

Lake Deaton Park Pier Decking Renovation Project Bid Questions Log

10/27/2023

Item #	Drawing / Specification	Question Submitter	Date Submitted	Question	Response Date	Response
1	C1.0	Custom Built Marine Construction, Inc.	10/20/2023	The length of the sidewalks is not cleared in the drawing.		A total of 226 linear feet of 5' wide standard duty sidewalk and 23 linear feet of 5' wide heavy duty sidewalk is proposed in the drawings.
2	C1.0	Custom Built Marine Construction, Inc.	10/20/2023	What sidewalk length will remain from the Realign Sidewalk to the new replacement boardwalk?		There is approximately 68 linear feet of existing sidewalk to remain from the proposed realigned sidewalk extending from the parking area to the proposed pier improvement area.
3	N/A	Custom Built Marine Construction, Inc.	10/20/2023	What is the Engineer Estimate?		An Engineer's Estimate will be provided with Addendum #1.
4	C1.0	Custom Built Marine Construction, Inc.	10/20/2023	What is the measurement of the existing sod area where paving goes?		Approximately 535 square feet of new pavement is proposed within the center of the boat ramp turn-around area. An additional 879 square feet of new pavement is proposed with the widening of the parking area.
5	N/A	Custom Built Marine Construction, Inc.	10/20/2023	Proposed starting day of project?		This project is expected to start towards the end of December or the beginning of January.
