

Please keep your trash can and property clean!

Here are some tips to keep your trash cans clean and free from foul odors and insect pests.

- Trash should be disposed of in trash bags, knotted on top, and placed inside the bins.
 - Wrapping food waste will keep your trash can clean.
- If your trash can is stained with waste fluids, rinse it with water and detergent.
 - Ensure the trash can lid is kept closed at all times.

Trash container storage shall not be located in the front yard or near the roadway.

Remember, trash cans may be placed out by the curb no earlier than 7:00 PM the night before collection and must be removed from the curb no later than 7:00 PM after collection!

We respectfully ask for your cooperation to ensure a clean environment.

Thank you for helping keep the City of Wildwood clean.
