in a manner acceptable to the County.
2. GIS Data Updates. The City and County shall send GIS data updates to each other, or any other agency requesting the data, on the first of every month or as requested. Updates shall be provided through the posting of the data to the County's ftp site or in another manner (CD-ROMs, email, direct connection, etc.) acceptable to both parties.
3. 911 Addressing. The County shall be responsible for all 911 addressing within the City.

End of GIS Services Sub-Agreement

Law Enforcement Service Delivery Sub-Agreement

This Law Enforcement Services Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses a Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County provides funding for law enforcement services by the Sumter County Sheriff's Office; and

WHEREAS, the City provides funding for law enforcement services for the City Of Wildwood Police Department; and

WHEREAS, the County and City recognize the most efficient approach to providing adequate law enforcement protection is a coordinated approach between the County and the City; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as law enforcement services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to law enforcement services results in a more efficient and effective method of service and promotes the safety and welfare of all of the citizens of Sumter County and agree that a need exists to continue said service delivery arrangements in the following manner:

1. Service Delivery Agreement. The County and City shall continue to utilize the current mutual aid agreement in place with the Sumter County Sheriff's Office. If that agreement should terminate without renewal, the City shall be solely

responsible for law enforcement within the incorporated boundaries of the City

1. b.
Page 174 of 212

2. The incorporated boundaries of the City shall include those areas annexed into the City including those areas annexed pursuant to the Planning Services subagreement and the MSA as defined in the Planning Services subagreement.
3. Within the MSA, all law enforcement jurisdiction shall remain with the County in all areas which have not been annexed into the City.
4. For purposes of law enforcement jurisdiction, a road right of way and road contained in a road segment shall be considered annexed into the City at the time of annexation of at least 51% of the parcels on each side of a road segment between two major intersecting roads as defined in the Road Services subagreement.

End of Law Enforcement Services Sub-Agreement

Mosquito Control Service Delivery Sub-Agreement

This Mosquito Control Service Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County and the City strive to preserve a high quality of life and public health for the residents of Sumter County; and

WHEREAS, mosquito overpopulation is a threat to public health, safety and welfare; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated approach to mosquito control will protect and promote the health and welfare of all of the citizens of Sumter County, and therefore state:

1. Service Delivery Agreement.

Sumter County shall provide mosquito control service to the areas in and abutting the incorporated boundaries of the City. Mosquito control shall be implemented using generally accepted pesticide and prevention practices, consistent with all applicable state and federal regulations and applicable provisions of the Sumter County Code.

Animal Control Service Delivery Sub-Agreement

This Animal Control Service Delivery Sub-Agreement is made and entered into this 14th day of April, 2009, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses a Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County and the City strive to preserve a high quality of life for all residents of Sumter County; and

WHEREAS, untended domesticated pets such as dogs or cats, and untended domesticated livestock such as cattle provide a public safety and health; and

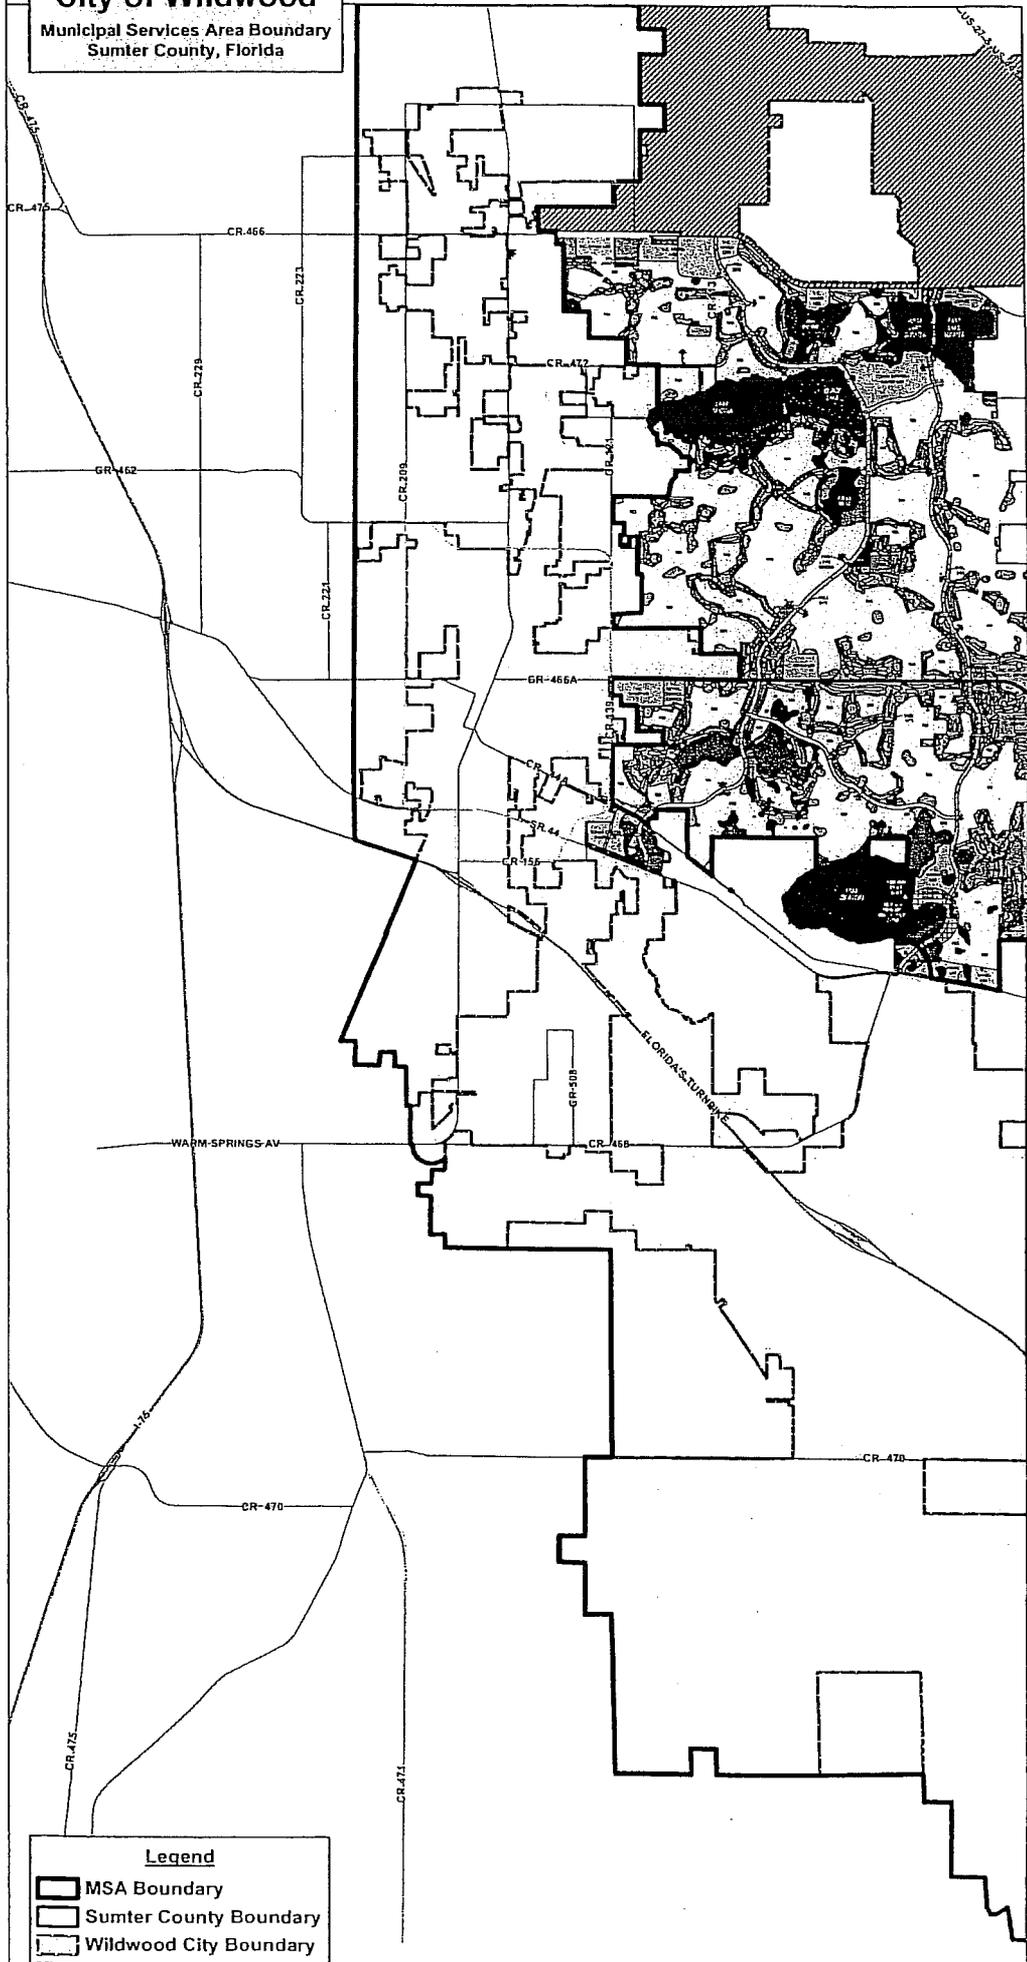

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated approach to animal control will protect and promote the health and safety of all of the citizens of Sumter County, and therefore state:

1. Service Delivery Agreement.

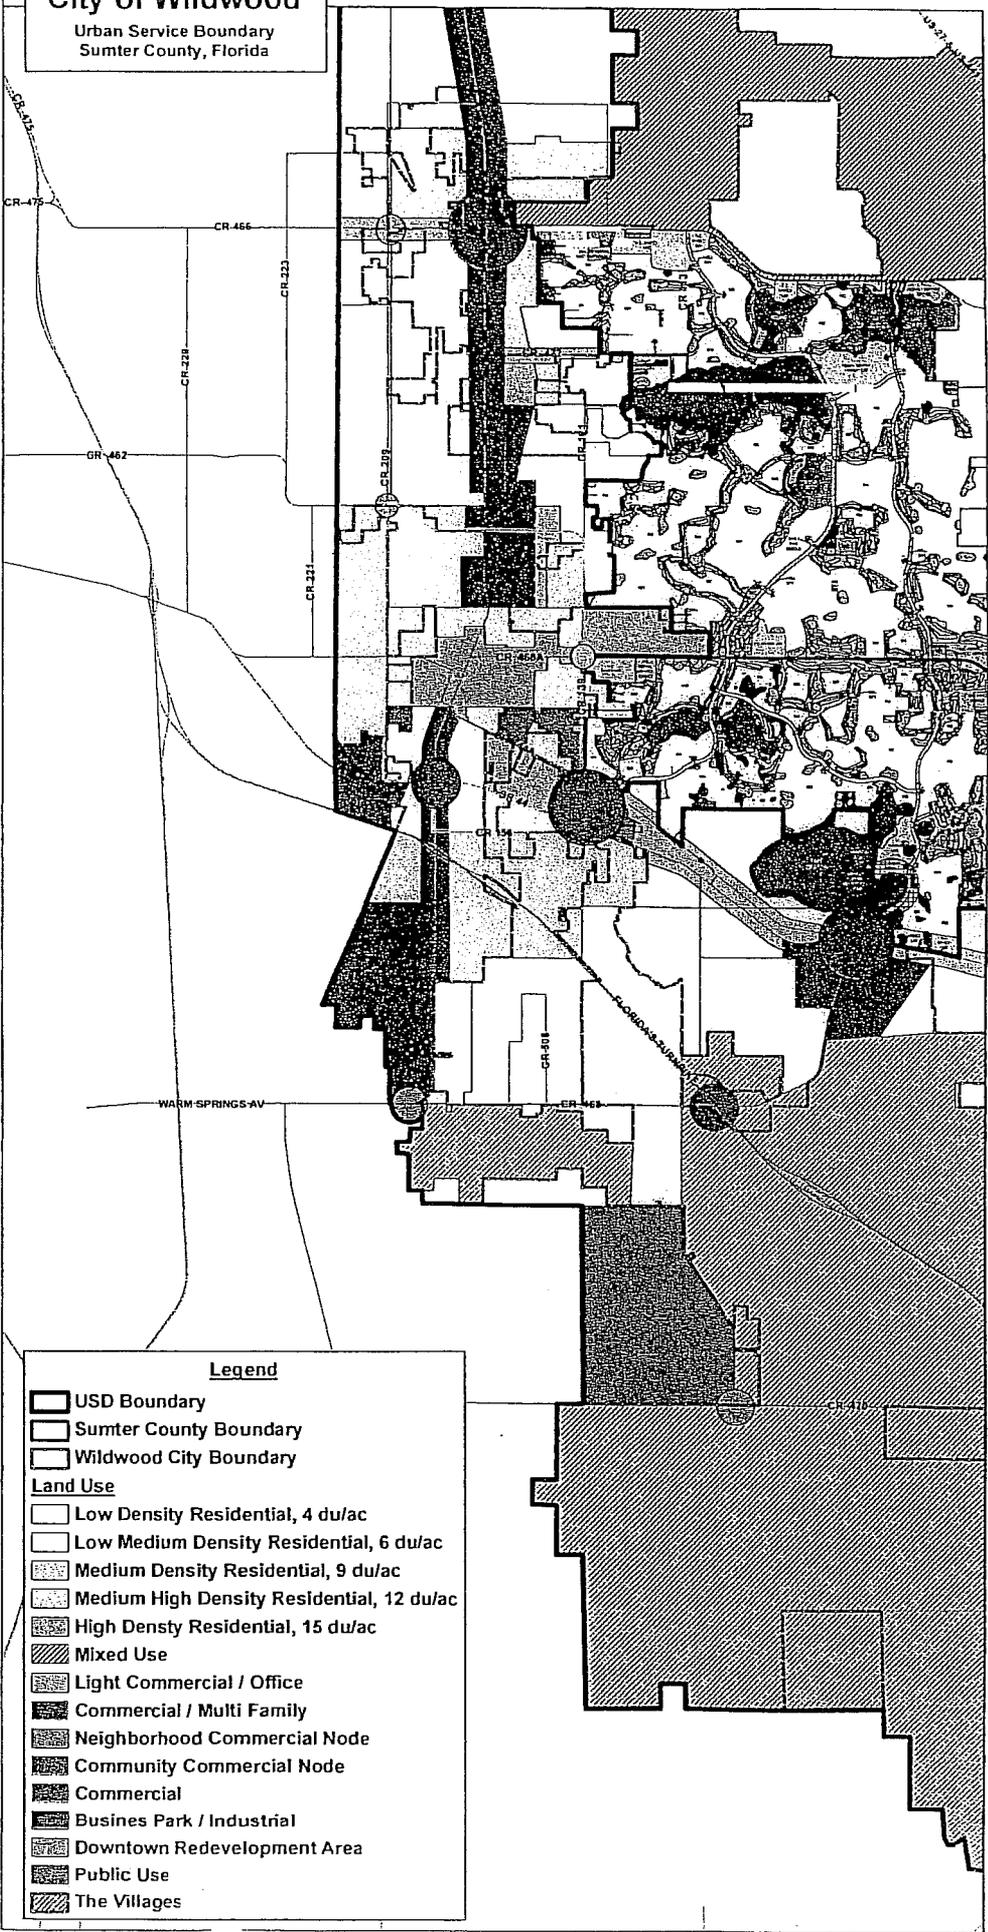

Sumter County shall provide animal control service to the areas in and abutting the incorporated boundaries of the City in the same manner that it does in the unincorporated areas of Sumter County, consistent with normal animal control practices, and consistent with all applicable state and federal regulations and the and the applicable provisions of the Sumter County Code.

OFF. REC. 229 PMF 08

THIS DEED, Made this 12th day of March, A.D., 1980 between SEABOARD COAST LINE RAILROAD COMPANY, a Virginia corporation, hereinafter called "Grantor"; and SUMTER COUNTY, a political subdivision of the State of Florida, whose mailing address is P. O. Box 8, Bushnell, Florida 33513, hereinafter called "Grantee";

(Wherever used herein, the terms "Grantor" and "Grantee" shall be construed in the singular or plural as the context may require or admit and shall include the heirs, legal representatives and assigns of individuals and the successors and assigns of corporations.)

WITNESSETH: That Grantor, for and in consideration of the sum of Four Thousand One Hundred Thirty-Two and 00/100 Dollars (\$4,132.00) to it in hand paid by Grantee, the receipt of which is hereby acknowledged, has granted, bargained and sold, and by these presents does grant, bargain, sell and convey unto Grantee that certain tract or parcel of land situate, lying and being at Oxford, County of Sumter, State of Florida, and described as follows, to wit:

Commence at the intersection of the center line of S.R. 466 with the center line of Grantor's main line Baldwin-Wildwood track; thence N 89° 49' 49" W along the center line of S.R. 466, 51.18 feet to the Point of Beginning; from the Point of Beginning thus described run thence N 89° 49' 49" W along the center line of S.R. 466, 307.04 feet; thence S 12° 07' 59" E 300.00 feet; thence S 89° 49' 49" E 307.04 feet; thence N 12° 07' 59" W 300.00 feet to the Point of Beginning; containing 2.066 acres, more or less, and being shown on print of survey prepared by James D. Baker, dated September 12, 1979, which print is attached hereto and made a part hereof.

D17-032
D17-034

TOGETHER with all and singular the rights, members, hereditaments and appurtenances to said premises belonging or in anywise incident or appertaining.

TO HAVE AND TO HOLD said premises unto Grantee in fee simple forever; SUBJECT, However, to reservations, conditions, restrictions and easements of record including, but not limited to (i) a fence along the westerly boundary of the above described land (ii) paved basketball and tennis courts located along the westerly boundary of the above described land (iii) street right of ways located along the northerly and southerly boundaries of the above described land, all as shown on said attached print. Except as to the matters referred to in the preceding paragraph, Grantor hereby binds itself that the premises are free from encumbrances, that it is seized of said premises in fee and that it will fully warrant and forever defend all and singular said premises unto Grantee against Grantor and all other persons lawfully claiming or to claim the same or any part thereof by, through or under Grantor.

RECORD VERIFIED

QUIT CLAIM DEED

THIS DEED, Executed this 10th day of February, A. D. 1948, by George G. Perry and
wife, Victoria Perry, of the County of Sumter and State of Florida, parties of the first
part, and Board of County Commissioners of Sumter County, Florida, of the County of Sumter,
and State of Florida, party of the second part,

WITNESSETH, That the said parties of the first part, for and in consideration of the
sum of Ten (\$10.00) dollars and other good and valuable considerations in hand paid by the
said party of the second part, the receipt whereof is hereby acknowledged, have remised,
released and quit-claimed, and by these presents do remise, release and quit-claim unto the
said party of the second part, and its heirs, successors and assigns forever, the following
described lot, piece or parcel of land, situate, lying and being in the County of Sumter,
State of Florida, to-wit:

Begin at Sth cor of Lot 2 Oxford, Run W. 160 ft. N. 150 ft. E. 160 ft. S. 150 ft. to
Beg. and Beg. at a point on N. side of Main Street 587 ft. E. from middle of Wire
road run N. 150 ft. E. 90 ft. N. 150 ft. to Pomroy's land W. Parallel with said
line 303 ft. S. 200 ft. E. 100 ft. S. 100 ft. E. 113 ft. to beg.
Oxford, being in Section 17, Twp. 18 South Range 23 East.

It is fully understood and stipulated herein that the above described property shall
be used always for a public benefit, and in the event that this said property ever
fails to be used for a public benefit then it shall in its entirety revert at once to
the grantors herein, their heirs, representatives and assigns.

Further, it is hereby stipulated that in the event that the City of Oxford, Sumter
County, Florida, ever becomes an active municipality then in such case the said
grantee is hereby authorized to deed and convey the said property to the said City
or town of Oxford, Sumter County, Florida.

ORDINANCE NO. 2010-14

AN ORDINANCE OF THE CITY OF WILDWOOD, FLORIDA;
AMENDING THE ADOPTED INTERLOCAL SERVICE BOUNDARY
AND JOINT PLANNING AGREEMENT BETWEEN THE CITY OF
WILDWOOD AND SUMTER COUNTY; PROVIDING FOR
CONFLICT; PROVIDING FOR CODIFICATION, AND PROVIDING
FOR AN EFFECTIVE DATE.

WHEREAS, the City passed Ordinance O2009-04 on or about February 9, 2009, adopting the Interlocal Service Boundary and Joint Planning Agreement between Sumter County (the "County") and the City of Wildwood ("City").

WHEREAS, the City and County have found it necessary to add a Transit Sub-agreement, Economic Development Sub-agreement, an amended Building Permitting and Inspection Services Sub-agreement and an amended Law Enforcement Sub-agreement to the Interlocal Service Boundary and Joint Planning Agreement ("ISBA"), and;

WHEREAS, the City wishes to clarify the codification instructions so that the ordinance is properly codified for public review and access.

NOW THEREFORE, be it ordained by the City Commission of the City of Wildwood, Florida, as follows:

SECTION 1. AGREEMENT The ISBA between the City of Wildwood and Sumter County, attached hereto, is hereby amended to include the Transit Sub-agreement and Economic Development Sub-agreement, attached hereto and included herein as composite Exhibit "A". Additionally, the Law Enforcement Sub-agreement and Building Permitting and Inspection Sub-agreement included as part of Ordinance No. 2009-07 are hereby stricken in their entirety and replaced by the Law Enforcement Sub-agreement and Building Permitting and Inspection Services Sub-agreement attached hereto and included herein as part of composite Exhibit "A".

SECTION 2. CONFLICT: All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 3. SEVERABILITY: If any section, subsection, sentence, clause, phrase of this ordinance, or any particular application thereof shall be held invalid by any court, administrative agency, or other body with appropriate jurisdiction, the remaining section, subsection, sentences, clauses, or phrases under application shall not be affected thereby.

SECTION 4. CODIFICATION The ISBA and JPA, as amended by this ordinance, shall be codified as a new Chapter 24 of the Sumter County Code, which shall be entitled "Interlocal Service Boundary Agreements".

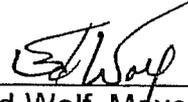

2010 24212

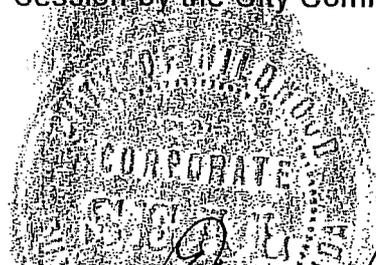

SECTION 5. EFFECTIVE DATE This ordinance shall take effect upon final approval by the City Commission of the City of Wildwood and the final approval by the Sumter County Commission of the aforementioned subagreements, and the date upon which the last entity passes an ordinance approving the amendment. If a specific effective date is included in a provision of one of the subagreements adopted by this ordinance, the date stated in the subagreement shall apply.

DONE AND ORDAINED this 9th day of August 2010, in Regular Session by the City Commission of the City of Wildwood, Florida.

City Commission
City of Wildwood, Florida

Jerr A. Blair, City Attorney

Transit Service Delivery Agreement

This Transit Services Delivery Agreement (the "Agreement") is made and entered into this 27th day of July, 2010, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possess Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, The County provides transit services countywide; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as transit services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as building permitting and inspections.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree a unified approach to transit services will result in a more efficient and cost effective method of service to all of the citizens of Sumter County and agree a need exists to maintain said service delivery in the following consolidated manner:

1. Service Delivery Agreement:

a. The County shall serve as the single, unified point of service for transit services in unincorporated areas of the county and within the City. This service shall be known for purposes of this Agreement as the "Consolidated County/City Transit Services". The Consolidated County/City Transit Services shall provide the staffing and resources for all transit operations.

Wildwood FL 34785

- b. The Consolidated County/City Transit Services will function and be funded as a Subdivision under Sumter County Board of County Commissioners.
 - c. The County shall be responsible for funding of the staff and operational costs of the Consolidated County/City Transit Services. All funding for the Consolidated County/City Transit Services shall be generated from fare box receipts, grants, contracts, and other fees for services for transit purposes.
 - d. The County and City agree to prepare and adopt a unified transit plan by 2014 with support from the Lake-Sumter Metropolitan Planning Organization
 - e. The County will coordinate with City for future bus stops in City serviced by rapid transit and fixed bus routes in order to meet both the City and Unincorporated Area transit needs.
 - f. The City will provide non-monetary support for grant applications for transit that may be necessary.
2. The County and City agree to resolve any dispute related to the interpretation or performance of this Agreement in the manner described in this section. Either Party may initiate the dispute resolution process by providing written notice to the other Party. Initiation of the dispute resolution process shall operate as a stay of the action which is the subject of the dispute.
 - a. Notwithstanding the foregoing, in the event that either Party determines in its sole discretion and good faith that it is necessary to file a lawsuit or other formal challenge in order to meet a jurisdictional time deadline, to obtain a temporary injunction, or otherwise to preserve a legal or equitable right related to this Agreement, such lawsuit or challenge may be filed, but upon the filing and any other act necessary to preserve the legal or equitable right or to obtain the temporary injunction, the Parties shall thereafter promptly file a joint motion with the reviewing court or administrative law judge requesting that the case be abated in order to afford the Parties an opportunity to pursue the dispute resolution procedures set forth herein. If the abatement is granted, the Parties shall revert to and pursue the dispute resolution procedures set forth herein.
 - b. Within ten (10) days of the abatement order, the allegedly aggrieved party shall then effect the transmittal of a notice of conflict, in the form of a certified letter, to all governmental bodies involved in the dispute at issue. Upon receipt of the notice, which shall specify the areas of disagreement, the Parties agree to conduct a conflict assessment meeting at a reasonable time

2010 24212
Page 204 of 212

and place, as mutually agreed upon, within thirty (30) days of receipt of the notice of conflict.

- c. If discussions between the Parties at the conflict resolution meeting fail to resolve the dispute, within forty (40) days of the receipt of the notice described in subparagraph A, above, the Parties shall conduct a mediation in the presence of a neutral third party mediator. If the Parties are unable to agree upon a mediator, the County shall request appointment of a mediator by the Chief Judge of the Circuit Court in and for Sumter County, Florida. The mediation contemplated by this Section is intended to be an informal and non-adversarial process with the objective of helping the Parties reach a mutually acceptable and voluntary agreement. The decision-making shall rest solely with the Parties. The mediator shall assist the Parties in identifying issues, fostering joint problem-solving, and exploring settlement alternatives.
- d. If the Parties are unable to reach a mediated settlement, within fifty (50) days of the receipt of the initial notice of conflict, the parties shall hold a joint intergovernmental meeting. If the joint intergovernmental meeting does not successfully resolve the issues identified in the notice of conflict, the entities participating in the dispute resolution procedures described herein may avail themselves of any otherwise available rights, including the suspension of abatement of existing actions.

End of Tranist Services Sub Agreement

100 N Main Street
Wildwood FL 34785

2010 24212

Economic Development Service Delivery Sub-Agreement

This Economic Development Service Delivery Sub-Agreement is made and entered into this 27th day of July, 2010, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses a Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County and the City strive to preserve a high quality of life for all residents of Sumter County; and

WHEREAS, economic development should be a countywide focus for marketing, recruiting, and providing consulting assistance to existing and new businesses; and

WHEREAS, the cities of Sumter County should focus their efforts of economic development on their utility and infrastructure to support the expansion of existing and the location of new businesses and industry; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and services, and protection of natural resources; and

WHEREAS, the City and County adopted an Interlocal Service Boundary Agreement to promote the efficient and effective delivery of public services and to promote positive economic development throughout the county;

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, and accepting the above whereas clauses as true and incorporating the same as if stated herein, the City and the

County agree that a coordinated approach to economic development will promote and guide the development of existing and new businesses to the benefit of all of the citizens of Sumter County, and therefore state:

1. Service Delivery Agreement.

Sumter County shall, in a manner and volume of its sole discretion, based on analysis of what strategy will result in the best results for both the City and the County as a whole, provide the economic development marketing and consultation services to existing and new businesses in the effort to retain and promote the growth of jobs within Sumter County and its municipalities. Sumter County may provide such marketing and consultation through utilization of independent third party contractors already under contract with the County, or through other governmental or private sector relationships at its disposal, or through whatever other means the aforementioned analysis determines will be most effective.

2. Costs.

Sumter County will bear all costs of such economic development and marketing consultation services and the City shall not incur costs for such services.

3. Input from City.

County shall consider input from the City in determining what strategy will result in best results for both the City and the County as a whole.

4. If the City at any time determines that it is in the best interest of the City to obtain additional consultation services for specific projects, it shall coordinate with Sumter County.

Law Enforcement Service Delivery Sub-Agreement

This Law Enforcement Services Delivery Sub-Agreement is made and entered into this 27th day of July, 2010, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possesses a Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, the County provides funding for law enforcement services by the Sumter County Sheriff's Office; and

WHEREAS, the County provides funding for code enforcement services by the Sumter County Board of County Commissioners; and

WHEREAS, the City provides funding for law enforcement services and code enforcement services for the City, by the City's police department; and

WHEREAS, the County and City recognize the most efficient approach to providing adequate law enforcement protection is a coordinated approach between the County and the City; and

WHEREAS, the City provides the backup 911 Public Safety Answering Point ("PSAP") to the primary 911 PSAP provided by Sumter County; and

WHEREAS, the County recognizes and desires to resolve the financial inequities that may exist through the City's performance of code enforcement and acting as the backup 911 PSAP; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as law enforcement services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate future land use, public facilities and

1. b.
2010082412

services, and protection of natural resources; and

NOW, THEREFORE, accepting the above WHEREAS clauses as true and incorporating same as if stated herein, and in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree that a coordinated and unified approach to law enforcement services results in a more efficient and effective method of service and promotes the safety and welfare of all of the citizens of Sumter County and agree that a need exists to continue said service delivery arrangements in the following manner:

1. Service Delivery Agreement. The County and City shall continue to utilize the current mutual aid agreement in place with the Sumter County Sheriff's Office. If that agreement should terminate without renewal, the City shall be solely responsible for law enforcement within the incorporated boundaries of the City.
2. The City shall utilize its own law enforcement agency to perform code enforcement within the City. The City shall also allow Sumter to utilize City as a backup 911 PSAP. The County agrees to make an annual payment of \$100,000.00 to the City, beginning no earlier than October 1, 2010, said monies to be utilized strictly for the law enforcement aid and services described herein. The \$100,000.00 annual contribution required herein shall be reevaluated by the City and County at the first meeting of each jurisdiction's governing body to occur after October 1, 2020.
3. The incorporated boundaries of the City shall include those areas annexed into the City including those areas annexed pursuant to the Planning Services subagreement and the MSA as defined in the Planning Services subagreement.
4. Within the MSA, all law enforcement jurisdiction shall remain with the County in all areas which have not been annexed into the City unless otherwise specified herein.
5. For purposes of law enforcement jurisdiction, a road right of way and road contained in a road segment shall be considered annexed into the City at the time of annexation. If at least fifty-one percent (51%) of the linear footage on both sides of the road segment of a County non-regionally significant road is within the existing City boundary then the entire road segment shall be considered within the City consistent with the Road Services subagreement.

End of Law Enforcement Services Sub-Agreement

Building Permitting and Inspection Service Delivery Agreement

This Building Permitting and Inspection Services Delivery Agreement (the "Agreement") is made and entered into this 27th day of July, 2010, by and between the City of Wildwood ("City") and Sumter County ("County").

WHEREAS, the City possess Municipal Home Rule Powers pursuant to Article VIII, Section 2(b), Florida Constitution and Section 166.021, Florida Statutes; and

WHEREAS, the County possesses powers of self government as provided by general or special law, so long as such acts are in the common interest of the people of the County, said powers being held and exercised pursuant to Article VIII, Section 1(f), Florida Constitution and Section 125.01, Florida Statutes; and

WHEREAS, The County and City each provide building permitting and inspection services within their respective jurisdictions. This independent approach to building permitting and inspections does not allow for the most efficient provision of this service. Currently, there is coordination of building permitting and inspection issues; and

WHEREAS, the Florida Interlocal Cooperation Act of 1969, Section 163.01, Florida Statutes, encourages and empowers local government to cooperate with one another on matters of mutual interest and advantage, and provides for interlocal agreements between local governments on matters such as building permitting and inspection services; and

WHEREAS, the Municipal Annexation or Contraction Act, Chapter 171, Part I, Florida Statutes, and the Interlocal Service Boundary Agreement Act, Chapter 171, Part II, Florida Statutes, recognizes the use of interlocal service boundary agreements and joint planning agreements as a means to coordinate public services such as building permitting and inspections.

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the City and the County agree a unified approach to building permitting and inspection services will result in a more efficient and cost effective method of service and promote safety and welfare of all of the citizens of Sumter County and agree a need exists to change said service delivery arrangements in the following manner:

1. Service Delivery Agreement:

- a. The County shall serve as the single, unified point of service for building permitting

may initiate the dispute resolution process by providing written notice to the other Party. Initiation of the dispute resolution process shall operate as a stay of the action which is the subject of the dispute.

- a. Notwithstanding the foregoing, in the event that either Party determines in its sole discretion and good faith that it is necessary to file a lawsuit or other formal challenge in order to meet a jurisdictional time deadline, to obtain a temporary injunction, or otherwise to preserve a legal or equitable right related to this Agreement, such lawsuit or challenge may be filed, but upon the filing and any other act necessary to preserve the legal or equitable right or to obtain the temporary injunction, the Parties shall thereafter promptly file a joint motion with the reviewing court or administrative law judge requesting that the case be abated in order to afford the Parties an opportunity to pursue the dispute resolution procedures set forth herein. If the abatement is granted, the Parties shall revert to and pursue the dispute resolution procedures set forth herein.
- b. Within ten (10) days of the abatement order, the allegedly aggrieved party shall then effect the transmittal of a notice of conflict, in the form of a certified letter, to all governmental bodies involved in the dispute at issue. Upon receipt of the notice, which shall specify the areas of disagreement, the Parties agree to conduct a conflict assessment meeting at a reasonable time and place, as mutually agreed upon, within thirty (30) days of receipt of the notice of conflict.
- c. If discussions between the Parties at the conflict resolution meeting fail to resolve the dispute, within forty (40) days of the receipt of the notice described in subparagraph A, above, the Parties shall conduct a mediation in the presence of a neutral third party mediator. If the Parties are unable to agree upon a mediator, the County shall request appointment of a mediator by the Chief Judge of the Circuit Court in and for Sumter County, Florida. The mediation contemplated by this Section is intended to be an informal and non-adversarial process with the objective of helping the Parties reach a mutually acceptable and voluntary agreement. The decision-making shall rest solely with the Parties. The mediator shall assist the Parties in identifying issues, fostering joint problem-solving, and exploring settlement alternatives.
- d. If the Parties are unable to reach a mediated settlement, within fifty (50) days of the receipt of the initial notice of conflict, the parties shall hold a joint intergovernmental meeting. If the joint intergovernmental meeting does not successfully resolve the issues identified in the notice of conflict, the entities participating in the dispute resolution procedures described herein may avail

themselves of any otherwise available rights, including the suspension of abatement of existing actions.

2. Fire Inspections and Plan Review: Consistent with existing interlocal agreements, the County, through Sumter County Fire Rescue, shall, pursuant to Section 633.0215, Florida Statutes, and Section 901 of the Florida Building Code, utilize the Florida Fire Prevention Code in providing all fire prevention/safety inspections and complete all fire building plan reviews within the City and unincorporated areas.

CITY COMMISSION
CITY OF WILDWOOD, FLORIDA
REGULAR MEETING
JUNE 25, 2012 – 7:00 P.M.
CITY HALL COMMISSION CHAMBER

The City Commission of the City of Wildwood Florida met in Regular Session, June 25, 2012 at 7:00 p.m.

Present were: Mayor Wolf, Commissioners Bivins, Clark, Allen and Strickland. Also present were: City Manager Cannon, City Clerk Jacobs, City Attorney Blair, Assistant City Clerk Roberts, Police Lieutenant Olbek, Development Services Director Peavy, AVT Law, UD Phillips.

The meeting was called to Order followed by an invocation and Pledge of Allegiance to the American Flag.

1. TIMED ITEMS AND PUBLIC HEARINGS

a. 7:00 PM – PUBLIC HEARING – SECOND FINAL READING – Ordinance No. O2012-18, an ordinance amending the adopted Interlocal Service Boundary and Joint Planning Agreement (ISB/JPA) Planning Services Sub-Agreement with Sumter County to reflect current planning conditions and to update the ISB Map and JPA Future Land Use Map to be consistent with the pending Comprehensive Plan Amendment (Attachments – *Staff Recommends Continuance of Second Reading of Ordinance No. O2012-18 until July 9, 2012 Meeting*).

Motion by Commissioner Allen, second by Commissioner Strickland to approve Continuance of Second Reading until July 9, 2012. Motion carried by unanimous vote.

b. 7:00 PM – PUBLIC HEARING – SECOND FINAL READING - Ordinance No. O2012-19; an ordinance approving the rezoning of Parcel G07A001 from C-1 (Commercial) to CIPD (Commercial/Industrial Planned Development) for the Police Communications Tower Site to bring the use of the property into compliance with the current Land Development Regulations based upon a favorable recommendation by the P&Z Board/Special Magistrate (Attachments)

Ordinance O2012-19 was read by title only and Public Hearing was opened. No comments were received.

Motion by Commissioner Clark, second by Commissioner Strickland to adopt Ordinance No. O2012-19 on second final reading: An Ordinance Of The City Of Wildwood Granting A Request For A Planned Development Pursuant To Section 8.6 Of The Land Development Regulations; For Certain Property Within The City Of Wildwood, Florida; Owned By City Of Wildwood, Florida; Providing For Severability; Providing For Codification; And Providing For An Effective Date. Motion carried by unanimous vote.

c. 7:00 PM – PUBLIC HEARING – SECOND FINAL READING - Ordinance No. O2012-20; Establishing the Brownwood Community Development District, the legal description of its boundaries and the initial five members of the board and the grant of special powers requested, which includes recreational powers, security powers and mosquito control powers. The CDD is comprised of approximately 239.8± acres within the City of Wildwood (Attachments)

Minutes
Page 2
June 25, 2012

Ordinance O2012-20 was read by title only and Public Hearing opened. No comments received.

Motion by Commissioner Bivins, second by Commissioner Allen to adopt Ordinance No. O2012-20 on second final reading: An Ordinance Of The City Of Wildwood, Florida, Establishing The Brownwood Community Development District; Naming The District; Describing The External Boundaries Of The District; Granting Special Powers; Naming The Initial Members Of The District's Board Of Supervisors; Providing For Conflict And Severability; And Providing For An Effective Date. Motion carried by unanimous vote.

d. 7:00 PM – PUBLIC HEARING – SECOND FINAL READING - Ordinance No. O2012-21; an ordinance rezoning 301/466 LLC Property; Parcel Numbers D18=069, D18=040, D18=064, D18=041, D18=067 and D18=068 containing 222 acres ± generally located to the NW of US 301 and CR 214, from Neighborhood Mixed Use-7 (NMU-7) to Low Density Residential (R-1) to bring the property into compliance with the Future Land Use Map of the Comprehensive Plan and based upon a favorable recommendation by the P&Z Board/Special Magistrate (Attachments)

Ordinance O2012-21 was read by title only and Public Hearing opened. No comments received.

Motion by Commissioner Allen, second by Commissioner Strickland to adopt Ordinance No. O2012-21 on second final reading: An Ordinance Of The City Of Wildwood Florida; Rezoning Certain Real Property In Compliance With The Adopted Local Comprehensive Plan And Future Land Use Map In Accordance With The Community Planning Act Of 2011, As Amended; Providing For Codification; Providing For Conflict; And Providing For An Effective Date. Motion carried by unanimous vote.

e. 7:00 PM – PUBLIC HEARING – FIRST READING - Ordinance No. O2012-22; an ordinance amending the Comprehensive Plan Amendment to Implement the Interlocal Service Boundary and Joint Planning Area with Sumter County (Attachment - *Staff Recommends Continuance of First Reading of Ordinance No. O2012-18 until July 9, 2012 Meeting*)

Motion by Commissioner Allen, second by Commissioner Bivins to approve Continuance of First Reading of Ordinance No. O2012-22 until July 9, 2012. Motion carried by unanimous vote.

2. REPORTS AND PUBLIC INPUT / SPECIAL PRESENTATION(S)

a. City Manager

- 1) Requested a recommendation from the Commission for the Annex paint colors and suggested earth tones.

By common consent the Commission approved for the City Manager to meet with staff and discuss and that the colors fit in the Design Standards.

Minutes
Page 3
June 25, 2012

- b. City Attorney – None
- c. City Clerk – None
- d. Commission Members – None
- e. Public Forum (10 minute time limit)
 - 1) Robin Caruthers – expressed concern about the continuous refuse fee even though they have been out of the City for a year. Water and Wastewater can be put on vacation, why can't the refuse. He signed a form for the can to be picked up but was told the bill would still have to be paid because of the City Ordinance. Hasn't lived there since May 2011.

Commissioner Allen – Mr. Caruthers spoke with him and it is something that the City Attorney needs to look into and it's in the Ordinance that they have to pay the refuse, unlike the water that can be put on vacation. Mr. Caruthers is getting ready to move back into the house and he contacted the City because there is not a water meter at that location. A former Water Director ran a tap but a meter was never installed.

Mr. Caruthers noted that Deniese Woods told him to write a letter indicating that he was not living in the City. Then when he asked about water because there is still a well there, he was told there is no way to get water because there is no line. Commissioner Allen indicated there is a line as far as Ms. Perry's house about 50 feet from Mr. Caruthers. They are asking him to write another letter about the refuse bill.

By common consent the Commission referred item to City Manager for review and work out.

- f. Notes and Reports
FYI – City's building at 610 Jackson Street (Attachments – Information only)

No action.

3. NEW BUSINESS – ACTION REQUIRED

a. MINUTES

- 1) Minutes of Special Called Workshop Meeting held on June 5, 2012 (Attachments – Staff recommends approval)
- 2) Minutes of Regular Meeting held on June 11, 2012 (Attachments – Staff recommends approval)

Motion by Commissioner Allen, second by Commissioner Bivins to approve the Minutes of June 5, 2012 and June 11, 2012. Motion carried by unanimous vote.

- b. ORDINANCES FIRST READING ONLY (READ ONLY – NO VOTE)
None

c. RESOLUTIONS FOR APPROVAL

- 1) Resolution No. R2012-07 (TABLED 5/14/12 & 6/11/12) a Resolution Amending Chapters 4.3 and 5.1 of the City of Wildwood Personnel Rules (Attachments – Staff Recommends Approval)

HRC Cox noted changes have been made as requested by the Commission at the time it was tabled.

Motion by Commissioner Clark, second by Commissioner Strickland that Resolution R2012-07 be adopted. A Resolution Of The City Of Wildwood, Florida; Amending Chapters 4.3 And 5.1 Of The City Of Wildwood Personnel Rules; And Providing For An Effective Date. Motion carried by unanimous vote.

- d. APPOINTMENTS
None

e. CONTRACTS AND AGREEMENTS

- 1) Bruce Phillips' request for approval to enter into a 3 year lease agreement with Acton Mobile Industries for the lease of a 24' x 60' temporary office trailer for the Utility Department to be located at the WWTP site (Attachments – Staff Recommends Approval)

UD Phillips noted this was brought to the Commission before and it was approved at \$20,850 total for three years, without skirting. However, the company approved, Pac-Van, found they did not have a unit that would fit the needs. This is the number 2 company from the quotes, Acton Mobile Industries, but have added skirting to make the unit look better. The total for three years is \$25,440.55.

Motion by Commissioner Clark, second by Commissioner Bivins to approve the three year lease from Acton Mobile Industries in the total amount of \$25,440.55. Motion carried by unanimous vote.

- 2) Request approval of the Contract Amendment between the Department of Corrections and the COW to renew the Parks & Recreation Inmate Work Squad contract for a period of one (1) year effective October 2, 2012; there are no increases to cost (Attachments – Staff Recommends Approval)

Motion by Commissioner Clark, second by Commissioner Allen to approve the Contract Amendment between the Department of Corrections and the COW to renew the Parks & Recreation Inmate Work Squad contract for a period of one (1) year effective October 2, 2012. Motion carried by unanimous vote.

3) Turkey Run, LLC's Consent to Partial Assignment of ERCs Under Developer's Agreement; Turkey Run is requesting approval to assign 50 ERCs for water and 50 ERCs for wastewater from Turkey Run's reserved ERC's to Providence ILF (Attachments – Staff Recommends Approval)

Motion by Commissioner Allen, second by Commissioner Bivins to approve Turkey Run's request approval to assign 50 ERCs for water and 50 ERCs for wastewater from Turkey Run's reserved ERC's to Providence ILF. Motion carried by unanimous vote.

4) Utility Agreement Between the COW and Providence ILF (Attachments – Staff Recommends Approval)

Motion by Commissioner Bivins, second by Commissioner Clark to approve Utility Agreement Between the COW and Providence ILF. Motion carried by unanimous vote.

f. FINANCIAL

1) Bills for Approval (Attachments – Staff Recommends Approval)

Motion by Commissioner Allen, second by Commissioner Bivins to approve payment of bills. Motion carried by unanimous vote.

2) Request for approval to purchase new Kyocera TA 6550CI Color Digital Imaging System with monthly maintenance contract from EGP, Inc. to replace aging City Hall administration B & W copier (Attachments & Folder in your – Staff Recommends Approval)

CM Cannon noted the City Hall copier meter has recorded over one million copies. If the new copier is approved, the current copier will be rotated to another department that makes fewer copies.

Commissioner Strickland asked if this was bid out and noted that at \$15,000 it might be prudent to look at alternatives. Commissioner Clark asked if this was on State contract. CA Blair indicated if the cost is under \$25,000 it would not have to be bid and if on State contract the City could piggyback that bid. Commissioner Strickland stated that it makes sense to bid it out and also to check about maintenance costs. Mayor Wolf noted the Commission Chamber was set up for computers or I Pads on the dais and it may be time to do that.

Motion by Commissioner Allen, second by Commissioner Strickland to table for further research regarding whether it is on state contract or if it needs to be bid out. Motion carried by unanimous vote.

g. GENERAL ITEMS FOR CONSIDERATION

- 1) Request for a donation from the City to sponsor several underprivileged children and youth living in and around Sumter County to attend the Blue Moon Ranch Equestrian Summer Programs being run by Blue Moon Ranch and S.P.I.R.I.T. and L.O.V.E. Outreach Ministries (Attachments – Board Option)

Mayor Wolf read a portion of the Resolution 1027 adopted by the Commission regarding donations of tax payers' dollars. Commissioner Allen indicated that since we do not have the Summer Camp, City needs to find something for the kids to do.

- 2) Site Plan Approval for SP 1204-02 Police Tower Site Plan to co-locate an existing antenna, including a shelter building, generator, and gas storage tank on Parcel G07A001 (Attachments – Staff Recommends Approval)

DSD Peavy reported that the Rezoning was just approved and that the Special Magistrate recommended approval of the Site Plan on June 5.

Motion by Commissioner Strickland, second by Commissioner Clark to approve SP 1204-02 Police Tower Site Plan. Motion carried by unanimous vote.

- 3) Discussion/Board Option of Accepting Donation of the Historical Baker House and five-acres plus 20 foot easement between C-44A and SR 44; approval of the cost of a Title Search; approval for City Attorney to proceed with a Title Search and based on the findings, approval to draw up an Agreement (Attachments – Board Option)

Mayor Wolf suggested the property be placed under the direction of the Parks & Recreation department. CA Blair noted an appraisal would be needed also. Mayor Wolf indicated the property will eventually be in the City. The buyer of the other property may have done a title search and may provide information. Carlton Baker expressed appreciation that the City is interested.

Gidget Gibson, Historical Society – searching for grants and planning fund raisers.

Motion by Commissioner Bivins, second by Commissioner Allen to accept donation of Baker House and five acres plus a 10 foot easement between C-44A and SR 44; to approve for title search if necessary and appraisal and for CA Blair to draft an agreement. Motion carried by unanimous vote.

- 4) Special Event request from God's Glory Ministries and Care for Kids, Inc. to use City property (a portion of the north end of the parking lot behind the Church/Theater building and the grass area) and for a Police escort for Care for Kids, Inc. 5K Walk-A-Thon on Saturday, July 7th, from 6:00-8:00 a.m.; this is a Fundraiser for their Annual Back to School Bash planned for August (Attachments – Board Option)

Minutes
Page 7
June 25, 2012

Motion by Commissioner Allen, second by Commissioner Clark to approve the request from God's Glory Ministries and Care for Kids, Inc. to use City property (a portion of the north end of the parking lot behind the Church/Theater building and the grass area) and for a Police escort for Care for Kids, Inc. 5K Walk-A-Thon on Saturday, July 7, from 6:00-8:00 a.m. Motion carried by unanimous vote.

5) Discussion/Decision on paint and trim color choices for the exterior of the City Hall Annex Building (No Attachments – City Manager to address)

Under City Manager reports.

4. ADJOURN

Upon a motion by Commissioner Allen, second by Commissioner Bivins the meeting was adjourned.

DATE: June 18, 2012

RE: Transportation Management System FY 2012/13 Budget and Reconstituted Interlocal Agreement

The Governing Board of the Lake~Sumter Metropolitan Planning Organization recently took action instructing staff to transmit the two attached documents for your review and action. One document, the FY 2012/13 Transportation Management System (TMS) Budget, pertains to your new budget for the upcoming fiscal year. The second document, the restated TMS Interlocal Agreement, is in need of staff/legal review in order to be placed on an upcoming meeting agenda of your elected body. Please let Sue Goldfuss know when this will be placed on your council/commission's agenda. I will make myself available for the agenda item. The MPO is requesting two (2) original executed signature pages from each jurisdiction to be mailed to the Lake~Sumter MPO, 1616 South 14th St., Leesburg, FL 34748; attention Sue Goldfuss. Each jurisdiction will receive a fully executed copy recorded in their respective county.

The FY 2012/13 TMS Budget indicates the amount the MPO is requesting that your jurisdiction budget from the fiscal year October 12, 2012, through September 30, 2013. The budget includes two rates from which you and your elected body may opt: (1) an all-inclusive rate that covers all data and services; and (2) a lower base rate that covers data such as traffic counts and crash information, and the option to pay an hourly rate for on-demand services such as traffic study reviews, policy assistance and grantwriting.

Please note that the all-inclusive rate has been reduced from the amount of the current budget year, FY 2011/12. This is in response to the budget cuts experienced by all member local governments of the MPO despite the fact that the MPO has added services. The MPO's Technical Advisory Committee (TAC) was part of the TMS budget review process, which led to reduced rates and the option of an all-inclusive rate versus a lower base rate for basic data services. Some local governments may opt for the new option and then pass through traffic study review costs to development applicants. Most, however, have already indicated the all-inclusive rate to be more suitable for their needs.

The second document is a restated interlocal agreement further defining the data and services provided through the MPO via the TMS. The restated agreement will replace the 2007 interlocal agreement that was primarily based on transportation concurrency management. The restated agreement also further specifies the process through which the MPO annually establishes the data and services to be provided through the TMS and the process through which the budget is created and then distributed. Please note that the TAC was integral to the development of the interlocal agreement, with one of the major adjustments being development of the TMS budget beginning in January of each year and MPO action in February in order to proactively accommodate the budget process of each local government.

To close, the MPO has created a system that includes many layers of data and an array of services. The MPO has been responsive to the needs of local governments and to local government budget constraints. One major aspect of the TMS is that it is imperative for local governments to fully utilize the offerings of the system. If the system is utilized, your local government will receive more than its money's worth.

If you have any questions or if I am needed for a meeting of your elected body, I am pleased to assist.

**INTERLOCAL AGREEMENT
BETWEEN THE LAKE-SUMTER METROPOLITAN PLANNING ORGANIZATION,
THE LAKE COUNTY BOARD OF COUNTY COMMISSIONERS, THE SUMTER
COUNTY BOARD OF COUNTY COMMISSIONERS AND THE MUNICIPALITIES OF
ASTATULA, BUSHNELL, CLERMONT, COLEMAN, EUSTIS, FRUITLAND PARK,
GROVELAND, HOWEY-IN-THE-HILLS, LADY LAKE, LEESBURG, MASCOTTE,
MINNEOLA, MONTVERDE, MOUNT DORA, TAVARES, UMATILLA, AND
WILDWOOD FOR CREATION, FUNDING AND IMPLEMENTATION OF A MASTER
TRANSPORTATION MANAGEMENT SYSTEM PROGRAM**

RECITALS

WHEREAS, the Lake-Sumter Metropolitan Planning Organization (MPO) was created through interlocal agreement between Lake County, Sumter County, and the 14 municipalities of Lake County and was approved by Gov. Jeb Bush on December 9, 2003; and

WHEREAS, the MPO is responsible for managing a continuing, cooperative, and comprehensive transportation planning process for the MPO Area of Lake and Sumter counties; and

WHEREAS, the MPO approved, and entered into, an Interlocal Agreement on November 28, 2007, with Lake County, Sumter County, and the municipalities of Astatula, Clermont, Eustis, Fruitland Park, Groveland, Howey-in-the-Hills, Lady Lake, Leesburg, Mascotte, Minneola, Montverde, Mount Dora, Tavares, Umatilla, and Wildwood for the creation, funding and implementation of a Master Transportation Concurrency Management System (TCMS) Program, said agreement recorded in the Official Records of Lake County on January 30, 2008, at O.R. Book 3575, Page 734, and recorded in the Official Records of Sumter County on February 8, 2008, at O.R. Book 1901, Page 727; and

WHEREAS, on September 23, 2009, the MPO approved Resolution 2009-23 to add a safety program based on crash data to the TCMS, and to rename the TCMS the Lake~Sumter MPO Transportation Management System (TMS); and

WHEREAS, in FY 2010/11, the municipalities of Center Hill and Webster became part of the TMS via Sumter County by virtue of an interlocal service boundary agreement between each city and the county, and in FY 2011/12, the municipalities of Bushnell and Coleman were invited to participate per a rate established by the MPO in the FY 2011/12 TMS Budget; and

WHEREAS, the MPO's Technical Advisory Committee (TAC) has recommended, and the MPO's Governing Board agrees, that a new interlocal agreement to reconstitute the TMS is desired in order to define the specific data and services that the MPO will make available to the member cities and counties; and

WHEREAS, the 2011 Florida Legislature passed HB 7207, codified in Chapter 2011-139, Laws of Florida, which removed transportation concurrency as a statewide mandate from the Florida Statutes' growth management laws, and which effectively made transportation concurrency optional for local governments; and

WHEREAS, nonetheless, transportation capacity management is a growth management principle that ensures that necessary transportation facilities and services are available concurrent with the impacts of development and that proposed developments will not degrade a roadway below the adopted level of service standards; and

WHEREAS, despite the optional nature of transportation concurrency, safety and security remains a state and federal emphasis, and one of the objectives in the creation of MPOs was to encourage and promote the safe and efficient management, operation and development of surface transportation systems; and

WHEREAS, the MPO's maintenance of a crash data system in coordination with member governments is in accordance with the objective to encourage and promote the safe and efficient management, operation and development of surface transportation systems; and

WHEREAS, the MPO is equipped with staff, consultants and sufficient expertise to provide services under the TMS that are valued by member local governments but that are not part of the state and federal requirements regarding tasks achieved through the use of state and federal funds; and

WHEREAS, because the MPO's fiscal year begins on July 1st, and the fiscal year for the MPO's member governments begins on October 1st, it is necessary to set up a timeframe within which member cities and counties will specify the services and data they wish to avail themselves of through the TMS managed by the MPO;

NOW, THEREFORE, IN CONSIDERATION of the mutual terms, understandings, conditions, and payment hereinafter set forth, and intending to be legally bound, the parties hereby agree as follows:

Article 1. Recitals

- 1.1** The foregoing recitals are true and correct and incorporated herein by reference.

Article 2. Purpose

- 2.1** The purpose of this Agreement is to define the Transportation Management System and the process through which the TMS is implemented. The TMS is a centralized database of transportation information that all parties to the agreement may utilize as part of individual transportation programs as prescribed within individual comprehensive plans and land development regulations. Each

year, services provided as part of the TMS will be recommended by the TAC and approved by the MPO Governing Board. The types of services generally offered as part of the TMS include but are not limited to database management for crash data, traffic counts, functional classifications, roadway capacity, Level of Service (LOS) and encumbered or reserved trips, and services such as MPO review of traffic impact studies, rezonings and comprehensive plan amendments, policy formulation, grant writing and funding research.

Article 3. Funding

- 3.1** The menu of and budget for TMS services presented to TAC and to the MPO Governing Board for approval each year shall include two (2) options for member government participation and funding of the TMS: 1) an all-inclusive rate, which shall allow the member government to avail itself of an unlimited number of TMS services offered by the MPO at no additional charge; or 2) a base rate, which shall allow the member government to avail itself of the "Data and Data-related Services" listed in Section 4.3 herein, with any other, additional TMS services available to that member government at an hourly rate for MPO services. A fee structure prescribing hourly rate shall be part of the TMS budget reviewed annually, except in the year 2012, when the hourly rate shall be approved by the MPO Governing Board prior to September 30, 2012. All member governments shall elect one of the two options described herein, and shall pay either the all-inclusive or the base rate to MPO by October 1st of each year. Member governments selecting option two (2) above shall remit payment to MPO for any additional requested services charged at an hourly rate within thirty (30) days of receipt of an invoice from the MPO.
- 3.2** Should population be a basis for determining annual local contributions to the TMS, in each odd numbered year, the population figures and related contributions will be reviewed and adjusted as necessary for population changes. Funding contributions will be adjusted based upon Bureau of Economic and Business Research (BEBR) population figures. The best available information will be provided to each local government via presentation of the new TMS budget by the MPO.

Article 4. TMS Services

- 4.1** Development Review Services: Local governments may submit data from any applicant who is seeking a development approval for a project (Developments of Regional Impact or DRIs excepted), including the traffic impact analysis, the number of proposed residential units and amount of non-residential square footage by use in accordance with the latest edition of the Institute of Transportation Engineers (ITE) Trip Generation Manual.

(1) Upon receipt of such data by the MPO, the following procedure shall be implemented in order to provide the local government with the information required in a timely fashion:

- A. Provided the data received is determined to be sufficient to issue a report of findings, the MPO will evaluate the data based upon existing road capacity information - including adopted LOS, performance LOS, existing trips, reserved trips and vested trips - and submit a report of its findings within 15 calendar days of receipt of the request.
- B. If the local government determines that additional information should be factored into the analysis, it may submit its comments for evaluation to the MPO within 15 calendar days of the issuance of the MPO's capacity report for that application.
- C. The MPO will review additional information submitted by the local government and provide final comments within 15 calendar days of the submittal of new information.
- D. If the impacted facility is a state or federal facility, the MPO shall consult with the Florida Department of Transportation (FDOT) on mitigation strategies pursuant to state and local laws. If no comments are received from FDOT within 30 days, the MPO will issue its report based upon existing data.
- E. MPO shall provide assistance with proportionate fair share agreements and other negotiated mitigation measures when necessary.

(2) The MPO will not make development approval determinations or recommendations based on transportation impacts on behalf of any local government. The MPO will issue a report of findings based on the data maintained by the MPO and the data submitted by the local government. The responsibility to make recommendations of approval or denial on development applications remains with the local government

4.2 Comprehensive Plan/Land Development Regulation Amendments and Policy Formulation Review and Assistance: The MPO will assist any member local government in assessing needed changes to comprehensive plans, policies or land development regulations related to transportation capacity management or mitigation of transportation impacts. Comprehensive Plan or Land Development Regulation amendments related to DRIs are excepted. MPO will also assist any member local government with grant writing, Local Agency Program (LAP) assistance, funding research and multi-modal mobility policy formulation.

4.3 Data and Data-related Services:

- (1) crash data – basis for safety program and data for the Community Traffic Safety Team (CTST)

- (2) traffic counts – management of county counts and integration with FDOT counts
- (3) functional classification – additional database component
- (4) roadway capacity – additional database component
- (5) Level of Service – LOS policies
- (6) entitled and reserved trips – component of congestion management (concurrency)

Article 5. Procedure

- 5.1** On an annual basis, the MPO TAC shall review the list of and budget for TMS services. The list of TMS services and the TMS budget reviewed by TAC shall go to the MPO Governing Board for action on and inclusion in the MPO budget by March 31st of each year, starting in the year 2013. The MPO may amend its approved list of TMS services or TMS budget for the upcoming fiscal year between April 1st and September 30th, if termination of this Agreement by a member government or member governments makes it necessary for the MPO to revise its menu of services or the budget.
- 5.2** So that the centralized transportation capacity management system of the TMS will contain the most current information available, member local governments will provide to the MPO data on development applications, vested and existing development, traffic count information, legally vested trips, formally reserved trips and certificate of occupancy information. Updated information shall be delivered to the MPO under the terms of this Agreement on a quarterly basis at a minimum, and ideally on a monthly basis. Failure to provide said information in the required timeline will result in correspondence from the MPO to the local government requesting updated information.

Article 6. Term

- 6.1** This Agreement shall become effective upon execution by the last party. The executed agreement shall be recorded in Sumter County and in Lake County with MPO paying the recording costs.
- 6.2** This Agreement shall remain in effect until terminated by the parties to this Agreement, or as otherwise provided by law. After October 1st of any year in which the Agreement is in effect, a party that wishes to terminate shall provide ninety (90) days notice to all parties to this Agreement prior to termination, and shall make all payments throughout the ninety (90) day notice period, up to and including the date of termination. A prorated amount of the terminating party's annual TMS payment (i.e. the all-inclusive or base rate paid by the terminating party as of October 1st) shall be refunded to the terminating party, calculated from the date of termination to September 30th. In addition, because the TMS is structured to function on an October 1st to September 30th fiscal year basis, for TMS budget planning purposes, member governments that anticipate that they

will not include TMS services from the MPO in their own budgets are encouraged and requested to provide unofficial notice of the same to MPO at the earliest possible opportunity between April 1st and September 30th of each year.

- 6.3 Upon termination of the Agreement by a member government, the member government may request and receive database output of TMS data, current at the time of termination, particular to their jurisdiction.

Article 7. Annual Report

- 7.1 An Annual Report on the status of all facilities included in the TMS shall be published each year and may be used in the MPO annual project prioritization process. The report will focus on the performance of facilities and the safety of facilities.

Article 8. General Provisions

- 8.1 This Agreement, and any amendments hereto, may be simultaneously executed in several counterparts, each of which as executed shall be an original, and such counterparts together shall constitute one and the same instrument.
- 8.2 Amendments or modifications to this Agreement may only be made by written agreement signed by all parties hereto, with the same formalities as the original agreement.

CITY COMMISSION OF THE CITY OF WILDWOOD

EXECUTIVE SUMMARY

SUBJECT: Replace Copy Machine Administrative Offices at City Hall

REQUESTED ACTION: Request Approval to Purchase

Work Session (Report Only)

DATE OF MEETING:

7/9/2012

Regular Meeting

Special Meeting

CONTRACT:

N/A

Vendor/Entity:

EGP, INC

Effective Date: _____

Termination Date: _____

Managing Division / Dept: _____

BUDGET IMPACT:

\$ 15,218.00

Annual

FUNDING SOURCE:

See Comments Below

Capital

EXPENDITURE ACCOUNT:

General & Enterprise Funds

N/A

HISTORY/FACTS/ISSUES:

Our existing copy machine has approximately 1 million copies presently made. It was purchased in 2006. Due to the volume of copies presently being produced, it is time we replace this existing copy machine.

Considerable funds were budgeted to provide interconnectivity for our computers, but this has been temporarily suspended for alternative methods. Therefore, budget funds are available to purchase the new copier.

Comprehensive Customer Support Agreement

Customer #: LE1353 Date: 06-13-12

Name: CITY OF WILDWOOD

Address: 100 N. MAIN STREET Phone: 352-330-1330

City: WILDWOOD, FL Zip: 34785

Standard Maintenance Only Monthly Quarterly

Table with 3 columns: Block Contract (Time or Usage), Base & Overage Black Copies/Prints, Base & Overage Color Copies/Prints. Rows include Copies per Cycle, Cost per Cycle, Months per Cycle, Copies Included, Minimum Base Charge, and Overage cost/copy.

Block contracts: Invoiced on meter cycles. Each cycle is good for a specified number of copies or period of time, whichever comes first.

Base and overage contracts: This Agreement is for one (1) year and will be invoiced for a minimum base charge plus overage at the specified intervals.

This Agreement will continue to renew annually unless THIRTY - (30) days written notice of cancellation, by either party, is given prior to the Annual Anniversary. Prices subject to change annually.

In addition to the above Comprehensive Customer Support Agreement, we have made available to you the customer, Optional Maintenance that will cover items as specified in the Platinum Upgrade only while an EGP Comprehensive Customer Support Agreement is in effect for the covered equipment.

Platinum Upgrade

By upgrading to our Platinum Coverage, you authorize EGP to add a one-time charge, per system. In exchange, EGP will install a state-of-the-art surge suppressor/energy filter and will cover print systems, fax options, scan boards and hard drives excluded in the Standard Customer Support Agreement.

- I agree to purchase the Platinum Upgrade and understand all the terms and conditions as outlined.
I am declining to purchase the Platinum Upgrade and understand all the terms and conditions as outlined.

Customer Service: 1-800-451-9407

Comprehensive Customer Support Agreement

3.f.2.

Under the **Standard Customer Support Agreement** EGP, Inc. will furnish all service, parts, labor, drum, developer to produce a published guaranteed yield. Copies are based on an 8.5" x 11" sheet of bond paper, in addition on "wide format" equipment copies are based on "count" (linear foot). Excludes paper, staples and any network support including maintenance required after the end-user installs software, software updates, or any changes to the operating systems are made; optional print systems, fax options, hard drives or any optional items as related to your digital system except as covered in the Platinum Upgrade.

EXCLUSION STATEMENTS

Digital Copiers: Maintenance only - Shall cover all service, parts and labor, excluding toner, developer, imaging units, maintenance kits, staples, disposal tanks, paper, optional print systems, fax options, hard drives and any network support.

Color Copiers: Maintenance only - Shall cover all service, parts and labor, excluding toner, developer, fuser oil, staples, disposal tanks and paper.

Color Printers: Maintenance only - Shall cover all service, parts and labor, excluding toner, charger units, imaging units, disposal tanks, fuser oil, fuser cleaner, fusing unit and maintenance kit/development units.

Black/White Printers: Maintenance only - Shall cover all service, parts and labor, excluding toner, drum kit, developer kit, maintenance kit, fuser unit, process unit, and scanner unit.

Facsimile: Maintenance only - Shall cover all service, parts and labor, excluding toner and imaging units.

Duplicators: Maintenance only - Shall cover all service, parts and labor, excluding ink, masters and drums.

GENERAL TERMS AND CONDITIONS

1. This Annual Maintenance Program shall not apply to repairs made necessary by accident, misuse, abuse, neglect, theft, vandalism, electrical power failure, water, acts of God, or other causality or to repairs made necessary by service performed by personnel other than EGP Inc.
2. The equipment shall be in good mechanical condition on the date of commencement of this Agreement, as determined by EGP Inc. and its service technicians.
3. This Agreement is not assignable and is automatically cancelled with respect to the particular machines, should the equipment it covers be sold to a third party.
4. In the event the equipment is moved out of EGP Inc.'s normal service area, EGP Inc. shall have the right to immediately terminate this Agreement and cease all future service on the equipment.
5. Excluded from this Agreement are modifications to the equipment and overhauls.
6. Service hours – Monday through Friday, 8:30 am – 5:00 pm. EGP Inc. will be closed on the following holidays: New Year's, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.
7. Drums replaced as a result of normal use will be replaced at no charge. The following conditions would be the exception. Replacement of abused drums will be charged at full price. Examples of how a drum can be abused are listed below:
 - a. Touching the drum with fingers / foreign objects or use of supplies other than those recommended by the manufacturer.
 - b. Allowing machine to be used in an environment contrary to manufacturer's recommendations.
 - c. Not following customer required maintenance, as outlined by the manufacturer.
8. This Agreement does not cover:
 - a. Service necessitated by exceeding manufacturers recommended volume limitations, the malfunction of Non-Original Manufacturer's Equipment, parts, supplies, attachments, or supplies not authorized by EGP Inc.
 - b. Repairs or cleaning necessitated by the improper installation of toner, developer or foreign agents.
 - c. Exterior and add-on copy counting or monitoring devices (i.e. Hecon, Copyguard system).
 - d. Expenses incurred for supplies consumed in the course of servicing, damage or misuses by the customer are non-recoverable and replenishment of such supplies is the sole responsibility of the customer.
 - e. Equipment movements or relocations
9. Customer agrees to:
 - a. Provide suitable electrical service and maintain proper environmental conditions. (i.e. power filter & surge protection).
 - b. Pay for special servicing required to prepare the equipment for movement or to reinstall and adjust after a movement.
 - c. Provide EGP Inc. with meter readings as needed and to accept estimated meter readings based on service history.

- 10. *Network Support: I hereby authorize EGP, Inc. and their representatives to operate the computer systems for purposes of testing, troubleshooting and inspection at my risk. They may install the necessary materials (both hardware and software) into the described equipment. EGP, Inc. shall not be held liable for any expenses or damages incurred during the installation or use of the above hardware or software by EGP or yourself.*
- 11. *Installation Agreement and Disclosure: I hereby authorize EGP Inc. and their representatives to operate the computer systems for purposes of testing, troubleshooting and inspection at my risk. They may install the necessary materials (both hardware and software) into the described equipment. EGP Inc. shall not be held liable for any expenses or damages incurred during the installation or use of the above hardware or software by EGP, yourself or any third party. I agree not to hold EGP Inc. responsible for any loss or damage due to fire, theft, accident, or by any other cause. I acknowledge that an integral part of this installation procedure and normal operation of a computer system is the performance of regular back-ups. EGP Inc. will not perform a back-up of my computer systems, and I hereby release EGP Inc. from any liability regarding lost data on any fixed or removable drives.*
- 12. *Software Agreement: By using the provided software and associated materials, the user agrees that they have read, understood and will comply with the following Agreement. This software and any associated material is provided "as-is" and EGP Inc. makes no representations or warranties, including but not limited to the use, ownership, portability, or distribution of the provided software. EGP Inc. shall not be liable for any damages or expenses incurred, with respect to any claims by the user or any third party, arising from the installation, use or the inability to use the provided software and associated material. Title to the copyright of the software and associated materials shall at all times remain with the creator. Any use, distribution, copying, or modifying of the software or associated materials shall be subject to the terms of the creator.*
- 13. *Recommended Computer Requirements: I understand that the digital equipment may not function properly on computer systems or networks that have not met the specified minimum requirements. Any expenses incurred while satisfying the network and computer systems hardware or software requirements by the user, EGP Inc. or any third party shall be the sole responsibility of the purchaser. No refunds of installation fees will be given if all minimum requirements are not satisfied.*
- 14. *This Agreement contains the entire understanding, Agreement and contract between EGP Inc., and the Customer and each agrees that no representation, warranty or covenant was made by or on behalf of the other that is not contained in the Agreement, and that in entering into this Agreement neither party relied upon any representation, warranty or covenant not herein contained.*
- 15. *Handwritten and/or typewritten provisions inserted into this Agreement initialed by both parties and approved by an EGP Authorized Officer shall control over the typewritten provisions in conflict therewith.*
- 16. *This Agreement shall be governed by, and interpreted and enforced in accordance with the laws of the State of Florida.*
- 17. *If any legal action or other proceeding or action is brought forth for the enforcement of this Agreement, or because of an alleged dispute, breach, default, or misrepresentation in connection with any provision of the Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs, and all other expenses, even if not taxable court costs (including without limitation, all such fees, costs and expenses incident of arbitration, appellate, bankruptcy, and post-judgement proceedings), incurred in that action or proceeding or any appeal, in addition to any other relief to which the party or parties may be entitled. Furthermore, the Customer agrees to pay all costs of collection including reasonable attorney's fees whether suit be brought or not, incurred by EGP Inc., in collecting any past due balances or recovering any equipment.*
- 18. *Customer's exclusive remedy and EGP Inc.'s entire liability, in contract, tort, or otherwise, shall be to make all necessary repairs to the Equipment and to keep the Equipment in good operating condition. In no event shall EGP Inc. be liable for any indirect, special or consequential damages arising from the Agreement or the use of the Equipment or any service provided under this Agreement.*
- 19. *In the event the Agreement is terminated prior to the end of the Agreement term, either by the Customer or by EGP Inc. as a result of a Customer default, the Customer shall nonetheless be obligated to pay EGP Inc. all amounts due for the balance of the Agreement term. These amounts shall be accelerated and become due and payable immediately upon such termination.*

By signing, you agree that you have read, understand and will comply with all terms, conditions and statements listed. This Agreement must be approved by an EGP Authorized Officer before binding on EGP, Inc.

CITY OF WILDWOOD
100 N. MAIN ST.
WILDWOOD, FL 34785

(352)-330-1335
aborrack@wildwood-fl.gov

Dear Alice,

Thank you for the opportunity to analyze your copier requirements. This proposal has been prepared to give you a complete and accurate picture of your copying needs and how they can best be met with a **KYOCERA COLOR DIGITAL IMAGING SYSTEM**.

For clarity of presentation, the complete report is divided into the following sections:

- Specifications
- Service

With your approval, we can finalize the paperwork and begin preparing for delivery, installation and training. All figures are plus tax.

Sincerely,

A handwritten signature in cursive script that reads 'Callie'.

CITY COMMISSION OF THE CITY OF WILDWOOD

EXECUTIVE SUMMARY

SUBJECT: Fee Waiver for Wildwood Community Center

REQUESTED ACTION: Commission Approval

Work Session (Report Only)
 Regular Meeting

DATE OF MEETING: July 9, 2012
 Special Meeting

CONTRACT: N/A
Effective Date: _____
Managing Division / Dept: _____

Vendor/Entity: _____
Termination Date: _____

BUDGET IMPACT: N/A

Annual
 Capital
 N/A

FUNDING SOURCE: _____

EXPENDITURE ACCOUNT: _____

HISTORY/FACTS/ISSUES:

Mayor and Commission,

I have received two fee waiver requests for use of the Wildwood Community Center by area Churches. Both are asking for all fees to be waived if possible.

1. Rev. Sidney Brock with Heritage Community Church. Mr. Brock is having a teacher appreciation meal on August 7, 2012 from 10:00am to 2:00pm. He anticipates 200 participants and is planning to feed all teachers from the Wildwood Elementary, Middle and High schools. This event is free for the teachers to attend and the Church will be showing their appreciation for all that they do during the school year. August 7, 2012 is a Tuesday the week before school starts. They would need access to a kitchen and the Washington room, as well as the sound system.

2. Rev. Marc Fennimore with First Baptist Church of Wildwood would like to have a dinner/music event for the community of Wildwood on December 8, 2012. December 8 is the second Saturday of the month and they are asking for use of the entire bottom floor from 9:00am to 9:00pm. They are expecting up to 500 people to attend with two music presentations during the event. They are having a sit down dinner with music as a gift to the residents.

The Community Center Rules and Regulations Category G (No waiver) states, "Religious Organizations, services, events- in keeping with the separation of church and state dictum: 1.) Not be eligible for fee-waiver consideration..."

Staff is asking for the guidance of the Commission to answer the fee waiver requests.

Sincerely,

Jenny Hudson

CATEGORIES OF USES OR EVENTS (FEE WAIVER STATUS)

CATEGORY:	DESCRIPTION:	AGENCIES:	EXAMPLES:
<p>D (Waiver - Yes)</p>	<p>City governmental use, or use sponsorship - is exempt from these waiver requests as the assumption is that the use is for specific benefit of the residents or businesses of the community.</p>	<p>Summer Youth Camp Parks & Recreation Committee Dixie Youth Baseball Wildwood Crime Watch Emergency Management Karate Classes</p>	<p>1.) Summer Youth Camp Purposes 2.) Parks & Recreation Committee of the City 3.) Dixie Youth Baseball Draft 4.) Wildwood Crime Watch Program meeting 5.) Emergency Management Meeting on Storm Preparedness 6.) Karate Classes (City Parks & Rec Program, paid instructor)</p>
<p>E (Probably Not)</p>	<p>Other governmental entities with ad valorem taxing ability: 1.) Should not request or expect city government revenues to supplant or supplement their general uses or event charges</p>	<p>Elections Office Tax Assessors Office School Board</p>	<p>1.) Elections officer meeting for poll workers 2.) Tax Assessors informational meeting 3.) School Board Citizens Advisory Group meeting</p>
<p>F (Probably Not)</p>	<p>Clubs or Groups: 1.) Normally are not afforded any special waiver status 2.) Other venues are recommended if charges are not affordable 3.) Other county organizations & governmental entities have meeting rooms for these purposes</p>	<p>Four-H Club Quarterback Club Miona Lake Golfers Assoc. Parkwood Manor Residents Assoc. Wildwood Karate Club Jujitsu Classes Realtor's Association</p>	<p>1.) Four-H Club meeting for members, parents 2.) Quarterback Club meeting 3.) Miona Lake Golfers Assoc. meeting 4.) 85-8012617876C-3	08/28/2007	08/31/2012	RELIGIOUS-PHYSICAL PLACE
Certificate Number	Effective Date	Expiration Date	Exemption Category

This certifies that

FIRST BAPTIST CHURCH OF WILDWOOD
402 OXFORD ST
WILDWOOD FL 34785-4015

is exempt from the payment of Florida sales and use tax on real property rented, transient rental property rented, tangible personal property purchased or rented, or services purchased.

Important Information for Exempt Organizations

DR-14
R. 04/05

1. You must provide all vendors and suppliers with an exemption certificate before making tax-exempt purchases. See Rule 12A-1.038, Florida Administrative Code (FAC).
2. Your *Consumer's Certificate of Exemption* is to be used solely by your organization for your organization's customary nonprofit activities.
3. Purchases made by an individual on behalf of the organization are taxable, even if the individual will be reimbursed by the organization.
4. This exemption applies only to purchases your organization makes. The sale or lease to others by your organization of tangible personal property, sleeping accommodations or other real property is taxable. Your organization must register, and collect and remit sales and use tax on such taxable transactions. Note: Churches are exempt from this requirement except when they are the lessor of real property (Rule 12A-1.070, FAC).
5. It is a criminal offense to fraudulently present this certificate to evade the payment of sales tax. Under no circumstances should this certificate be used for the personal benefit of any individual. Violators will be liable for payment of the sales tax plus a penalty of 200% of the tax, and may be subject to conviction of a third degree felony. Any violation will necessitate the revocation of this certificate.
6. If you have questions regarding your exemption certificate, please contact the Exemption Unit of Central Registration at 850-487-4130. The mailing address is PO BOX 6480, Tallahassee, FL 32314-6480.

HISTORY/FACTS/ISSUES:

Mayor and Commission,

The Wildwood High School class of 1992 is planning a class reunion for September 1, 2012. They are asking for the rental fees to use the President's Hall to be waived because they have limited funding. If they were to pay the rental fee the cost would be \$601.65 for five hours use of the building. The staff person fee is \$40.00. The application that was submitted states that tickets will not be sold for the event.

Staff recommends that the applicant should have to pay the rental fee as this type of function is no different then if a small party/function reserved the community center. If you allow for one class reunion to reserve the facility free of charge then we would have to allow other reunions of the same kind a fee waiver for use of the building.

Thank you,

Jenny Hudson

RE: Forfeiture of Property to the Police Department

Section 705.105, Florida Statutes, provides evidence vests permanently in the law enforcement agency sixty days after the conclusion of the proceeding in which the evidence was seized. The statute provides that if the property is of appreciable value, the law enforcement agency may elect to retain the property for the agency's own use; transfer the property to another unit of state or local government; donate the property to a charitable organization; or sell the property at public sale.

The following items and/or currency listed below have been confiscated by this department pursuant to Florida Statute 705.105.

I'm requesting the currency listed below be deposited into the Law Enforcement Trust Fund.

CITY COMMISSION OF THE CITY OF WILDWOOD

EXECUTIVE SUMMARY

SUBJECT: SP 1206-01 EAJ Warehouse Site Plan

REQUESTED ACTION: Site Plan approval (SP 1206-01) to construct a 5,000 sq. ft. warehouse building on Lot 5B in Business Park 44 South with paved parking and driveway (Parcel G17C005B).

Work Session (Report Only) **DATE OF MEETING:** 7/9/2012
 Regular Meeting Special Meeting

CONTRACT: N/A Vendor/Entity: _____
Effective Date: _____ Termination Date: _____
Managing Division / Dept: _____

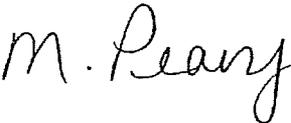

BUDGET IMPACT: _____

Annual **FUNDING SOURCE:** _____
 Capital **EXPENDITURE ACCOUNT:** _____
 N/A

HISTORY/FACTS/ISSUES:

The applicant seeks Site Plan approval from the City Commission to construct a 5,000 sq. ft. warehouse building on Lot 5B in Business Park 44 South with paved parking and driveway. The building will be used for personal storage. **Staff recommends approval of the Site Plan, subject to approval, exemption or permitting of the project by all agencies of competent jurisdiction.**

Case SP 1206-01 was considered by the Planning & Zoning Board/Special Magistrate on Tuesday, July 3, 2012. The Planning & Zoning Board/Special Magistrate gave a favorable recommendation of the Site Plan to the City Commission.

Melanie Peavy
Development Services Director

City of Wildwood
Planning & Zoning Board/Special Magistrate

The case below was heard on Tuesday, July 3, 2012 by the Special Magistrate. The applicant seeks approval and favorable recommendation from the Wildwood Planning and Zoning Board/Special Magistrate for Site Plan approval of a 5,000 sq. ft. building on Lot 5B in Business Park 44 South with associated driveway and parking. The site is generally located to the southwest of the intersection of Signature Drive and CR 156 in Business Park 44 South.

Case: SP 1206-01

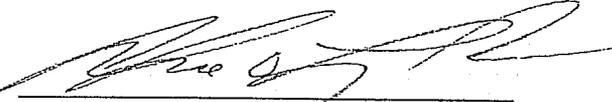

Parcel(s): G17C005B

Owner: Alan Carey

Applicant: Alan Carey

Based upon the testimony and information presented, the Special Magistrate recommends approval and favorable recommendation of Site Plan SP 1206-01 to the City Commission, subject to approval, exemption, or permitting of the project by all agencies of competent jurisdiction.
