3.24. Sign Standards

- (A) *Purpose, Intent and Scope.* It is the purpose of this section to promote the public health, safety and general welfare through reasonable, consistent and non-discriminatory sign standards. The sign regulations in this section are also designed and intended to meet the statutory requirement that this municipality adopt land development regulations that regulate signage, a requirement set forth in Section 163.3202(2)(f), Florida Statutes. The sign regulations in this section are not intended to censor speech or to regulate viewpoints, but instead are intended to regulate the adverse secondary effects of signs. The sign regulations are especially intended to address the secondary effects that may adversely impact aesthetics and safety. The sign regulations are designed to serve substantial governmental interests and, in some cases, compelling governmental interests such as traffic safety and warning signs of threats to bodily injury or death.

This section regulates signs, as defined in these Land Development Regulations, which are placed on private property or on property owned by public agencies including the city and over which the city has zoning authority. This section is not intended to extend its regulatory regime to objects that are not traditionally considered signs for purpose of government regulation.

The City of Wildwood is primarily a single family residential community. In order to preserve and promote the city as a desirable community in which to live, visit, and do business, a pleasing and visually attractive environment is of foremost importance. The regulation of signs within the city is a highly contributive means by which to achieve this desired end.

These sign regulations have been prepared with the intent of enhancing the visual environment of the city and promoting its continued well-being, and are intended to:

- (1) Encourage the effective use of signs as a means of communication in the city;

- (2) Maintain and enhance the aesthetic environment and the city's ability to attract sources of economic development and growth;
- (3) Improve pedestrian and traffic safety;
- (4) Minimize the possible adverse effect of signs on nearby public and private property;
- (5) Foster the integration of signage with architectural and landscape designs;
- (6) Lessen the visual clutter that may otherwise be caused by the proliferation, improper placement, illumination, animation, excessive height, and excessive size (area) of signs which compete for the attention of pedestrian and vehicular traffic;
- (7) Allow signs that are compatible with their surroundings and aid orientation, while precluding the placement of signs that contribute to sign clutter or that conceal or obstruct adjacent land uses or signs;
- (8) Encourage and allow signs that are appropriate to the zoning district in which they are located;
- (9) Establish sign size in relationship to the scale of the lot and building on which the sign is to be placed or to which it pertains;
- (10) Preclude signs from conflicting with the principal permitted use of the site and adjoining sites;
- (11) Regulate signs in a manner so as to not interfere with, obstruct the vision of or distract motorists, bicyclists or pedestrians;
- (12) Except to the extent expressly preempted by state or federal law, ensure that signs are constructed, installed and maintained in a safe and satisfactory manner, and protect the public from unsafe signs;
- (13) Preserve, conserve, protect, and enhance the aesthetic quality and scenic beauty of all districts of the city;
- (14) Allow for traffic control devices consistent with national standards and whose purpose is to promote highway safety and efficiency by providing for the orderly movement of road users on streets and highways, and that notify road users of regulations and provide warning and guidance needed for the safe, uniform and efficient operation of all elements of the traffic stream;
- (15) Protect property values by precluding, to the maximum extent possible, sign types that create a nuisance to the occupancy or use of other properties as a result of their size, height, illumination, brightness, or movement;
- (16) Protect property values by ensuring that sign types, as well as the number of signs, are in harmony with buildings, neighborhoods, and conforming signs in the area;
- (17) Regulate the appearance and design of signs in a manner that promotes and enhances the beautification of the city and that complements the natural surroundings in recognition of this city's reliance on its natural surroundings and beautification efforts in retaining economic advantage for its resort community, as well as for its major subdivisions, shopping centers and industrial parks;
- (18) Enable the fair and consistent enforcement of these sign regulations;
- (19) Promote the use of signs that positively contribute to the aesthetics of the community, are appropriate in scale to the surrounding buildings and landscape, and advance the city's goals of quality development;
- (20) Provide standards regarding the non-communicative aspects of signs, which are consistent with city, county, state and federal law;
- (21) Provide flexibility and encourage variety in signage, and create an incentive to relate signage to the basic principles of good design; and

(22) Assure that the benefits derived from the expenditure of public funds for the improvement and beautification of streets, sidewalks, public parks, public rights-of-way, and other public places and spaces, are protected by exercising reasonable controls over the physical characteristics and structural design of signs.

(B) *Definitions.* In addition to the definitions set forth herein, the Definitions in Chapter 2 of these Land Development Regulations shall apply to this section to the extent that they do not conflict with the definitions set forth herein. Any term or phrase not defined therein shall have its commonly understood meaning. The following definitions shall apply to this section:

The following conditions shall be considered as the failure to operate or maintain a sign: (1) the sign displays advertising for a product or service which is no longer available, (2) the sign displays advertising for a business which is no longer licensed, or (3) the sign is blank. An abandoned sign includes a sign on which is advertised a business that no longer has a certificate of occupancy or that is no longer doing business on the parcel where the sign is located. An abandoned sign includes a sign for a purpose for which the purpose has lapsed.
- (2) *Animated sign* means a sign which includes action, motion, or color changes, or the optical illusion of action, motion, or color changes, including signs using electronic ink, signs set in motion by movement of the atmosphere, or made up of a series of sections that turn, including any type of screen using animated or scrolling displays, such as an LED (light emitting diode) screen or any other type of video display.
- (3) *Area of sign* means the square foot area within a continuous perimeter enclosing the extreme limits of the sign display, including any frame or border. Curved, spherical, or any other shaped sign face shall be computed on the basis of the actual surface area. In the case of painted wall signs composed of letters, shapes, or figures, or skeleton letters mounted without a border, the sign area shall be the area of the smallest rectangle or other geometric figure that would enclose all of the letters, shapes and figures. The calculation for a double-faced sign shall be the area of one face only provided the sign is parallel and no greater than 24" apart or angled more than 30 degrees. Double-faced signs shall be so constructed that the perimeter of both faces coincide and are parallel and not more than twenty-four (24) inches apart.
- (4) *Attached sign* means any sign attached to, on, or supported by any part of a building (e.g., walls, awning, windows, or canopy), which encloses or covers useable space.

(E) *General Provisions for Signs.* The following general sign provisions shall apply to this division and to all lawful conforming and nonconforming signs, unless otherwise indicated.

(1) *Measurement of Sign Size (Sign Area).* The area of a sign is measured or calculated as follows:

- (a) *Background panel signs.* Sign copy that is mounted, affixed, or painted on a background panel or area distinctively painted, textured or constructed as a background for the sign copy, is measured as that area contained within the sum of the smallest rectangles, squares, triangles, parallelograms, circles or ellipses that will enclose both the sign copy and the background.
- (b) *Background surface signs.* The area of a sign consisting of copy mounted as individual letters or graphics against a wall, fascia, or parapet of a building surface or another surface, that has not been painted, textured, or otherwise altered to provide a distinctive background for the sign copy, is measured as the sum of the smallest rectangles, squares, triangles, parallelograms, circles or ellipses that will enclose each word, graphic or discrete visual element in the total sign.
- (c) *Illuminated background signs.* The area of a sign with copy mounted, affixed, or painted on an illuminated surface or illuminated element or a building or structure, is measured as the entire illuminated surface or illuminated element which contains sign copy.
- (d) *Double-faced signs.* If a sign has two display faces, and the interior angle between the two faces is thirty (30) degrees or less or parallel and 24" apart or less, then the sign area is considered one sign face only, for purposes of calculation; however, if the two faces are of different sizes or shapes, then the larger is used. If the sign has two display faces, and the interior angle between the two faces is greater than thirty (30) degrees or parallel and more than 24" apart, then the sign area is the sum of the areas of the two faces.
- (e) *Multi-faced signs.* If a sign has three or more faces, then the sign area is equal to fifty (50) percent of the aggregate area of all sign faces. The area of each face shall be determined according to subsection (a) or (b) of this section, as applicable.
- (f) *Sculptural and nonplanar signs.* The area of a spherical, free form, sculptural or other nonplanar sign is fifty (50) percent of the sum of the areas, using only the four vertical sides of the smallest four-sided polyhedron which will completely enclose the entire sign structure.

(2) *Measurement of Sign Height.* The height of a freestanding sign shall be measured as the vertical distance from the average finished grade of the ground below the sign excluding any filling, berming, mounding or excavating solely for the purposes of increasing the height of the sign, to the top edge of the highest portion of the sign. The maximum height allowed for a freestanding sign, however, shall not include any architectural embellishment provided the embellishment does not exceed thirty-six (36) inches at the base of the sign and eighteen (18) inches at the top of the sign. For the purposes of this section, average finished grade shall be considered the lower of (a) the lowest elevation where the base of the sign meets ground level; or (b) the top of the curb of the nearest public street adjoining the

- property upon which the sign is erected, or (c) the grade of the land at the principal entrance to the lot on which the sign is located.
- (3) *Sign Setbacks.* All signs shall be set back at a minimum of ten (10) feet from the property line, except otherwise stated in this Section. Monument signs may be allowed in the C-1 Zoning District only if the ten foot sign setback can be met.
- (4) *Sign Illumination for Temporary Signs and Permanent Signs.*
- (a) Sign illumination is prohibited for temporary signs.
 - (b) Permanent sign on a parcel in residential use. A permanent sign located on a parcel in residential use in any zone may not be separately or specially illuminated, unless otherwise specified in this division.
 - (c) Permanent sign on a parcel in nonresidential use. A permanent sign on a parcel in nonresidential use may be illuminated by internal illumination, or lit by external indirect illumination, unless otherwise specified in this division. However, a permanent sign may not be illuminated in a manner that leaves the illumination device exposed to public view.
 - (d) Internal illumination. For the purposes of calculating compliance with the thirty (30) day deadline for a decision upon an application or the fourteen (14) day deadline for a decision upon request for reconsideration, the decision shall be deemed made when deposited in the mail, transmitted electronically, or hand delivered to the applicant.
- (e) As exceptions to the foregoing, the thirty (30) day deadline for approval and the fourteen (14) day deadline for a decision upon receipt of a request for a reconsideration shall not apply (that is, the time shall be suspended).
 - (i) In any case in which the application requires a rezoning of the property, or an amendment to the comprehensive plan of the city, then upon written request of the applicant delivered to the Development Services director by certified mail before the applicable deadline, the time shall be suspended until a final decision is made upon the application for the variance, rezoning, or comprehensive plan amendment.

- (ii) If the applicant is required to make any change to the application in order to obtain an unconditional approval so as to satisfy an express provision of state law, the LDR, or the City of Wildwood Code of Ordinances, then upon the written request of the applicant delivered by certified mail to the Development Services director before the applicable deadline, the time shall be suspended while the applicant makes such change.
- (iii) If an applicant is required by state statute or by any express provision of either the LDR or the Code of Ordinances of the City of Wildwood, to obtain an approval of the sign from any other governmental agency within the limitations set forth in Section 166.033(4), Florida Statutes, then upon the request of the applicant in writing delivered by certified mail before the applicable deadline, the time shall be suspended. The time shall remain suspended until such approval is obtained or until the applicant requests in writing delivered by certified mail to the Development Services director that the city take final action. The City shall comply with the provisions of Section 166.033(4), Florida Statutes.
- (iv) In any of the foregoing cases, the applicant may elect to not make any changes to the application or to not obtain an approval that may be required by another governmental agency, and may instead demand in writing a final decision upon the sign permit application as filed. Such a written demand shall be delivered by certified mail to the Development Services director. In such event, the director of planning and development shall make a decision on the application as appropriate within thirty (30) business days after receiving such demand. If a decision is not made in such a time, the application shall be deemed denied.
- (f) Any person aggrieved by the decision of the Development Services director upon a sign permit application, or aggrieved by any failure by the Development Services director or by any other city official to act upon a sign permit application in accordance with the LDR, shall have the right to seek an appeal to the Board of Adjustment in accordance with Section 1.11 of the City of Wildwood Land Development Regulations, filed in accordance with the requirements of law, seeking such appropriate remedy as may be available.
- (g) If an applicant believes that his or her speech rights are being denied due to enforcement of subsection (8)c. or (8)e., above, he or she may immediately contact the Development Services Director, in writing via certified letter, and request immediate review of any pending sign permit application. If such a letter is received by the Development Services director, the city shall have twenty (20) days to review the permit application as under subsection (8)a., above, notwithstanding the provisions of subsection (8)c or (8)e., above. If the Development Services director does not respond to the applicant following receipt of the certified letter, the substance of the applicant's complaint shall be deemed rejected.
- (h) If an application is deemed incomplete, the applicant may either take steps to submit a complete application or challenge the City's decision by seeking an appeal to the Board of Adjustment in accordance with Section 1.11 of the City of Wildwood Land Development Regulations, filed in accordance with the requirements of law, seeking such appropriate remedy as may be available.

- (9) Sign permit fees. Before issuance of a permit, the Development Services director shall collect the necessary sign permit fees. The sign permit fees shall be as designated by resolution of the city council.
- (10) Inspection. The Development Services director may make or require any inspections to ascertain compliance with the provisions of this division and the Land Development Regulations.
- (11) Revocation of sign permit. If the work under any sign permit is proceeding in violation of this division, the Land Development Regulations, or the Florida Building Code, or should it be found that there has been any false statement or misrepresentation of a material fact in the application or plans on which the sign permit was based, the permit holder shall be notified of the violation. If the permit holder fails or refuses to make corrections within ten (10) days, it shall be the duty of the Development Services director to revoke such sign permit and serve notice upon such permit holder. Such notice shall be in writing and signed by the Development Services director. It shall be unlawful for any person to proceed with any part of work after such notice is issued.
- (H) *Building Permits.* It shall be unlawful for any person or business or the person in charge of the business to erect, construct, alter or maintain a sign structure, as defined in the Florida Building Code, without first obtaining a building permit in accordance with the provisions of the Florida Building Code and applicable law. Permit fees for a building permit shall be paid in accordance with the applicable city fee schedules. The requirement of a building permit under the Florida Building Code is separate and independent of the requirement for a sign permit under this division.
- (I) *Nonconforming Signs.* All signs that are lawfully in existence or are lawfully erected and that do not conform to the provisions of this division are declared nonconforming signs. It is the intent of this division to recognize that the eventual elimination of nonconforming signs as expeditiously and fairly as possible is as much a subject of health, safety, and welfare as is the prohibition of new signs that would violate the provisions of this division. It is also the intent of this division that any elimination of nonconforming signs shall be effected so as to avoid any unreasonable invasion of established property rights. Existing billboards shall be governed by Section (J).
- (1) Legal nonconforming signs:
- (a) A legal nonconforming sign is a sign that lawfully existed at the time of the enactment of this division that does not conform to the regulations as specified in this division.
- (b) A legal nonconforming sign may continue to be utilized only in the manner and to the extent that it existed at the time of the adoption of this division or any amendment thereof.
- (c) A legal nonconforming sign may not be altered in any manner not in conformance with this division and shall not be structurally altered to prolong the life of the sign. This does not apply to reasonable repair and maintenance of the sign.. Reasonable repair and maintenance of nonconforming signs, including change of copy, is permitted, as provided for herein. Reasonable repair and maintenance means the work necessary to keep the sign, including the sign structure, in a good state of repair, but does not include replacement of materials in the sign structure. Reasonable repair does not include:
- (i) Any modification that changes the structure, or type of structure, such as conversion of a wooden sign structure to a metal sign structure;
- (ii) Any modification, including the addition of embellishments, that changes the sign area or the height above ground level;

- (iii) Any modification that enhances the visibility of the sign's copy, or the period of time that the copy is visible;
 - (iv) Any modification that adds changeable faces or electronic message signs; or
 - (v) Any modification that adds artificial lighting, or changes the existing lighting such that illumination is increased.
- (d) Should a nonconforming sign become damaged, destroyed or deteriorated by any means to the extent that it requires more than reasonable repair and maintenance, as defined in subsection (c) above, then the sign shall not be reconstructed except in compliance with the sign code. In the event that a nonconforming sign was approved as part of a site plan zoning approval, then the nonconforming sign may be reconstructed in accordance with the site plan zoning approval.
- (e) Any building permit for an addition, alteration, or improvement valued at more than fifty (50) percent of the fair market value of the structure or building for work at locations where any nonconforming sign exists shall specify and require that such nonconforming signs located within the boundaries of the development site, and within the limits of the applicant's control, shall be brought into conformance with the provisions of this division, provided that if the nonconforming sign is a type of sign that is prohibited under section 3.24(D), Prohibited Signs in All Zoning Districts, it shall be removed.
- (f) Legal nonconforming signs that are located on a parcel of property that is severed from a larger parcel of property and acquired by a public entity for public use by condemnation, purchase or dedication may be relocated on the remaining parcel without extinguishing the legal nonconforming status of that sign provided that the nonconforming sign:
- (i) Is not increased in area or height to exceed the limits of the zoning district in which it is located;
 - (ii) Remains structurally unchanged except for reasonable repairs or alterations;
 - (iii) Is placed in the most similar position on the remaining property that it occupied prior to the relocation; and
 - (iv) Is relocated in a manner so as to comply with all applicable safety requirements.

After relocation pursuant to this subsection, the legal nonconforming sign shall be subject to all provisions of this section in its new location.

(2) Signs rendered nonconforming:

- (a) Except as provided in this section, a nonconforming sign may continue in the manner and to the extent that it existed at the time of the adoption, amendment or annexation of the division that rendered the sign nonconforming. This section shall not prohibit reasonable repairs and alterations to nonconforming signs.
- (b) A nonconforming sign shall not be re-erected, relocated or replaced unless it is brought into compliance with the requirements of this division. An existing monument sign that conforms to the size and height limitations set forth herein, but is otherwise nonconforming, may be relocated a single time to another location on the same parcel.

(3) Signs for a legal nonconforming use:

- (a) New or additional signs for a nonconforming use shall not be permitted.

- (b) A nonconforming sign for a nonconforming use that ceases to be used for a period of sixty (60) consecutive days or is replaced by a conforming use, shall be considered a prohibited sign and shall be removed or brought into conformance upon establishment of a conforming use.
- (4) Signs discontinued:
- (a) The right to use nonconforming sign shall be deemed to be discontinued upon the occurrence of one or more of the following:
 - (i) A change of use of the parcel or structure;
 - (ii) A change in occupancy of the parcel or structure;
 - (iii) A change in business type at the location of the parcel or structure; or
 - (iv) The vacancy of a sign structure.
 - (b) Sign structures that remain vacant, unoccupied or devoid of any message, or display a message pertaining to a time, event or purpose that no longer applies, for a period of ninety (90) days, shall be deemed to be discontinued .
 - (c) A nonconforming sign deemed discontinued shall immediately terminate the right to maintain such sign.
 - (d) After a sign structure has been deemed discontinued, it shall be the responsibility of the property owner or the property owner's authorized agent to remove the discontinued sign and to patch and conceal any and all damage to any other structure resulting from removal of the sign.
 - (e) Removal of a discontinued nonconforming sign shall include all sign support components, angle irons, poles, and other remnants of the discontinued sign that are not currently in use or proposed for immediate reuse as evidenced by a sign permit application for a permitted sign.
- (5) Unsafe signs:
- (a) If the building official determines any sign or sign structure to be in an unsafe condition, he/she shall immediately notify, in writing, the owner of such sign who shall correct such condition within forty-eight (48) hours.
 - (b) If the correction has not been made within forty-eight (48) hours, the building official may have the sign removed if it creates a danger to the public safety or have any necessary repairs or maintenance performed at the expense of the sign owner or owner or lessee of the property upon which the sign is located.
- (J) Billboard signs.
- (1) Billboard signs are prohibited. After the effective date of City of Wildwood Ordinance No. 2017-03 [February 13, 2017], the erection of billboard signs is hereby prohibited for the purposes and reasons set forth in City of Wildwood Ordinance No. 2017-03.
 - (2) Definitions.
 - (a) Legally existing billboard signs defined. For purposes of this section, nonconforming billboard signs, defined as follows, are legally existing billboard signs.
 - (b) A nonconforming billboard sign is defined as:
 - (i) Any billboard sign that was legally erected prior to the effective date of City of Wildwood Ordinance No. 2017-03 [February 13, 2017] pursuant to a permit issued by the City of Wildwood; or
 - (ii) Any billboard sign that was legally erected before a permit was required by the city for off-site signs; but which billboard sign complies completely with the City of Wildwood's off-site sign regulations; or

(iii) Any billboard sign erected after the effective date of City of Wildwood Ordinance No. 2017-03 [February 13, 2017], that is the subject of, and is erected in strict accordance with an active permit issued by the city prior to the effective date of City of Wildwood Ordinance No. 2017-03 [February 13, 2017]. No permits shall be issued for the erection of billboard signs after the effective date of City of Wildwood Ordinance No. 2017-03 [February 13, 2017], except as otherwise provided for in this section.

Any billboard sign which does not constitute a nonconforming billboard sign, as described above, shall be deemed either a prohibited sign or an abandoned sign and shall be removed on or before February 16, 2020. Nonconforming billboard signs shall be allowed to remain so long as such signs conform with the regulations set forth in this section.

(3) Standards pertaining to legally existing billboard signs. Any legally existing billboard sign as described above shall be subject to the following standards:

(a) A legally existing billboard sign is allowed to contain noncommercial speech in lieu of any other speech.

(b) Substitution or interchange of letters, poster panels, painted boards or demountable materials shall be permitted; provided that any such substitution or interchange shall not increase the size, shape, height or the number of sign faces of the sign, except as otherwise provided for in this section.

(c) Maintenance and Repair of Monopole and Non-Monopole Billboards.

(i) Monopole Billboards: Nonconforming billboard signs which are constructed as monopole billboards may be maintained and repaired, but shall not be structurally or mechanically extended or altered except as required by the building official of the city in cases where it has been determined by said building official that there exists an imminent danger to the public safety; provided, however, no structural change shall be permitted which would increase the height, size, shape or intensity of lighting of a nonconforming billboard sign except as provided for in this section. For the purposes of this section, a monopole billboard is defined as a billboard constructed with a steel pole, I-beam or equivalent as primary support, with a catwalk, and a single display panel.

(ii) Non-Monopole Billboards: Nonconforming billboard signs which are not monopole billboards may be maintained and repaired, but shall not be structurally or mechanically extended or altered, except as provided below, or as required by the building official of the city in cases where it has been determined by said building official that there exists an imminent danger to the public safety; provided, however, no structural change shall be permitted which would increase the height, size, shape or intensity of lighting of a nonconforming billboard sign except as provided for in this section. A non-monopole billboard may be upgraded to and replaced with a monopole billboard; provided, however, that the upgrade to a monopole billboard shall not increase the overall size of the single display panel of the non-monopole billboard.

(d) Any nonconforming billboard sign which is destroyed to the extent of seventy-five (75) percent of its current assessed value (based on the records of the Sumter County Property Appraiser) shall not be rebuilt or repaired, unless:

- (i) Within thirty (30) calendar days after the destruction of the nonconforming billboard sign, the owner of the sign files an application with the city clerk petitioning city council to allow the reconstruction and maintenance of the nonconforming billboard sign for a period not to exceed seven (7) years; and
- (ii) The owner of the nonconforming billboard signs provides substantial and competent evidence to city council that: (i) the billboard sign was originally erected less than seven (7) years prior to the date on which the sign was destroyed; and (ii) the sign owner has failed to recoup the sign owner's investment in the nonconforming billboard sign as of the date of the sign's destruction. If such evidence is presented, the city Commission may allow the sign owner to rebuild or repair the nonconforming billboard sign and to maintain said sign for an additional period of time as determined by the city council in order to allow the sign owner time to recoup his or her investment; provided, however, such a period of time shall not exceed seven (7) years. At the conclusion of said period, the billboard sign shall be removed.

If the nonconforming billboard sign cannot be rebuilt or repaired, then the owner of the sign shall be responsible for removing all remaining portions of the sign structure within sixty (60) calendar days after the date of destruction of the billboard sign.

- (e) Any nonconforming billboard sign which becomes an abandoned sign shall be removed.
 - (f) No nonconforming billboard sign shall be relocated except as provided in subsection (4). In the event a legally existing, nonconforming billboard sign is relocated, the relocation of the sign shall not result in any increase in the size, height or number of sign faces of the nonconforming billboard sign.
 - (g) All nonconforming billboard signs shall be the subject of an operating permit issued in accordance with subsection (d). Any nonconforming billboard sign which does not possess an annual operating permit in accordance with (d) shall be deemed to constitute an abandoned sign.
- (4) Relocation of nonconforming billboard signs. No nonconforming billboard sign may be relocated unless one (1) of the following conditions exist or will occur as a result of the relocation:
- (a) The relocation of the nonconforming billboard sign is expressly allowed by, and is made in accordance with, the terms of a variance granted by the city prior to the effective date of City of Wildwood Ordinance No. 2017-03; or
 - (b) The nonconforming billboard sign is located on land which is being acquired for public right-of-way purposes as a part of a federal or state road, including, without limitation, the "federal-aid primary highway system," the "interstate highway system," and the "state highway system" as those terms are defined in Fla. Stat. § 479.01; and further provided that the sign owner, property owner, and the condemning authority elect in writing to relocate the nonconforming billboard sign in accordance with Fla. Stat. § 479.15, (2016). In such an event, the nonconforming billboard sign may be relocated in accordance with standards and requirements of Fla. Stat. § 479.15, (2016); provided, however, the applicant shall demonstrate to the city that the proposed relocation conforms completely with the requirements and standards contained in Fla. Stat. § 479.15, (2016). In the event that Fla. Stat. §

479.15, (2016), is later amended, revised, superseded or revoked, then the relocation of nonconforming billboard signs shall only be allowed or permitted in accordance with such amendments, revisions or superseding statutes enacted by the Florida Legislature.

In addition to satisfying one (1) of the foregoing conditions, no relocation shall occur until the nonconforming billboard sign being relocated has been removed.

(K) *Miscellaneous Provisions.*

(1) *Maintenance of Sign Location.* For a sign requiring a sign permit, weeds and grass shall be kept cut in front of, behind, underneath, and from around the base of the sign for a minimum distance of ten (10) feet from the sign base, and there shall be no rubbish or debris within ten (10) feet of the sign base or underneath the sign.

(2) *Ingress and Egress Signs.* For safety purposes and for traffic circulation purposes, permanent ingress and egress signs to a parcel are permitted provided the same do not exceed four (4) square feet in size and no more than three (3) feet in height. Such signs shall not require a permit.

(L) *Penalties.* Penalties for violation of this Section 3.24 shall be as provided in Section 1-7 of the Code of Ordinances of the City of Wildwood; however, notwithstanding anything in the LDR or in the City of Wildwood Ordinance Code to the contrary, a penalty for a violation of this Section 3.24 shall be limited to civil penalties only and shall not extend to any criminal penalty including but not limited to incarceration. Upon observation of any violation of this Section 3.24, a City of Wildwood Code Inspector, as defined in Chapter 2, Article V – Special Master Code Enforcement Procedure of the City of Wildwood Code of Ordinances, reserves the right to enforce penalties including but not limited to the physical removal of any nonconforming or prohibited signs, in addition to the enforcement procedure outlined in the aforementioned Chapter 2, Article V of the City of Wildwood Code of Ordinances.

(M) *Severability.*

(1) Generally. If any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this Section 3.24 is declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, the declaration of such unconstitutionality shall not affect any other part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this section.

(2) Severability where less speech results. Without diminishing or limiting in any way the declaration of severability set forth above in subsection (1), above, or elsewhere in this Section 3.24, the City of Wildwood Code of Ordinances, or any adopting ordinance, if any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this section is declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, the declaration of such unconstitutionality shall not affect any other part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this division, even if such severability would result in a situation where there would be less speech, whether by subjecting previously exempt signs to permitting or otherwise.

(3) Severability of provisions pertaining to prohibited signs. Without diminishing or limiting in any way the declaration of severability set forth above in subsection (1), above, or elsewhere in this Section 3.24, the City of Wildwood Code of Ordinance, or any adopting ordinance, if any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this section or any other law is declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, the declaration of such unconstitutionality shall not affect any other part, section, subsection, paragraph,

subparagraph, sentence, phrase, clause, term, or word of this Section 3.24 that pertains to prohibited signs, including specifically those signs and sign types prohibited and not allowed under section 3.24(D), Prohibited Signs, of this Section 3.24. Furthermore, if any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of section 3.24(D) is declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, the declaration of such unconstitutionality shall not affect any other part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of section 3.24(D) thereby ensuring that as many prohibited sign types as may be constitutionally prohibited continue to be prohibited.

- (4) Severability of prohibition on billboards. If any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this section and/or any other Code provisions and/or laws are declared invalid or unconstitutional by the valid judgment or decree of any court of competent jurisdiction, the declaration of such unconstitutionality shall not affect the prohibition on billboards as contained in this Section 3.24 or in the City of Wildwood Code of Ordinances.

3.25. Tiny House Planned Developments

(A) *Purpose.* The purpose of this Section is to establish regulations relating to the development of Tiny House neighborhoods within the City limits.

(B) *Definitions.* The following terms shall be defined for purposes of this Section as follows:

- (1) *Tiny House* shall be defined as a principal, permanent residential dwelling unit that has a total square footage (inclusive of any additional stories) of between 170 square feet and 1,100 square feet. The minimum width of a Tiny House shall be 8.5 feet, with a maximum width of 25 feet. Tiny houses shall follow and comply with all other applicable building codes.
- (2) *Tiny House on Wheels (THOW)* shall be defined as a tiny house which is either built on a trailer or is towable by a bumper hitch, frame-towing hitch, or fifth wheel connection, and cannot move under its own power. Tiny House on Wheels shall not be permitted in the City of Wildwood, except under the specific provisions of this Section.
- (3) *Pocket Neighborhood* or *Tiny House Neighborhood* shall be defined as a neighborhood of tiny houses. Each pocket neighborhood shall have a minimum of 4 tiny houses and a maximum of 12 tiny houses.

(C) *Planned Development Required.* Each proposed tiny house development shall be required to obtain a Planned Development overlay consistent with the requirements of Chapter 8 and its subsections. Each Pocket Neighborhood shall be considered as a separate phase of development. Tiny House Planned Development overlays shall be permitted in the following zoning districts: ARD, MHP, RMU, RMU-10, RIO, NMU-4, NMU-7, ECNMU-7, CMU, CC, CDT, SWCMU, R-2, R-3, R-4, and R-5. Lot requirements should follow Table 3-4: Density, Intensity, and Lot Standards for the zoning district in which the Planned Development is proposed; however, due to the unique nature of tiny houses and pocket neighborhoods, some requirements within Table 3-4, including minimum living area requirements, shall not apply. Additional deviations from Table 3-4 may be approved at the sole discretion of the Development Services Director.

(D) *Applicability of the Design District Standards.* Each tiny house shall be designed to adhere to the Residential Design District Standards. Tiny House on Wheels shall only be permitted under the conditions that all aspects of the Design District Standards are met, and; after the house is delivered to the site, the trailer or bumper hitch, frame-towing hitch, and wheels shall be removed and the
