Finance Department

The Finance Department strives to maintain fiscal responsibility in the delivery of municipal services through the provision of timely, complete, and accurate financial information. All financial transactions are prepared in a timely manner in accordance with generally accepted governmental accounting principles as well as local, state, and federal laws. This department is also responsible for monitoring the annual budget and managing investments. A link to the current budget is provided below.

Annual audits are provided by an external audit firm to ensure the city is in compliance.
