

Please take notice that with respect to the case of Rosalind Weaver v. City of Wildwood (Case No. 2013 CA 268) the City of Wildwood will be sending out a limited number of notices to certain members of the class. If you receive one of these notices, it is being issued to you due to an error which caused the City to send its initial claim form to the wrong address. The City has not re-opened the claim period to every member of the class, and these notices will only be provided to the specific individual(s) or business at the address that the notices are delivered to. Please note that if you previously submitted a claim form and received a refund, receipt of the notice does not entitle you to a second refund.
